Committee Civil Defence Emergency Management Group
Author Bruce Pepperell, Regional Manager

Regional Fuel Planning Project update

1. Purpose

To update the CDEM Group on the progress of the regional fuel plan project.

2. Background

Fuel (diesel and petrol) is essential in any response to an emergency. Accordingly there is a need to support the fuel industry in planning for distribution to and distribution around the Wellington region during an emergency event. This includes identifying CDEM critical customers who will be the priority fuel customers in such an event.

The fuel plan is a requirement of the Wellington Region CDEM Group Plan and will align with the National Civil Defence Emergency Management Fuel Plan (SP 03/12).

3. Fuel plan

Initial work on the fuel plan, including liaising with the Lifeline Utilities Coordinator and the fuel industry has begun.

In early 2015 a workshop will be held with the wider fuel industry to discuss the plan and potential solutions. Consultation on the Fuel Plan will then occur with the wider CDEM Group and any other interested parties. The final plan will be approved by the CEG Sub Committee and reported to both the CEG and the Joint Committee.

4. Recommendations

That the CDEM Group:

1. *Receives the report.*
2. *Notes the content of the report.*
