Mayor Iride McCloy
Kapiti Coast District Council
Private Bag 601
PARAPARAUMU

Dear Iride

Kapiti Roothing

Information is sought on Kapiti Coast District Council's progress with respect to the Kapiti Local Connector (Western Link Road) as regards to the programme in the Wellington Regional Land Transport Strategy, page 56 "Before 2004, Design and Construct the first stage", page 57 "After 2004, Construct the remainder".

I am aware from media reports that Kapiti Coast District Council has recently achieved some progress in resolving some of its difficulties with this project at the Environment Court. In the meantime questions are being asked about Transit New Zealand's strategy with respect to SH1 Paraparaumu to Waikanae. The appropriate forum to review these matters is the Regional Land Transport Committee. The Regional Land Transport Committee meets next on 26 June 2001 and I would appreciate having authoritative up to date information from Kapiti Coast District Council to inform the discussion.

I am copying this letter to other participants in the discussion.

Yours sincerely

TERRY McDAVITT
Chair, Regional Land Transport Committee
