

Appendix 1

Status of Surface Water Takes – June 2004

Surface Water Zone / Catchment ¹	Policy 6.2.1 of RFP? ²	Fully Allocated? ³	Moratorium? ⁴	Close to Full Allocation? ⁵	Priority for WAP ⁶
Upper Ruamahanga zone (u/s Wardells)	Yes	Yes	N/A	N/A	N/A
Upper Ruamahanga zone (d/s Wardells)	Yes	No	N/A	93%	N/A
Kopuaranga zone	Yes	Yes	N/A	N/A	N/A
Lower Ruamahanga zone	Yes	No	N/A	81%	2*
Waiohine zone	Yes	No	N/A	99%	N/A
Waingawa zone	Yes	No	N/A	97%	N/A
Waipoua zone	Yes	No	N/A	88%	N/A
Tauherenikau River catchment	Yes	No	N/A	72%	N/A
Mangatarere zone	In progress	?	Yes	Yes	1
Parkvale zone	No	?	Yes	Yes	1
Papawai zone	No	?	Yes	Yes	2
Donalds Creek catchment	No	?	Yes	Yes	2
Otakura zone	No	?	Yes	Likely	2
Dock Creek catchment	No	?	Yes	Likely	2
Taueru zone	No	?	Yes	Likely	2
Whangaehu zone	No	?	Yes	Likely	2
Makoura Stream catchment	No	?	Yes	Likely	3
Lake Wairarapa zone	No	?	No	Possibly	2
Masterton streams zone (except Makoura Stream catchment)	No	?	No	Possibly	4
Aorangi zone (eastern tributaries from Aorangi ranges)	No	?	No	Possibly (in some areas)	2/3
Eastern hills zone	No	?	No	Possibly (in some areas)	4
Rimutaka zone (except Donalds Creek catchment)	No	?	No	Possibly (in some areas)	4
Tauherenikau zone (except Tauherenikau River catchment)	No	?	No	Possibly (in some areas)	3

* Although policy 6.2.1 of the RFP covers the Lower Ruamahanga River, this needs to be reviewed.

¹ The Wairarapa has been divided up into a number of surface water management zones which in some areas includes multiple catchments. Some specific catchments within these zones may be identified as either fully allocated or warrant particular investigation over other catchments in the same zone.

² Policy 6.2.1 of the RFP identifies minimum flows and allocation levels for various watercourses.

³ Assessment as to whether each watercourse is fully allocated is only based on those watercourses identified in policy 6.2.1 of the RFP.

⁴ In 2001, moratoriums were put in place in a number of surface water management zones and catchments due to concern that these areas may be fully allocated or over allocated. Obviously moratoriums were considered not applicable for zones or catchments covered by policy 6.2.1 of the RFP.

⁵ Only zones or catchments identified in policy 6.2.1 of the RFP have been assessed in terms of a % allocated. In all other zones or catchments the assessment of whether the zone or catchment is fully allocated is based on yes (i.e. high level of certainty that zone/catchment is fully allocated), likely (i.e. reasonable level of certainty that zone/catchment is fully allocated), or possibly (i.e. no level of certainty that zone/catchment is fully allocated – may be room to allocated more water)

⁶ Priority ratings for zones/catchments were given in 2001.
