Summary of Decisions Requested: Submitter Names beginning with H

Submitter Name	Submission point number	Plan Provision	Support /oppose	Summary of decision requested
Hamish Trolove	S31/001	1.4 Integrated catchment management	Amend	Implementation of some sort of controls on the Waitua Committees and a Science based Veto / overview to ensure their decisions and demands are in the best interests of all stakeholders (including the environment).
Hamish Trolove	S31/002	Objective O7: Water for livestock	Amend	Add a comment about only being enough to provide water for appropriate stocking rates and livestock type.
Hamish Trolove	S31/003	Objective O13: Protecting regionally significant infrastructure	Support	Support
Hamish Trolove	S31/004	Objective O22: Hard engineering	Support	Support
Hamish Trolove	S31/005	Policy P121: Preventing salt water intrusion	Amend	Build in flexibility and clauses that can reduce the allocation to agriculture as climate change effects increase the need for resilience in the natural water systems.
Hamish Trolove	S31/006	Policy P130: Bores	Amend	Put in a mention of bores for ground source heat pumps, and put some really strong controls around this. The USEPA has some good rules around these activities.
Hamish Trolove	S31/007	Policy P132: Functional need and efficient use	Amend	Recognition that some structures will be providing valuable habitat and it may be worth leaving them in place in special circumstances.
Hamish Trolove	S31/008	Policy P138: Structures in sites with significant values	Amend	Include a comment about marine energy devices (at least those that are below the water surface)

Hamish Trolove	S31/009	Rule R2: Frost prevention devices - permitted activity	Not stated	[Seeks clarification that rule is correct - do frost prevention devices produce any emissions?]
Hamish Trolove	S31/010	Rule R36: Agrichemicals - permitted activity	Amend	[Rule R36(g)] Include continuous monitoring of spray drift onto neighbouring areas.
Hamish Trolove	S31/011	Rule R102: Plantation forestry harvesting on erosion prone land - permitted activity	Amend	Include a statement on Carbon Sink forests - esp their desirability in erosion prone land (seeing as they are permanent forests.)
Hamish Trolove	S31/012	Rule R126: Placement of a dam in an outstanding water body - non-complying activity	Amend	[Include] a statement in the rules about the suitability of silt removal from old dams as part of refurbishment or dam maintenance.
Hamish Trolove	S31/013	Method M17: Reduce waste and use water and energy efficiently	Support	Support
Hamish Trolove	S31/014	Policy P95: Discharges to land	Amend	Recognise some discharges can cause soil to emit climate changing gases at a higher rate than they would do otherwise.
Hamish Trolove	S31/015	Policy P96: Managing land use	Amend	Recognise effect of land use change and land cover on region's climate change emissions profile.
Hamish Trolove	S31/016	Policy P97: Managing sediment discharges	Amend	Recognise effect of land use change and land cover on region's climate change emissions profile.
Hamish Trolove	S31/017	Policy P98: Accelerated soil erosion	Amend	Recognise effect of land use change and land cover on region's climate change emissions profile.
Hamish Trolove	S31/018	Policy P105: Protecting trout habitat	Amend	[Policy P105] Investigate ecological effects of trout having been introduced.

Hamish Trolove	S31/019	Policy P111: Water takes at minimum flows and water levels	Amend	Make reference to appropriate stocking rates and animal types.
Hamish Trolove	S31/020	Policy P114: Priorities when demand exceeds supply	Amend	Reorder priority to put stock below other values.
Hamish Trolove	S31/021	Policy P118: Reasonable and efficient use	Support	Support
Hamish Trolove	S31/022	Policy P119: Unused water	Amend	Build in flexibility and clauses that can reduce allocation to agriculture as climate change effects increase need for resilience.
Hamish Trolove	S31/023	Policy P54: Open fires	Amend	Ban open fires in all airsheds.
Hamish Trolove	S31/024	Policy P56: Outdoor burning	Amend	Grow services that can make use of agricultural wastes that would otherwise be burned.
Hamish Trolove	S31/025	Policy P60: Agrichemicals and fumigants	Amend	Amend to ensure good practice is implemented at all times.
Hamish Trolove	S31/026	Policy P63: Improving water quality for contact recreation and Maori customary use	Amend	Encourage stormwater storage in built up areas.
Hamish Trolove	S31/027	Policy P68: Inappropriate discharges to water	Oppose	Remove dispensation for recreational craft to dump wastewater.

Hamish Trolove	S31/028	Policy P87: Minimising adverse effects of wastewater discharges from vessels and offshore installations	Amend	Amend to ships and boats of all sizes.
Hamish Trolove	S31/029	Policy P7: Uses of land and water	Amend	Beneficial use for irrigation should be properly measured
Hamish Trolove	S31/030	Policy P12: Benefits of regionally significant infrastructure and renewable electricity generation facilities	Support	Support
Hamish Trolove	S31/031	Policy P24: Outstanding natural character	Support	Support
Hamish Trolove	S31/032	Policy P29: Climate change	Amend	Amend policies and [rules and methods] to have stronger control of activities that increase emission of climate change gases.
Hamish Trolove	S31/033	Policy P47: Appropriate demolition	Amend	Recognise some derelict structures provide valuable habitat.
Hamish Trolove	S31/034	Policy P42: Protecting and restoring ecosystems and habitats with significant indigenous biodiversity values	Support	Support
Hammond Limited	S132/001	Objective O8: Allocation regime	Support	Retain O8.

Hammond Limited	S132/002	Objective O19: Natural processes	Amend	Amend O19 as follows: The interference from use and development on natural processes is minimised <u>where appropriate</u> .
Hammond Limited	S132/003	Objective O25: Aquatic ecosystem health and mahinga kai	Amend	Amend O25 as follows: To safeguard <u>provide for</u> aquatic ecosystem health and mahinga kai in fresh water bodies and coastal marine area: (a) water quality, flows, water levels and aquatic and coastal habitats are managed to maintain <u>provide for</u> aquatic ecosystem health and mahinga kai, and (b) restoration of aquatic ecosystem health and mahinga kai is encouraged <u>where appropriate</u> , and ...
Hammond Limited	S132/004	Objective O30: Trout	Amend	Amend O30 as follows: The habitat of trout identified in Schedule I (trout habitat) is maintained and <u>where appropriate</u> improved <u>over time</u> .
Hammond Limited	S132/005	Objective O33: Significant mana whenua values	Amend	Amend O33 as follows: Sites with significant mana whenua values are <u>recognised and</u> protected and restored <u>where appropriate</u> .
Hammond Limited	S132/006	Objective O35: Significant indigenous biodiversity values	Amend	Ecosystems and habitats with significant indigenous biodiversity values are protected and restored <u>where appropriate</u> .
Hammond Limited	S132/007	Objective O52: Efficient allocation	Support	Retain O52.

Hammond Limited	S132/008	Policy P4: Minimising adverse effects	Amend	Amend P4 as follows:... (b) <u>where practicable</u> locating the activity away from areas identified in Schedule A (outstanding water bodies), Schedule C (mana whenua), Schedule E (historic heritage), Schedule F (indigenous biodiversity), and(c) timing the activity, or the adverse effects of the activity, <u>where practicable</u> to avoid times of the year when adverse effects may be more severe, or times when receiving environments are more sensitive to adverse effects, and ...
Hammond Limited	S132/009	Policy P6: Synchronised expiry and review dates	Support	Retain P6.
Hammond Limited	S132/010	Policy P7: Uses of land and water	Amend	Amend P7 to add a new condition recognising farming as beneficial as follows: ... <u>(l) farming.</u>
Hammond Limited	S132/011	Policy P8: Beneficial activities	Support	Retain P8.
Hammond Limited	S132/012	Policy P20: Exercise of kaitiakitanga	Support in part	Add detail into PNRP to identify how co-governance and shared decision-making will function in practice in the context of resource consent applications and decisions.
Hammond Limited	S132/013	Policy P26: Natural processes	Amend	Amend P26 as follows:Use and development will be managed to minimise effects on the integrity and functioning of natural processes <u>where appropriate</u> .
Hammond Limited	S132/014	Policy P31: Aquatic ecosystem health and mahinga kai	Amend	Amend P31 as follows:Aquatic ecosystem health and mahinga kai shall be maintained or restored <u>where appropriate</u> by managing the effects of use and development on physical, chemical and biological processes to: ...
Hammond Limited	S132/015	Policy P32: Adverse effects on aquatic ecosystem health and mahinga kai	Support in part	Amend plan, including P32 and P45, to provide a consistent approach to offsetting, preferably an approach that provides for offsetting where appropriate.

Hammond Limited	S132/016	Policy P44: Protection and restoration of sites with significant mana whenua values	Amend	Amend P44 as follows: Sites with significant mana whenua values identified in Schedule C (mana whenua) shall be <u>recognised and protected</u> and/or] restored where appropriate.
Hammond Limited	S132/017	Policy P45: Managing adverse effects on sites with significant mana whenua values	Amend	Amend P45 to the following: In the first instance, activities in sites with significant mana whenua values identified in Schedule C (mana whenua) shall be avoided <u>where they would result in adverse effects on the mana whenua values for which the site is identified.</u> If the site cannot be avoided <u>and consent is required for the activity</u> , more than minor adverse effects on the significant mana whenua values must be evaluated through a cultural impact assessment must be undertaken by the relevant iwi authority or iwi authorities. [struck through part not shown in submission but is part of proposed policy] ... Where more than minor adverse effects on sites with significant mana whenua values identified in Schedule C (mana whenua) cannot be avoided, remedied or mitigated, the activity is <u>may be considered</u> inappropriate. Offsetting of effects in sites with significant mana whenua values is <u>may be considered</u> inappropriate.
Hammond Limited	S132/018	Policy P114: Priorities when demand exceeds supply	Support in part	Clarify what "other values" means in P114.
Hammond Limited	S132/019	Policy P115: Authorising takes below minimum flows and lake levels	Support	Retain P115.
Hammond Limited	S132/020	Policy P116: Reallocating water	Support	Retain P116.
Hammond Limited	S132/021	Policy P118: Reasonable and efficient use	Support	Retain P118.

Hammond Limited	S132/022	Policy P106: Management of plants in the beds of lakes and rivers	Amend	Amend P106 as follows:... (d) <u>any adverse effects on significant biodiversity values of the site from the introduction or removal of plants</u> does not adversely affect significant biodiversity values of the site <u>are remedied or mitigated.</u>
Hammond Limited	S132/023	Table 7.1: Minimum flows for rivers in the Ruamahanga River and Lake Wairarapa catchments	Support	Retain Table 7.1 minimum flow and measurement location for the Papawai Stream.
Hammond Limited	S132/024	Table 7.3: Surface water allocation amounts for rivers and groundwater directly connected to surface water in the Ruamahanga River catchments above the Lake Wairarapa outflow	Oppose	Increase minimum flow in the 'middle Ruamāhanga catchment - Papawai Stream and tributaries and category A groundwater' management subunit to reflect current consented allocation.
Hammond Limited	S132/025	Rule R1: Outdoor burning - permitted activity	Support	Retain R1
Hammond Limited	S132/026	Rule R89: Farm refuse dumps - permitted activity	Amend	Delete condition (g) of R89 as follows:... (g) there is no burning of the contents of a farm refuse dump, and...
Hammond Limited	S132/027	Rule R90: Manufacture and storage of silage and compost - permitted activity	Amend	Amend R90 as follows: ... d) the walls and floor of a silage storage area shall <u>where practicable</u> have an impermeable lining able to withstand corrosion, and there shall be no discharge of leachate to water, and ...

Hammond Limited	S132/028	Rule R135: General rule for taking, use, damming and diverting water - discretionary activity	Amend	Retain Rule 135 and add new restricted discretionary rule for applications to renew existing consents.
Hammond Limited	S132/029	Schedule C5: Sites of significance to Ngati Kahungunu ki Wairarapa and Rangitane o Wairarapa	Amend	Provide greater clarity on extent of site of significance for mana whenua values named 'Papawai Stream'.
Hammond Limited	S132/030	Map 7: Sites of significance to Ngati Kahungunu ki Wairarapa and Rangitane o Wairarapa (Schedule C5)	Amend	Provide greater clarity on extent of site of significance for mana whenua values named 'Papawai Stream'.
Hammond Limited	S132/031	Schedule I: Important trout fishery rivers and spawning waters	Oppose	Amend Schedule I to delete reference to Papawai Stream and consequently remove from Map 22.
Hammond Limited	S132/032	Map 22: Trout fishery rivers and trout spawning waters (Schedule I)	Oppose	Remove from Map 22 the Papawai Stream as a consequence of deleting it from Schedule I. [see S132/031]
Hammond Limited	S132/033	Entire Plan	Amend	In addition to the matters set out in submission points S132/001 - S132/032, seek the following amendment to the PNRP:(a) Any similar relief with like effect which addresses the submitter's concerns; and(b) Any consequential amendments which arise from the submitter's submission, the reasons for the submission or the relief sought.
Hayden Poole	S261/001	Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity	Oppose	Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach.

Hayden Thurston	S390/001	Category A groundwater	Amend	Amend [definition of directly connected]: <u>Ground water in the bore is at the same level as the water in the river and moves up and down with the level of the river.</u>
Hayden Thurston	S390/002	Regionally significant infrastructure	Amend	Add after treatment plants: water race networks and facilities for the irrigation of pasture and crops.
Hayden Thurston	S390/003	Unused water	Support	Retain.
Hayden Thurston	S390/004	Objective O8: Allocation regime	Amend	Amend Objective O8: "the social, <u>agricultural, industrial,</u> cultural and environmental benefits of taking and using water for current uses and also for future needs are recognised and provided for within the Plan's allocation framework"
Hayden Thurston	S390/005	Objective O25: Aquatic ecosystem health and mahinga kai	Amend	Remove [Objective 25(c)] Amend Table 3.6 to state the numerical amount: "nitrate in groundwater should not exceed human drinking water standards, i.e. 11.3".
Hayden Thurston	S390/006	Objective O52: Efficient allocation	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Hayden Thurston	S390/007	Policy P7: Uses of land and water	Amend	Add "diffuse contaminants" to (b). Retain (h).
Hayden Thurston	S390/008	Policy P11: In-stream water storage	Support	Retain.
Hayden Thurston	S390/009	Schedule P: Classifying and managing groundwater and surface water connectivity	Amend	[Amend Policy P107]: "(a) the groundwater connectivity described in Schedule P needs verifying and GW have a significant part to play in establishing the evidence"Insert (d) when Schedule P changes; "-ve effect on consent holders - 10 year lead in time to reflect cost, +ve effect - the water availability should be released immediately."

Hayden Thurston	S390/010	Policy P107: The framework for taking and using water	Amend	[Amend]: "(a) the groundwater connectivity described in Schedule P needs verifying and GW have a significant part to play in establishing the evidence" Insert (d) when Schedule P changes; "-ve effect on consent holders - 10 year lead in time to reflect cost, +ve effect - the water availability should be released immediately."
Hayden Thurston	S390/011	Policy P109: Lapse dates affecting water takes	Support	Support Policy P109.
Hayden Thurston	S390/012	Policy P111: Water takes at minimum flows and water levels	Amend	<u>Category A groundwater which shall be required to reduce take by 50% of the amount consented above minimum flows following a period of 10 days of continuous river levels at minimum flow.</u>
Hayden Thurston	S390/013	Rule R135: General rule for taking, use, damming and diverting water - discretionary activity	Amend	Make Rule R135 restricted discretionary.
Hayden Thurston	S390/014	Policy P115: Authorising takes below minimum flows and lake levels	Amend	Amend Policy P115 (d) category A groundwater which shall be required to reduce take by 50% of the amount consented above minimum flows <u>following a period of 10 days of continuous river levels at minimum flow.</u> Delete (c)(i)
Hayden Thurston	S390/015	Policy P116: Reallocating water	Support	Retain.
Hayden Thurston	S390/016	Policy P117: Supplementary allocation amounts at flows above the median flow	Support	Retain.
Hayden Thurston	S390/017	Policy P118: Reasonable and efficient use	Amend	Amend Policy P118 to read "while existing users replacing existing resource consents have a period of four years from the date of the plan being made operative <u>renewal of consent to meet the criteria.</u>

Hayden Thurston	S390/018	Policy P119: Unused water	Support	Retain.
Hayden Thurston	S390/019	Policy P120: Taking water for storage	Support	Retain.
Hayden Thurston	S390/020	Policy P128: Transfer of resource consents	Support	Retain.
Hayden Thurston	S390/021	Rule R137: Farm dairy washdown and milk-cooling water - permitted activity	Amend	Amend Rule R137 clause (b) by deleting words after "property..."
Hayden Thurston	S390/022	Rule R143: Temporary water permit transfers - controlled activity	Amend	Amend Rule R143 to be a permitted activity and not a controlled activity.
Hayden Thurston	S390/023	Rule R144: Transferring water permits - restricted discretionary activity	Support	Retain.
Hayden Thurston	S390/024	Method M13: Wairarapa water races	Amend	Insert after cultural values " <u>and economic values</u> of the Wairarapa water races..."
Hayden Thurston	S390/025	Method M18: Water use groups	Support	Retain.
Hayden Thurston	S390/026	Methods 19: Water management	Amend	Amend Method 19 (d) <u>quantify costs and benefits of water races and explore alternatives.</u>

Hayden Thurston	S390/027	Method M28: Development of good management practice guidelines.	Support	Retain.
Hayden Thurston	S390/028	Policy R.P3: Cumulative effects on river reaches of allocating water	Support	Insert after adverse effects: <u>that are measured</u> on aquatic...
Hayden Thurston	S390/029	7 Ruamahanga Whaitua	Oppose	Do not include Figures 7.3-7.8 in the plan until categories have been verified. Change the allocation amounts in Tables 7.3-7.5 to what is currently allocated or more if spare water has been identified.
Hayden Thurston	S390/030	Schedule P: Classifying and managing groundwater and surface water connectivity	Oppose	Needs empirical calibration by GW.
Hayden Thurston	S390/031	Schedule Q: Reasonable and efficient use criteria	Oppose	Remove sentence "the model must reliably predict annual irrigation volume within an accuracy of 15%"Add after field validated model: <u>for Wairarapa conditions</u> In (a) add after 80%: <u>where practicable</u>
Hayden Thurston	S390/032	Schedule R: Guideline for stepdown allocations	Amend	Add after health needs of people: <u>stock drinking water and rootstock protection</u> . [Acknowledge Table R1 is interim; consult with water users on further changes]
Hayden Thurston	S390/033	Category A groundwater	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Hayden Thurston	S390/034	Category 2 surface water body	Oppose	Exclude water races and drains from [definition of] Category Two [2 surface water body].
Hayden Thurston	S390/035	Schedule I: Important trout fishery rivers and spawning waters	Oppose	Specify criteria for "important" trout spawning rivers; delete those that don't meet the criteria. Trout should not be protected.

Hayden Thurston	S390/036	Map 22: Trout fishery rivers and trout spawning waters (Schedule I)	Oppose	Specify criteria for "important" trout spawning rivers: delete those that don't meet the criteria. Trout should not be protected.
Hayden Thurston	S390/037	Rule R97: Access to the beds of surface water bodies by livestock - permitted activity	Oppose	Extend the timeframes, e.g. Category 1 surface water bodies by 2020, category 2 surface water bodies by 2025. Exclude sheep from Category 1 surface water bodies. Delete requirement for dairy cow exclusion from hill country rivers >1 metre wide. Specify that stock exclusion from inanga or trout spawning sites is during the spawning season. Allow for stock drinking points. Ensure that alternative stock water supplies are available and rules don't apply until they are.
Hayden Thurston	S390/038	Stock crossing point	Oppose	Amend the definition of "stock crossing" to match hill country practicalities and effects.
Hayden Thurston	S390/039	Natural wetland	Oppose	Amend definition to exclude intermittent and ephemeral water bodies and clarify these do not include hill country seeps or paddocks subject to regular ponding, dominated by cultivated pasture, whether or not associated with sedge, raupo or rush species.
Hayden Thurston	S390/040	Significant natural wetland	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Hayden Thurston	S390/041	Schedule F3: Identified significant natural wetlands	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Hayden Thurston	S390/042	Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Oppose	Allow for planting introduced species for bees or ducks

Hayden Thurston	S390/043	Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Hayden Thurston	S390/044	Rule R107: Activities in natural wetlands and significant natural wetlands - discretionary activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Hayden Thurston	S390/045	Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity	Oppose	Allow diversion of water as part of a restoration plan.
Hayden Thurston	S390/046	Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Oppose	Allow use of machines rather than just hand held
Hayden Thurston	S390/047	Rule R83: Discharge of collected animal effluent onto or into land - controlled activity	Oppose	Undertake more rigorous regional cost-benefit analysis of pond storage and sealing requirements. Provide reasonable timeframes and a stepped approach for the installation of storage (eg 3-5 years). Clarify the definition of ponding; and exclude extreme weather events, breakdowns out of manager's control, be consistent with urban conditions. In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary. Extend consent timeframe to 20 years to reflect investment made.

Hayden Thurston	S390/048	Rule R93: All other discharges to land - discretionary activity	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Hayden Thurston	S390/049	Map 27a: Groundwater community drinking water supply protection areas - Wairarapa (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Hayden Thurston	S390/050	Map 27b: Groundwater community drinking water supply protection areas - Hutt Valley (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Hayden Thurston	S390/051	Map 27c: Groundwater community drinking water supply protection areas - Kapiti Coast (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Hayden Thurston	S390/052	Silage	Oppose	Change definition to specify this does not include baleage.
Hayden Thurston	S390/053	Rule R90: Manufacture and storage of silage and compost - permitted activity	Oppose	Delete requirement for impermeable lining; retain condition that there be no discharge to water. Delete requirement for location not allowed within 20m of a surface water body.
Hayden Thurston	S390/054	Rule R94: Cultivation or tilling of land - permitted activity	Oppose	Delete condition requiring a 5m setback.

Hayden Thurston	S390/055	Rule R95: Break-feeding - permitted activity	Oppose	Delete condition requiring a 5m setback.
Hayden Thurston	S390/056	Highly modified river or stream	Oppose	Change definition to include all streams that have been modified by human activity - straightening, deepening, channeling.
Hayden Thurston	S390/057	Rule R121: Maintenance of drains - permitted activity	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Hayden Thurston	S390/058	Rule R122: Removing vegetation - permitted activity	Oppose	[Condition l] Provide direction to landowners about the type of waterways on their land.
Hayden Thurston	S390/059	Method M14: Maintenance of drains	Oppose	Fast-forward Method M14 to develop agreed good practice for drain clearing prior to the hearing.
Hayden Thurston	S390/060	Earthworks	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Hayden Thurston	S390/061	Rule R99: Earthworks-permitted activity	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Hayden Thurston	S390/063	Erosion prone land	Oppose	Change definition to increase the slope and exclude stable substrate, e.g. greywacke.
Hayden Thurston	S390/064	Vegetation clearance	Oppose	Change definition to exclude hand clearance, hand or aerial spraying and roller crushing.
Hayden Thurston	S390/065	Rule R100: Vegetation clearance on erosion prone land - permitted activity	Oppose	See submission point on definition of "erosion prone" and "vegetation clearance".

Hayden Thurston	S390/066	Rule R101: Earthworks and vegetation clearance - discretionary activity	Oppose	Change rule to controlled or restricted discretionary with clear conditions.
Hayden Thurston	S390/067	Rule R114: River crossing structures - permitted activity	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Hayden Thurston	S390/068	Rule R115: Culverts - permitted activity	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Hayden Thurston	S390/069	Rule R125: Structures within a site identified in Schedule C (mana whenua) - restricted discretionary activity	Oppose	Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Hayden Thurston	S390/070	Rule R89: Farm refuse dumps - permitted activity	Oppose	Increase size from 50m3 to 100m3. Heavily prune the fourteen other conditions to focus on clear effects.
Hayden Thurston	S390/071	Rule R91: Offal pit - permitted activity	Oppose	Retain condition (a) and condition (h). Heavily prune the seven other conditions to focus on clear effects.
Hayden Thurston	S390/072	Rule R36: Agrichemicals - permitted activity	Oppose	Change condition (g) [spray plan] to more reasonably reflect practicalities and risks. [Regarding condition (e) community drinking water supply protection area] undertake a risk analysis to support condition for a controlled rule rather than discretionary.
Hayden Thurston	S390/073	Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity	Oppose	Amend condition (a) to reflect the practicalities of aerial fertiliser application.

Hayden Thurston	S390/074	Rule R48: Stormwater from an individual property - permitted activity	Oppose	Delete condition (a). Delete condition (e). Retain condition (g).
Hayden Thurston	S390/075	Entire Plan	Not stated	Support Wairarapa Federated Farmers submission [S352].
Hayden Thurston	S390/076	Policy P6: Synchronised expiry and review dates	Support in part	Retain and add (c) "consents will run for a period of 25 years"
Hayden Thurston	S390/077	5.6.3 Transferring water permits	Amend	[Make transferring water a permitted activity]
Hayden Thurston	S390/078	Category B groundwater (not directly connected)	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Hayden Thurston	S390/079	Category B groundwater (directly connected)	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Hayden Thurston	S390/080	Category C groundwater	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Heather Jean Phillips	S138/001	Entire Plan	Not stated	[Regarding electronic submission form:] Ask a question for a tick please supply the option of putting a tick not a X; or don't mention tick and say put a X in. Better still ask for Yes No.
Heather Jean Phillips	S138/002	Map 21d: Modelled river classes - Wellington Hutt Valley and Wainuiomata catchments (Table 3.1)	Amend	Part of a Class 1 river and all but 20m of a Class 3 river, on my property are incorrectly shown on Map 21d on GIS system. They are in fact ephemeral.
Heather Jean Phillips	S138/004	Entire Plan	Amend	[Include provisions to address the litter/rubbish/debris carried into water by flood events and ways to mitigate the sources of these pollutants in our waterways and flood zones]

Heather Jean Phillips	S138/005	Rule R36: Agrichemicals - permitted activity	Amend	Amend the plan to define "residential areas" either with maps or clarify where to find the legal map to be referred to.
Heather Jean Phillips	S138/006	Rule R36: Agrichemicals - permitted activity	Amend	Amend Rule R36 to read "hand-held and/or knapsack applications".
Heather Jean Phillips	S138/007	Rule R36: Agrichemicals - permitted activity	Amend	Define where a "spray plan" form/template is located or describe what is needed to be included in a "spray plan". Perhaps refer to NZS8409:2004 from M4.
Heather Jean Phillips	S138/008	Rule R36: Agrichemicals - permitted activity	Amend	Amend Rule R36 to refer instead to the Standard NZS8409:2004.
Heather Jean Phillips	S138/009	Schedule I: Important trout fishery rivers and spawning waters	Amend	Amend "Whakatikei Stream" to be "Whakatikei River" in Schedule I.
Heather Jean Phillips	S138/010	Map 22: Trout fishery rivers and trout spawning waters (Schedule I)	Amend	Amend Map 22 to include Moonshine Stream.
Heather Jean Phillips	S138/011	Map 22: Trout fishery rivers and trout spawning waters (Schedule I)	Amend	Amend Map 22 to include the Whakatikei River as an area of trout spawning water.
Heather Jean Phillips	S138/012	Map 22: Trout fishery rivers and trout spawning waters (Schedule I)	Amend	Amend the trout spawning maps to include the whole length of each river/stream, not just sections.
Heather Jean Phillips	S138/013	1.1 Overview of the Wellington Region	Amend	Amend the plan to include simple diagrams that show the general water quality and its change of state as you move from native forest to plantations to hill country to farmland to dairy land and to urban areas.
Heather Jean Phillips	S138/014	1.5.1 Statutory framework	Not stated	Amend the plan to cut out the excess and don't repeat information/regulations that are covered in other plans.

Heather Jean Phillips	S138/015	5.1.13 Ground-based and aerial applications	Amend	Registered chemical applicator certification should not be limited to one provider. Refer to GROWSAFE as an example of appropriate certification.
Hemi Remuera	S232/001	Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity	Oppose	Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach.
Henergy Cage-Free Limited	S116/001	Animal effluent	Amend	The definition of animal effluent be amended to exclude dry poultry manure, or amending the submitters second submission decision request.
Henergy Cage-Free Limited	S116/002	Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity	Amend	The discharge of raw poultry manure solids (where moisture levels by weight are less than 40%) to land for soil conditioning and fertilising pasture and cropping land be provided for as a permitted activity, subject to fair and reasonable standards; and any related or consequential amendments to give effect to the intent of this submission.
Henergy Cage-Free Limited	S116/003	Rule R83: Discharge of collected animal effluent onto or into land - controlled activity	Support in part	That Rule R83 be amended as follows, or similar with the same intent and effect: 1. That R83(c) be amended to read " <u>poultry farms (except as provided for in Rule R82 as a permitted activity)</u> "; and 2. That R83 Matter 2 be amended to read " <u>For dairy farm activities, maximum herd size for the property</u> "; 3. That Matter 3 be amended to read " <u>Nutrient loading rates, from the perspective of the ability of the soil and any pasture or crops to assimilate any nutrients and the effects of overland flow to be managed</u> ", and 4. That R83 Matter 5 be deleted in its entirety.
Heritage New Zealand	S94/001	1.5.2 Community views, scientific and technical information - identifying issues	Support	Retain provisions related to heritage protection.
Heritage New Zealand	S94/002	Objective O33: Significant mana whenua values	Support	Retain O33.

Heritage New Zealand	S94/003	Objective O34: Significant historic heritage values	Support	Retain O34.
Heritage New Zealand	S94/004	4. Policies	Support	Retain the policies relating to historic and cultural heritage.
Heritage New Zealand	S94/005	Policy P2: Cross-boundary matters	Support	Retain the policies relating to historic and cultural heritage.
Heritage New Zealand	S94/006	5. Rules	Support	Retain the rules that apply to requiring an assessment of disturbance in Schedule C and E4 sites.
Heritage New Zealand	S94/007	Schedule C: Sites with significant mana whenua values	Support	Retain the rules that apply to requiring an assessment of disturbance in Schedule C and E4 sites.
Heritage New Zealand	S94/008	Schedule E4: Archaeological sites	Support	Retain the rules that apply to requiring an assessment of disturbance in Schedule C and E4 sites.
Heritage New Zealand	S94/009	Rule R149: Maintenance or repair of structures - permitted activity	Support	Retention of R149, but with appropriate cross referencing and the use of clearer rule headings and web navigation options.
Heritage New Zealand	S94/010	Rule R169: Additions or alterations to structures identified in Schedule E1 and or Schedule E2 - restricted discretionary activity	Support	Retention of R169, but with appropriate cross referencing and the use of clearer rule headings and web navigation options.

Heritage New Zealand	S94/011	Rule R172: Removal, demolition or replacement of a structure or part of a structure identified in Schedule E1, Schedule E2 or Schedule E3 - discretionary activity	Support	Retain R169, but with appropriate cross referencing and the use of clearer rule headings and web navigation options.
Heritage New Zealand	S94/012	Entire Plan	Amend	Amend the plan to include cross referencing to direct readers around the coastal rules. Clearer rule headings and the use of web navigation techniques for the online document would also help.
Heritage New Zealand	S94/013	Method M23: Archaeological discovery protocols	Support in part	<p>Retain M23 but include another method regarding the use of Advice Notes on resource consents regarding the provisions of the Heritage New Zealand Pouhere Taonga Act 2015 This new method could be:</p> <p>The Heritage New Zealand Pouhere Taonga Act 2014 (HNZPTA) provides protection for all archaeological sites, whether recorded or not. It is unlawful to modify or destroy an archaeological site without the prior authority of Heritage New Zealand. Section 2 of the HNZPTA defines an archaeological site as:</p> <p>a) any place in New Zealand, including any building or structure (or part of a building or structure), that--</p> <p>(i) was associated with human activity that occurred before 1900 or is the site of the wreck of any vessel where the wreck occurred before 1900; and</p> <p>(ii) provides or may provide, through investigation by archaeological methods, evidence relating to the history of New Zealand;</p> <p>By careful project design, it is frequently possible to avoid any such modification. However, where avoidance of an archaeological site is not possible, an Archaeological Authority will be required. An Authority is also required if there is reasonable cause to suspect that an archaeological site may be modified or destroyed. Part 3 of the HNZPTA sets out the requirements for protecting archaeological sites and applying for authorities to modify or destroy such sites. All applications for Archaeological Authorities must be made to Heritage New Zealand.</p>

Heritage New Zealand	S94/014	Schedule E: Sites with significant historic heritage values	Support in part	Retention of the historic heritage schedules but clarification of whether the Taranaki Street Wharf and Queens Wharf items on Schedule E2 (and the rules that apply to it) include the Customs Post building located on Taranaki Wharf and the heritage Wellington Harbour Board gates located in the vicinity of both wharves. If not, Heritage New Zealand seeks the specific addition of these items. Heritage New Zealand seeks that the Clyde Quay Boat Harbour item on Schedule E1: Historic heritage structures be extended to cover the foreshore at the northwest end of the pool building, as shown on Attachment 2 of this submission.
Heritage New Zealand	S94/015	Schedule E: Sites with significant historic heritage values	Oppose	Amend Schedule E2 by adding Kings Wharf and Glasgow Wharf.
Heritage New Zealand	S94/016	Schedule C: Sites with significant mana whenua values	Support	Retain the listings in Schedule C.
Heritage New Zealand	S94/017	Schedule C: Sites with significant mana whenua values	Oppose	Amend Schedule C to include: Rangitatau - Wahi Tapu Area (List No. 9648).
Hitoshi Yamada	S24/001	Entire Plan	Support	[Not stated]
Hiwi Trust	S332/001	Category 2 surface water body	Oppose	Exclude water races and drains from [definition of] Category Two [2 surface water body].
Hiwi Trust	S332/002	Schedule I: Important trout fishery rivers and spawning waters	Oppose	Specify criteria for "important" trout spawning rivers; delete those that don't meet the criteria.
Hiwi Trust	S332/003	Map 22: Trout fishery rivers and trout spawning waters (Schedule I)	Oppose	Specify criteria for "important" trout spawning rivers: delete those that don't meet the criteria.

Hiwi Trust	S332/004	Rule R97: Access to the beds of surface water bodies by livestock - permitted activity	Oppose	Extend the timeframes, e.g. Category 1 surface water bodies by 2020, category 2 surface water bodies by 2025. Exclude sheep from Category 1 surface water bodies. Delete requirement for dairy cow exclusion from hill country rivers >1 metre wide. Specify that stock exclusion from inanga or trout spawning sites is during the spawning season. Allow for stock drinking points. Ensure that alternative stock water supplies are available and rules don't apply until they are.
Hiwi Trust	S332/005	Stock crossing point	Oppose	Amend the definition of "stock crossing" to match hill country practicalities and effects.
Hiwi Trust	S332/006	Natural wetland	Oppose	Amend definition to exclude intermittent and ephemeral water bodies and clarify these do not include hill country seeps or paddocks subject to regular ponding, dominated by cultivated pasture, whether or not associated with sedge, raupo or rush species.
Hiwi Trust	S332/007	Significant natural wetland	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Hiwi Trust	S332/008	Schedule F3: Identified significant natural wetlands	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Hiwi Trust	S332/009	Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Oppose	Allow for planting introduced species for bees or ducks
Hiwi Trust	S332/010	Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.

Hiwi Trust	S332/011	Rule R107: Activities in natural wetlands and significant natural wetlands - discretionary activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Hiwi Trust	S332/012	Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity	Oppose	Allow diversion of water as part of a restoration plan.
Hiwi Trust	S332/013	Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Oppose	Allow use of machines rather than just hand held
Hiwi Trust	S332/014	Rule R83: Discharge of collected animal effluent onto or into land - controlled activity	Oppose	Undertake more rigorous regional cost-benefit analysis of pond storage and sealing requirements. Provide reasonable timeframes and a stepped approach for the installation of storage (eg 3-5 years). Clarify the definition of ponding; and exclude extreme weather events, breakdowns out of manager's control, be consistent with urban conditions. In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary. Extend consent timeframe to 20 years to reflect investment made.
Hiwi Trust	S332/015	Rule R93: All other discharges to land - discretionary activity	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Hiwi Trust	S332/016	Map 27a: Groundwater community drinking water supply protection areas - Wairarapa (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.

Hiwi Trust	S332/017	Map 27b: Groundwater community drinking water supply protection areas - Hutt Valley (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Hiwi Trust	S332/018	Map 27c: Groundwater community drinking water supply protection areas - Kapiti Coast (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Hiwi Trust	S332/019	Silage	Oppose	Change definition to specify this does not include baleage.
Hiwi Trust	S332/020	Rule R90: Manufacture and storage of silage and compost - permitted activity	Oppose	Delete requirement for impermeable lining; retain condition that there be no discharge to water. Delete requirement for location not allowed within 20m of a surface water body.
Hiwi Trust	S332/021	Rule R94: Cultivation or tilling of land - permitted activity	Oppose	Delete condition requiring a 5m setback.
Hiwi Trust	S332/022	Rule R95: Break-feeding - permitted activity	Oppose	Delete condition requiring a 5m setback.
Hiwi Trust	S332/023	Highly modified river or stream	Oppose	Change definition to include all streams that have been modified by human activity - straightening, deepening, channeling.
Hiwi Trust	S332/024	Rule R121: Maintenance of drains - permitted activity	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.

Hiwi Trust	S332/025	Rule R122: Removing vegetation - permitted activity	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Hiwi Trust	S332/026	Method M14: Maintenance of drains	Oppose	Fast-forward Method M14 to develop agreed good practice for drain clearing prior to the hearing.
Hiwi Trust	S332/027	Earthworks	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Hiwi Trust	S332/028	Rule R99: Earthworks-permitted activity	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Hiwi Trust	S332/030	Erosion prone land	Oppose	Change definition to increase the slope and exclude stable substrate, e.g. greywacke.
Hiwi Trust	S332/031	Vegetation clearance	Oppose	Change definition to exclude hand clearance, hand or aerial spraying and roller crushing.
Hiwi Trust	S332/032	Rule R100: Vegetation clearance on erosion prone land - permitted activity	Oppose	See submission points [S332/030 and 031] on definition of "erosion prone" and "vegetation clearance".
Hiwi Trust	S332/033	Rule R101: Earthworks and vegetation clearance - discretionary activity	Oppose	Change rule to controlled or restricted discretionary with clear conditions.
Hiwi Trust	S332/034	Rule R114: River crossing structures - permitted activity	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.

Hiwi Trust	S332/035	Rule R115: Culverts - permitted activity	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Hiwi Trust	S332/036	Rule R125: Structures within a site identified in Schedule C (mana whenua) - restricted discretionary activity	Oppose	Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Hiwi Trust	S332/037	Rule R89: Farm refuse dumps - permitted activity	Oppose	Increase size from 50m ³ to 100m ³ . Heavily prune the fourteen other conditions to focus on clear effects.
Hiwi Trust	S332/038	Rule R91: Offal pit - permitted activity	Oppose	Retain condition (a) and condition (h). Heavily prune the seven other conditions to focus on clear effects.
Hiwi Trust	S332/039	Rule R36: Agrichemicals - permitted activity	Oppose	Change condition (g) [spray plan] to more reasonably reflect practicalities and risks. [Regarding condition (e) community drinking water supply protection area] undertake a risk analysis to support condition for a controlled rule rather than discretionary.
Hiwi Trust	S332/040	Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity	Oppose	Amend condition (a) to reflect the practicalities of aerial fertiliser application.
Hiwi Trust	S332/041	Rule R48: Stormwater from an individual property - permitted activity	Oppose	Delete condition (a). Delete condition (e). Retain condition (g).
Hiwi Trust	S332/042	Entire Plan	Not stated	Support Wairarapa Federated Farmers submission [S352].

Hiwi Trust	S332/043	Schedule F2c: Habitats for indigenous birds in the coastal marine area	Amend	Limit the area of habitat identified [at Stony Bay] to that marked on the map attached to the original submission OR exclude a small area encompassing the 2 ramps from the classification.
Hiwi Trust	S332/044	Map 18: Habitats for indigenous birds in the coastal marine area (Schedule F2c)	Amend	Limit the area of habitat identified [at Stony Bay] to that marked on the map attached to the original submission OR exclude a small area encompassing the 2 ramps from the classification.
Hiwi Trust	S332/045	Rule R190: Launching, retrieving or temporary mooring of vessels - permitted activity	Amend	[Either the decision requested in submission points S332/043 & 44] OR amend Rules R190 and/or R198 to allow the current motor vehicle activity for the purpose of launching and retrieving boats to continue as a permitted activity [at the ramps on the Stony Bay - Sandy Bay foreshore].
Hiwi Trust	S332/046	Rule R198: Motor vehicles inside sites of significance - non complying activity	Amend	[See submission point S332/045]
Hiwi Trust	S332/047	Map 7: Sites of significance to Ngati Kahungunu ki Wairarapa and Rangitane o Wairarapa (Schedule C5)	Amend	Remove the "mana whenua values" classification [shown on the GIS viewer] of the [Stony Bay site].
Holcim (New Zealand) Ltd	S276/001	Cleanfill material	Amend	Modify: a) provides for a small proportion of organic material (say 5% by truckload) in soils and clays and material that is otherwise cleanfill; and b) clearly excludes wet wastes such as hydro excavated soil material from item (e) in the definition.

Holcim (New Zealand) Ltd	S276/002	Regionally significant infrastructure	Amend	Add bullet-point which refers to quarries which serve regional or sub-regional areas, or specifically list the hard rock quarries which serve the region's main urban areas. Add bullet-point which refers to landfills and cleanfills which serve regional or sub-regional areas, or specifically list these facilities.
Holcim (New Zealand) Ltd	S276/003	Objective O6: Health needs of people	Support	Retain Objective O6
Holcim (New Zealand) Ltd	S276/004	Objective O8: Allocation regime	Support	Retain Objective O8.
Holcim (New Zealand) Ltd	S276/005	Objective O19: Natural processes	Oppose	Delete or replace minimise with "avoid, remedy or mitigate"
Holcim (New Zealand) Ltd	S276/006	Objective O39: Ambient air quality	Support	Retain Objective O39
Holcim (New Zealand) Ltd	S276/007	Objective O41: Nuisance discharges to air	Support	Retain objective 41
Holcim (New Zealand) Ltd	S276/008	Objective O44: Land use impacts on soil and water	Oppose	Delete or replace minimise with "avoid, remedy or mitigate".
Holcim (New Zealand) Ltd	S276/009	Policy P4: Minimising adverse effects	Oppose	Delete policy or remove (a) and (e) and change all "ands" to "ors". Add a definition of "Practicable". Replace minimise in P4 and P26 with "avoid, remedy or mitigate".

Holcim (New Zealand) Ltd	S276/010	Policy P26: Natural processes	Oppose	Delete policy or remove (a) and (e) and change all "ands" to "ors". Add a definition of "Practicable". Replace minimise in P4 and P26 with "avoid, remedy or mitigate".
Holcim (New Zealand) Ltd	S276/011	Policy P7: Uses of land and water	Amend	Retain (g) but add a reference to other mineral /aggregate materials, cleanfills and landfills or provide for this within policies P12 to P14.
Holcim (New Zealand) Ltd	S276/012	4.2 Beneficial use and development	Amend	Add two New Policies - 1) <u>To achieve social, economic and environmental benefits from the region's mineral resources, enable regionally significant mineral extraction activities, and associated water takes, use and discharges, along with the remediation of quarries using cleanfill, provided that the significant adverse effects of these activities can be avoided, remedied or mitigated.</u> 2) <u>Regionally significant mineral resources and mineral extraction activities shall be protected from new incompatible use and development occurring within or adjacent to them.</u>
Holcim (New Zealand) Ltd	S276/013	Policy P58: Industrial discharges	Support	Retain Policy P58 as proposed
Holcim (New Zealand) Ltd	S276/014	Rule R27: Handling of aggregate - permitted activity	Support	Retain these rules unchanged.

Holcim (New Zealand) Ltd	S276/015	Rule R28: Cement storage - permitted activity	Support	Retain these rules unchanged.
Holcim (New Zealand) Ltd	S276/016	Rule R41: All other discharges - discretionary activity	Oppose	Amend R41 to establish that infringements of permitted activity performance standards are a restricted discretionary activity, and insert appropriate matters of discretion and assessment criteria.
Holcim (New Zealand) Ltd	S276/017	Rule R53: All other stormwater - discretionary activity	Oppose	Amend R53 to establish that infringements of permitted activity performance standards are a restricted discretionary activity, and insert appropriate matters of discretion and assessment criteria.
Holcim (New Zealand) Ltd	S276/018	Rule R70: Cleanfill material - permitted activity	Oppose	Retain Rule R70 and insert a new default for a controlled activity resource consent for any infringements of the performance standards in R70.
Holcim (New Zealand) Ltd	S276/019	Rule R93: All other discharges to land - discretionary activity	Oppose	[Refer to submission point S276/018]

Holcim (New Zealand) Ltd	S276/020	Rule R101: Earthworks and vegetation clearance - discretionary activity	Amend	Amend rule R101 to be restricted discretionary.
Holcim (New Zealand) Ltd	S276/021	5.5.3 Activities in wetlands	Amend	Allow a restricted discretionary activity for works within rivers/streams associated with regionally significant mineral extraction activities.
Holcim (New Zealand) Ltd	S276/022	5.6.2 Take and use of water	Amend	A restricted discretionary activity for water takes and dewatering associated with regionally significant mineral extraction activities.
Holcim (New Zealand) Ltd	S276/024	Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Oppose	Delete (a) from Rule R127. This would allow for steam piping activities to be considered as discretionary activities under Rules R129 and R135 (accepting that diversion would be involved).
Holcim (New Zealand) Ltd	S276/025	13 Maps	Amend	Amend and delete streams from within the Kiwi Point Quarry [update GIS layer]
Holcim (New Zealand) Ltd	S276/026	13 Maps	Amend	Amend the Maps to identify the regionally significant quarries and mineral resources.
Holcim (New Zealand) Ltd	S276/027	Entire Plan	Amend	Additional or consequential relief, including but not limited to, the maps, issues, objectives, policies, rules, discretions, assessment criteria and explanations that will fully give effect to the matters raised in this submission.

Horouta Kohanga Reo	S223/001	Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity	Oppose	Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach.
Horticulture NZ	S307/001	1.6 Values of water in the Plan	Amend	Retain the text in Section 1, amend after 4th para, add: The contact recreation value will be expressed in the plan as either a primary or secondary contact recreation value depending on the location. Horticulture NZ seeks that consequential amendments are made as a result of amending the Plan as sought in this submission.
Horticulture NZ	S307/002	3.1 Ki uta ki tai: mountains to the sea	Amend	Move the table of values of water to an Objective in Section 3, preferably as an overarching objective in 3.1 as follows: The values of freshwater are recognised and provided for. Include Table 1.1 with the listed values. Horticulture NZ seeks that consequential amendments are made as a result of amending the Plan as sought in this submission.
Horticulture NZ	S307/003	Cultivation	Amend	Amend: A process that involves turning over the soil for growing and harvesting of pasture or crops, but does not include: (a) direct drilling and strip tilling (b) no-till practices (c) forestry
Horticulture NZ	S307/004	Efficient allocation	Amend	Amend the definition of efficient allocation to 'efficient allocation and use'.

Horticulture NZ	S307/005	Fertiliser	Amend	<p>Amend definition of fertiliser as follows:</p> <p>Fertiliser means</p> <p>a) a substance or biological compound or mix of substances or biological compounds that is described as, or held out to be for, or suitable for, sustaining or increasing the growth, productivity, or quality of plants or, indirectly, animals through the application to plants or soil of--</p> <p>(i) nitrogen, phosphorus, potassium, sulphur, magnesium, calcium, chlorine, and sodium as major nutrients; or</p> <p>(ii) manganese, iron, zinc, copper, boron, cobalt, molybdenum, iodine, and selenium as minor nutrients; or</p> <p>(iii) fertiliser additives; and</p> <p>(b) includes non-nutrient attributes of the materials used in fertiliser; but</p> <p>(c) does not include substances that are plant growth regulators that modify the physiological functions of plants.</p>
Horticulture NZ	S307/006	Good management practice	Amend	<p>Amend the definition of good management practice:</p> <p>Practices, procedure or tools that are designed to be effective at achieving the desired performance while provide for desired environmental outcomes. Good management practice evolves through time and results in continuous improvement as new information, technology and awareness of issues are developed and disseminated. Industry has a key role in developing good management practices which can be used to implement provisions in the Plan. GW will identify good management practice guidelines and place them on the Council's website but good management practices will not be limited to those on the website.</p>
Horticulture NZ	S307/007	High risk soils	Amend	Include a slope category of over 20 degrees as being high risk soils.
Horticulture NZ	S307/008	National electricity grid	Amend	Amend 'National electricity grid' to 'National Grid'
Horticulture NZ	S307/009	Natural wetland	Amend	Amend definition of wetland to that in the BOP Land and Water Plan.

Horticulture NZ	S307/010	3.1 Ki uta ki tai: mountains to the sea	Amend	Add new objective in 3.1: The values of freshwater are recognised and provided for. Include Table 1.1 with the listed values. Amend Table 1.1 'Use values - direct' by adding after 'Human sustenance, health and wellbeing' - 'including production of food'.
Horticulture NZ	S307/012	3.1 Ki uta ki tai: mountains to the sea	Amend	Add new Objective in 3.1 Natural and physical resources, are managed to provide an appropriate balance across values and uses in a catchment.
Horticulture NZ	S307/013	Objective O5: Fresh and coastal water	Amend	Amend Objective O5 by adding: d) production of food for human sustenance
Horticulture NZ	S307/014	3.2 Beneficial use and development	Amend	Add a new objective in 3.2 Beneficial use and development. Take an integrated management approach to biosecurity risks to ensure that rural production is not adversely affected by incursions of pests and unwanted organisms.
Horticulture NZ	S307/015	3.2 Beneficial use and development	Amend	Add a new objective in 3.2 Beneficial use and development: The social, economic and cultural wellbeing benefits of rural production activities are recognised and provided for.
Horticulture NZ	S307/016	Objective O19: Natural processes	Amend	Either delete Objective O19 or amend as follows: 'The interference Adverse effects on natural processes arising from use and development are <u>avoided remedied or mitigated</u> . minimised .'
Horticulture NZ	S307/017	Objective O23: Maintain or improve water quality	Amend	Amend Objective O23 as follows: The <u>overall</u> quality of water
Horticulture NZ	S307/018	Objective O24: Contact recreation and Maori customary use	Amend	Amend Objective O24 by reference to Schedule H b) i) significant contact recreation fresh water bodies, as identified in Schedule H1...
Horticulture NZ	S307/019	Schedule H: Contact recreation and Maori customary use	Amend	Amend Schedule H1 to identify the parts of the rivers where primary contact recreation is undertaken.

Horticulture NZ	S307/020	Objective O25: Aquatic ecosystem health and mahinga kai	Amend	Amend Objective O25 Tables 3.4-3.8 to include simpler numerics and narratives as the interim measures pending the Whaitua plan processes for specific areas. A set of simpler numerics and narratives should be included as the interim measures.
Horticulture NZ	S307/021	Objective O39: Ambient air quality	Amend	Include a definition for 'ambient air' as follows: Ambient air is the air outside buildings and structures. This does not refer to indoor air, air in the workplace, or contaminated air discharged from a source.
Horticulture NZ	S307/022	Objective O41: Nuisance discharges to air	Amend	Amend Objective 041 Discharges of odour, smoke and dust on are managed to avoid, remedy or mitigate adverse effects on amenity values and peoples well-being.
Horticulture NZ	S307/023	3.8 Air	Amend	Add a new objective in 3.8 Air Manage air quality to reflect the different receiving environments across the region, taking into account the location and characteristics of the background receiving environment, including the underlying landuse patterns or zoning.
Horticulture NZ	S307/024	Objective O42: Soil health and erosion	Amend	Amend Objective 042 The life supporting capacity of soils is maintained
Horticulture NZ	S307/025	Objective O42: Soil health and erosion	Amend	Add new objective: Accelerated soil erosion is reduced.
Horticulture NZ	S307/026	Objective O44: Land use impacts on soil and water	Amend	Land use activities will take all reasonable steps to avoid, remedy or mitigate adverse effects on soil and water.
Horticulture NZ	S307/027	Objective O46: Discharges to land	Amend	Amend Objective O46 Discharges to land are managed to reduce the <u>potential</u> for runoff or leaching of contaminants to water.
Horticulture NZ	S307/028	Objective O47: Sediment runoff	Amend	Amend Objective 047 Minimise potential for sediment laden run off to water where current levels are elevated.

Horticulture NZ	S307/029	Objective O52: Efficient allocation	Amend	Amend Objective O52 as follows: The <u>reliability and</u> efficiency of allocation and use water use is improved and maximised through time, including by OR Add matter f) achieving reliability of supply
Horticulture NZ	S307/030	Policy P1: Ki uta ki tai and integrated catchment management	Amend	Amend Policy P1 by adding f) use of good management practices.
Horticulture NZ	S307/031	Policy P4: Minimising adverse effects	Amend	Amend Policy P4: Where minimisation of adverse effects is required by the policies in the Plan minimisation means taking all reasonable steps to reduce adverse effects of the activity and includes:....
Horticulture NZ	S307/032	Policy P7: Uses of land and water	Amend	Add l) primary production. Amend Policy P7 by adding: '...shall be recognised <u>and provided for....</u> '
Horticulture NZ	S307/033	Policy P8: Beneficial activities	Amend	Include an additional policy in Policy P8 Beneficial activities: m) removal of pest species identified in the Regional Pest Management Strategies and material declared as unwanted organisms under the Biosecurity Act 1993. Amend point f) to include management of riparian margins.
Horticulture NZ	S307/034	Policy P10: Contact recreation and Maori customary use	Amend	Amend Policy P10 to differentiate between provisions which apply to primary contact recreation and those which apply to secondary contact recreation. Alternatively have a separate policy for each.
Horticulture NZ	S307/035	4. Policies	Amend	Add a new policy - Incompatible activities adjacent to primary production activities. Primary production activities will be enabled by ensuring that new use and development, particularly sensitive activities do not locate adjacent to primary production activities to avoid potential reverse sensitivity effects, particularly through complaints about odour, smoke, dust or spray drift.

Horticulture NZ	S307/036	Policy P26: Natural processes	Amend	Amend Policy P26: use and development will be managed to avoid, remedy or mitigate adverse effects on the integrity and functioning of natural processes.
Horticulture NZ	S307/037	Policy P32: Adverse effects on aquatic ecosystem health and mahinga kai	Amend	Amend Policy P32 clauses a) b) and c) by changing 'and' to 'or'
Horticulture NZ	S307/038	Policy P37: Values of wetlands	Amend	Delete 'and adjacent' from Policy P37.
Horticulture NZ	S307/039	Policy P41: Managing adverse effects on ecosystems and habitats with significant indigenous biodiversity values	Amend	Amend Policy P41 clauses a) b) and c) by changing 'and' to 'or'.
Horticulture NZ	S307/040	Policy P49: Use and development adjacent to outstanding natural features and landscapes and special amenity landscapes	Amend	Delete Policy P49
Horticulture NZ	S307/041	Policy P52: Managing ambient air quality	Amend	Include a definition for 'ambient air' as follows: Ambient air is the air outside buildings and structures. This does not refer to indoor air, air in the workplace, or contaminated air discharged from a source.
Horticulture NZ	S307/042	Policy P55: Managing air amenity	Amend	Amend Policy P55: Activities are managed to achieve air quality amenity which reflect the characteristics of the different receiving environments in urban, rural, industrial and the coastal marine areas to minimise potential for offensive or objectionable odour, dust, smoke and particulate matter, fumes, ash and visible emissions and to avoid reverse sensitivity conflicts.

Horticulture NZ	S307/043	Policy P56: Outdoor burning	Amend	Amend Policy P56: The adverse effects on amenity, people's health and property from odour, smoke and dust, fumes and visible emissions from outdoor burning will be avoided, remedied or mitigated, particularly through the use of good management practices.
Horticulture NZ	S307/044	Policy P60: Agrichemicals and fumigants	Amend	Retain Policy P60.
Horticulture NZ	S307/045	Policy P65: Minimising effects of nutrient discharges	Amend	Amend the definition of good management practices as sought in Schedule 2 to include recognition of the contribution industry organisations make to developing good management practices.
Horticulture NZ	S307/046	Policy P69: Human drinking water supplies	Amend	Amend Policy P69: The adverse effects from discharges to land and water on the quality of community drinking water supplies and group drinking water supplies shall be avoided to the extent practicable <u>through the use of good management practices.</u>
Horticulture NZ	S307/047	Policy P90: Discharges of hazardous substances	Amend	Retain Policy P90

Horticulture NZ	S307/048	Policy P95: Discharges to land	Amend	<p>Clarify the relationship between Policy P95 and more activity specific policies. Clarify what public health and amenity issues the policy seeks to address.</p> <p>Amend Policy P95: The discharge of contaminants to land shall be managed by:</p> <p>a) ensuring the discharge does not result in more than minor adverse effects to <u>life supporting capacity of soil</u> health</p> <p>b) Avoiding discharges that would create contaminated land</p> <p>c) not exceeding the natural capacity of the soil to treat, use or remove the contaminant, and</p> <p>d) not exceeding the available capacity of the soil, to absorb and infiltrate the discharge</p> <p>e) minimising effects on public health and amenity, <u>taking into account the existing background environment</u> and</p> <p>f) not result in a discharge that enters water minimising adverse effects on surface and groundwater quality.</p>
Horticulture NZ	S307/049	Policy P96: Managing land use	Amend	Amend Policy P96 Managing rural land use
Horticulture NZ	S307/050	Policy P100: Riparian margins for cultivation and break-feeding	Amend	Delete specific reference to 'riparian setbacks'.

Horticulture NZ	S307/051	Policy P112: Priorities in drought and serious water shortage	Support	Retain provisions for rootstock protection. However it needs to be clear what is meant by 'rootstock protection' so a definition is sought. Include a definition for rootstock protection: Rootstock protection means provision of water required to maintain survival of horticultural or viticultural root crops in drought.
Horticulture NZ	S307/052	2.1.6 Definitions, schedules and maps	Amend	Include a definition for rootstock protection: Rootstock protection means provision of water required to maintain survival of horticultural or viticultural root crops in drought.
Horticulture NZ	S307/053	Policy P114: Priorities when demand exceeds supply	Amend	Specify 'other values' including food production. Include recognition of existing takes under section 124 in priority to other consumptive takes.
Horticulture NZ	S307/054	Policy P115: Authorising takes below minimum flows and lake levels	Amend	Amend clause b) by changing 'from' to 'prior to'. Amend clause c): horticultural and viticultural root crops including perennial crops (excluding pasture species, animal fodder crops and maize) for the soil purpose of avoiding their death provided:
Horticulture NZ	S307/055	Policy P118: Reasonable and efficient use	Amend	Add to Policy P118 e) taking into account the cost of replacing existing systems.
Horticulture NZ	S307/056	Policy P120: Taking water for storage	Support	Retain Policy P120.
Horticulture NZ	S307/057	Policy P128: Transfer of resource consents	Support	Retain Policy P128.
Horticulture NZ	S307/058	Rule R1: Outdoor burning - permitted activity	Amend	Delete 'noxious, dangerous' from Rule R1. [See also submission point S307/059]

Horticulture NZ	S307/059	Policy P55: Managing air amenity	Amend	Add policies to provide: - guidance as to how noxious, dangerous, offensive or objectionable will be assessed - clarity that air quality will vary according the receiving environment in which a discharge is located. [See also submission points S307/058, 060 and 062]
Horticulture NZ	S307/060	Rule R2: Frost prevention devices - permitted activity	Amend	Delete 'noxious, dangerous' from Rule R2. [See also submission point S307/059]
Horticulture NZ	S307/061	5.1 Air quality rules	Amend	Add a new rule in Air Quality: The discharge of contaminants into air from outdoor burning that is undertaken to dispose of unwanted organisms as declared by MPI Chief Technical Officer or/and emergency declared by the Minister under the Biosecurity Act 1993.
Horticulture NZ	S307/062	Rule R36: Agrichemicals - permitted activity	Amend	Delete 'noxious, dangerous' from Rule R36 Amend clause d): There is no aerial spraying in areas zoned residential or urban in district plans. Clause e) Delete 'or within community drinking water supply protection areas'. Clause f) Delete 'including' Clause g iii) Change 'and' to 'or' Amend Clause g iv) If requested by the owner/ occupier of property identified as a sensitive area and the application will be within 100 metres of that property provide notification of intent to spray 12 hours prior to the discharge of agrichemicals. [See also submission point S307/059]
Horticulture NZ	S307/063	Rule R37: Agrichemicals into water - permitted activity	Amend	Amend Rule R 37 Clause e) by deleting 'applicator' and replacing with 'person responsible for the application'.

Horticulture NZ	S307/064	Rule R38: Agrichemicals not permitted - discretionary activity	Amend	Amend Rule R 38 to Restricted Discretionary and include matters of discretion as follows: Matters of discretion 1. The location, nature, scale, timing, method and duration of the agrichemical application. 2. The nature of the areas sensitive to agrichemicals that may be affected and methods to avoid adverse effects on those areas. 3. Any beneficial effects of the agrichemical application. 4. Any effects on species which are not the target of the agrichemical application. 5. Any effects on water quality including potable water. 6. Adverse effects or risks to human health or public use of the area. 7. Extent of compliance with relevant national regulations, nationally accepted guidelines or codes of practice, including compliance with the NZS 8409:2004 Management of Agrichemicals.
Horticulture NZ	S307/065	5.1.13 Ground-based and aerial applications	Amend	Add a new rule as follows: Rxx Agrichemicals for biosecurity purposes - permitted activity The discharge of agrichemicals into air or onto or into land where it may enter water to manage an incursion of unwanted organisms as declared by MPI Chief Technical Officer or an emergency declared by the Minister under the Biosecurity Act 1993 is a permitted activity.
Horticulture NZ	S307/066	Rule R57: Discharge of hazardous substances - non-complying activity	Amend	Delete Rule R36, R37 and R38 from Rule R57. Include a restricted discretionary rule for minor discharges that do not meet conditions in Rule R42 and delete Rule R42 from Rule R57 and include matters of discretion, being the permitted activity conditions that are not met. Include fertiliser applications that do not meet conditions in Rule R82 in the new restricted discretionary activity rule, include matters of discretion, being the permitted activity conditions that are not met.
Horticulture NZ	S307/067	Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity	Amend	Amend Rule R82 clause a) The discharge does not cause adverse effects beyond the boundary of the property. Add new clause: The applications will be undertaken using good management practices to minimise the potential for wind drift having regard to the Code of Practice for Nutrient Management (Fertiliser Association).

Horticulture NZ	S307/068	Rule R92: All discharges to land within community drinking water protection areas - restricted discretionary activity	Amend	Amend Rule R92 as follows: The discharge of contaminants onto or into land from pit latrines, wastewater systems, biosolids or farm refuse dumps that occurs within a community drinking water supply protection area and is not permitted in rules R71, R75, R77, R78 or R 89 is a restricted discretionary activity. Amend the title: Specific discharges to land within community drinking water supply protection areas
Horticulture NZ	S307/069	Rule R93: All other discharges to land - discretionary activity	Amend	Amend Rule R93 to a restricted discretionary rule with matters of discretion.
Horticulture NZ	S307/070	Rule R94: Cultivation or tilling of land - permitted activity	Amend	Amend as follows: Delete clauses a) and c) and replace with amended b) as follows: cultivation is undertaken in accordance with good management practice such as bunding, silt traps, interception drains, cultivation on the contour or other alternative methods to minimise potential sediment run-off to surface water body. Add an Advice Note: Examples of methods for minimising sediment run-off can be found in the 'Erosion and Sediment Control Guidelines for Vegetable Production (Horticulture New Zealand 2014). http://www.hortnz.co.nz/assets/Uploads/Auckland-Waikato-ES-Control-Guidelines-1-1.pdf
Horticulture NZ	S307/071	Rule R96: Cultivation and break-feeding - discretionary activity	Amend	Amend Rule R96 to Restricted Discretionary and include matters of discretion as follows: The council will restrict its discretion to the matters below for restricted discretionary activities:(a) the location, nature, scale, timing and duration of the activity,(b) effects of the activity and associated sediment run-off and the methods to be taken to avoid, remedy or mitigate them.
Horticulture NZ	S307/072	5.4.4 Earthworks and vegetation clearance	Amend	Add a new rule as follows: Rxx Earthworks and vegetation clearance for biosecurity purposes - permitted activity Earthworks and vegetation clearance undertaken to manage an incursion of unwanted organisms as declared by MPI Chief Technical Officer or an emergency declared by the Minister under the Biosecurity Act 1993 is a permitted activity.

Horticulture NZ	S307/073	Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Amend	Amend Rule R 105 by adding after 'pest plants' 'or unwanted organisms'. Amend Condition g) only appropriate pest plants as identified in the Regional Pest Management Strategy or unwanted organisms as declared by MPI Chief Technical Officer or an emergency declared by the Minister under the Biosecurity Act 1993 are deliberately removed or controlled.
Horticulture NZ	S307/074	Rule R122: Removing vegetation - permitted activity	Amend	Amend Rule R122 by adding: Conditions a-m do not apply to the removal of vegetation or unwanted organisms for biosecurity purposes.
Horticulture NZ	S307/075	Rule R136: Take and use of water - permitted activity	Amend	Amend Rule R136 a) by adding an additional line: Property sizeRateVolume per dayLess than 20ha in horticultural production2.5 L/s20m3
Horticulture NZ	S307/076	Rule R141: Take and use of water not permitted - controlled activity	Amend	Amend Rule R 141 as follows: Add to clause b) or for properties of less than 20ha in horticultural production shall not exceed 40m3.
Horticulture NZ	S307/077	Rule R142: All other take and use - discretionary activity	Amend	Include a new rule - takes and uses restricted discretionary activity for takes where the water body is less than 80% allocated. Include matters of discretion: Volume of water taken, efficiency, effects on neighbouring bores, reductions in times of low flow, metering requirements.
Horticulture NZ	S307/078	Rule R143: Temporary water permit transfers - controlled activity	Support	Retain Rule R143.
Horticulture NZ	S307/079	Method M12: Sustainable land management practices	Amend	Add a new method - Development of good management practices. The Council will work with industries and relevant stakeholders to develop good management practices that provide for robust and reasonable tools to manage activities regulated through the Plan.

Horticulture NZ	S307/080	13 Maps	Amend	Delete Maps 26, 27 27a, 27b and 27c. - Community drinking water supply protection areas and replace with community drinking water sources.
Horticulture NZ	S307/081	Schedule M: Community drinking water supply abstraction points	Amend	Delete Maps 26, 27 27a, 27b and 27c. - Community drinking water supply protection areas and replace with community drinking water sources.
Hugh Lundie	S156/001	Rule R1: Outdoor burning - permitted activity	Amend	The activity (burnout competitions) should be outlawed and made illegal. Drag racing competitions should be compliant with district standards for air quality. There is also a discharge to water from the air discharge as the discharge may affect groundwater.
Hutt City Council	S84/001	Entire Plan	Amend	Reconsider the use of the term 'avoid' and ensure that it does not unnecessarily and inappropriately constrain activities that result in effects that are significant and/or provide essential services for the health and safety of the community and protection of the environment. HCC does not rule out the use of a non-complying activity status in limited cases.
Hutt City Council	S84/002	4.2 Beneficial use and development	Amend	Provide a policy framework that provides a pathway for new infrastructure reasonably needed to support existing or planned future development to gain resource consent. This would allow for resource consent for these activities to be granted in appropriate circumstances.
Hutt City Council	S84/003	Policy P7: Uses of land and water	Amend	Amend P7 to include 'urban use and development' to the list of uses in Policy 7.
Hutt City Council	S84/004	4.2 Beneficial use and development	Amend	Include a schedule and/or map of the Strategic Transport Network, to provide clarity as to what infrastructure is identified as regionally significant. Extend provisions for regionally significantly infrastructure to other types of infrastructure.

Hutt City Council	S84/005	Policy P139: Seawalls	Amend	Amend Plan to provide for other existing types of infrastructure (not just regionally significant infrastructure), such as local roads and cycleways. Policy P139 should extend the ability to provide protective structures such as seawalls for regionally significant infrastructure to other types of infrastructure, such as the recently announced Eastern Bays Shared Path or local roads adjacent to the coast.
Hutt City Council	S84/006	Rule R167: Seawalls inside sites of significance - non-complying activity	Amend	Amend R167 to make seawalls a discretionary activity rather than a non-complying activity, regardless of location within a site of significance or not. An exception could be provided to specified sites of significance of high natural character in rural environments.
Hutt City Council	S84/007	2. Interpretation	Amend	Include a definition of infrastructure or specify that the PNRP adopts the RMA definition. Add a definition of 'seawall' to the plan.
Hutt City Council	S84/008	Upgrade	Amend	Review the definition of 'upgrade'.
Hutt City Council	S84/009	Schedule F5: Habitats with significant indigenous biodiversity values in the coastal marine area	Amend	Amend the plan to include a map of the habitats with significant indigenous biodiversity values [Schedule F5].
Hutt City Council	S84/010	Schedule F2c: Habitats for indigenous birds in the coastal marine area	Amend	Use a scientifically robust method for identification of areas of significance to birds, that recognises the actual value of the sites.
Hutt City Council	S84/011	Rule R196: Motor vehicles - permitted activity	Amend	Amend the activity status for disturbance in the coastal marine area to Discretionary Activity, regardless of whether it is located in an identified site of significance for birds. An exception could be provided to identified sites of significance to birds of outstanding value or for areas of high natural or rural character.

Hutt City Council	S84/012	Policy P148: Motor vehicles in sites with significant value	Amend	Amend the policy framework for disturbance in significant sites in the coastal marine area to require the management of specific effects, rather than simply demanding the avoidance of particular activities.
Hutt City Council	S84/013	Entire Plan	Amend	Amend plan to remove requirements to comply with good management practices. Refer only to specific, existing good management practice documents.
Hutt City Council	S84/014	Good management practice	Amend	Remove requirements to comply with good management practices. Refer only to specific, existing good management practice documents.
Hutt City Council	S84/015	Zone of reasonable mixing	Amend	Amend the Plan to identify a specific zone of reasonable mixing for discharges to coastal water for permitted activities.
Hutt City Council	S84/016	5.1.7 Dust generating activities	Amend	Amend the plan to add provisions that allow for the discharge of odour, smoke and dust unless discharging beyond the property boundary.
Hutt City Council	S84/017	Policy P27: High hazard areas	Oppose	Reconsider the use of the term 'avoid' and ensure that it does not unnecessarily and inappropriately constrain activities that result in effects that are significant and/or provide essential services for the health and safety of the community and protection of the environment. Provide a policy framework that provides a pathway for new infrastructure reasonably needed to support existing or planned future development to gain resource consent. This would allow for resource consent for these activities to be granted in appropriate circumstances.
Hutt City Council	S84/018	Policy P28: Hazard mitigation measures	Oppose	Reconsider the use of the term 'avoid' and ensure that it does not unnecessarily and inappropriately constrain activities that result in effects that are significant and/or provide essential services for the health and safety of the community and protection of the environment. Provide a policy framework that provides a pathway for new infrastructure reasonably needed to support existing or planned future development to gain resource consent. This would allow for resource consent for these activities to be granted in appropriate circumstances.

Hutt City Council	S84/019	Policy P102: Reclamation or drainage of the beds of lakes and rivers	Oppose	Reconsider the use of the term 'avoid' and ensure that it does not unnecessarily and inappropriately constrain activities that result in effects that are significant and/or provide essential services for the health and safety of the community and protection of the environment. Provide a policy framework that provides a pathway for new infrastructure reasonably needed to support existing or planned future development to gain resource consent. This would allow for resource consent for these activities to be granted in appropriate circumstances.
Hutt City Council	S84/020	Policy P138: Structures in sites with significant values	Oppose	Reconsider the use of the term 'avoid' and ensure that it does not unnecessarily and inappropriately constrain activities that result in effects that are significant and/or provide essential services for the health and safety of the community and protection of the environment. Provide a policy framework that provides a pathway for new infrastructure reasonably needed to support existing or planned future development to gain resource consent. This would allow for resource consent for these activities to be granted in appropriate circumstances.
Hutt City Council	S84/021	Policy P139: Seawalls	Oppose	Reconsider the use of the term 'inappropriate' and ensure that it does not unnecessarily and inappropriately constrain activities that result in effects that are significant and/or provide essential services for the health and safety of the community and protection of the environment. Provide a policy framework that provides a pathway for new infrastructure reasonably needed to support existing or planned future development to gain resource consent. This would allow for resource consent for these activities to be granted in appropriate circumstances.
Hutt City Council	S84/022	Policy P148: Motor vehicles in sites with significant value	Oppose	Reconsider the use of the term 'avoid' and ensure that it does not unnecessarily and inappropriately constrain activities that result in effects that are significant and/or provide essential services for the health and safety of the community and protection of the environment. Provide a policy framework that provides a pathway for new infrastructure reasonably needed to support existing or planned future development to gain resource consent. This would allow for resource consent for these activities to be granted in appropriate circumstances.

Hutt City Council	S84/023	Rule R62: New wastewater to fresh water - non-complying activity	Oppose	Amend Rule R62 and change the activity status from a non-complying activity to a discretionary activity.
Hutt City Council	S84/024	Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity	Oppose	Amend Rule R127 and change the activity status from a non-complying activity to a discretionary activity.
Hutt City Council	S84/025	Rule R162: New structures, additions or alterations to structures inside sites of significance - non-complying activity	Oppose	Amend Rule R162 and change the activity status from a non-complying activity to a discretionary activity.
Hutt City Council	S84/026	Rule R167: Seawalls inside sites of significance - non-complying activity	Oppose	Amend Rule R167 and change the activity status from a non-complying activity to a discretionary activity.
Hutt City Council	S84/027	Rule R198: Motor vehicles inside sites of significance - non-complying activity	Oppose	Amend Rule R198 and change the activity status from a non-complying activity to a discretionary activity.
Hutt City Council	S84/028	Rule R195: Disturbance or damage inside sites of significance - non-complying activity	Oppose	Amend Rule R195 and change the activity status from a non-complying activity to a discretionary activity.
Hutt City Council	S84/029	Rule R205: Destruction, damage or disturbance inside sites of significance - non-complying activity	Oppose	Amend Rule R205 and change the activity status from a non-complying activity to a discretionary activity.

Hutt City Council	S84/030	Rule R215: Reclamation and drainage - non-complying activity	Oppose	Amend Rule R215 and change the activity status from a non-complying activity to a discretionary activity.
Hutt City Council	S84/031	Rule R99: Earthworks-permitted activity	Amend	Add note to the earthworks and vegetation clearance rules that approval may also be required from the relevant territorial authority.
Hutt Valley Angling Club, Inc	S344/001	Objective O25: Aquatic ecosystem health and mahinga kai	Amend	Include the enclosed table of freshwater objectives [numeric and narrative] for trout spawning and trout fishery rivers identified in Schedule I.
Hutt Valley Angling Club, Inc	S344/002	Schedule E5: Historic heritage freshwater sites	Amend	Recognise the significant historic, scientific and cultural value of Horokiwi Stream by including it in Schedule E5.
Hutt Valley Angling Club, Inc	S344/003	Schedule E5: Historic heritage freshwater sites	Amend	Recognise the historic and cultural value of the Mangaroa, Akatarawa, Akatarawa West, Pakuartahi and Whakatikei rivers by including them in Schedule E5
Hutt Valley Angling Club, Inc	S344/004	Active bed (rivers and streams)	Amend	Replace the illustration with the illustration as submitted.
