Summary of Decisions Requested: Submitter Names beginning with C

Submitter Name	Submission point number	Plan Provision	Support /oppose	Summary of decision requested
Carl Jamieson	S236/001	Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity	Oppose	Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach.
Carlo Jaminola	S27/001	Objective O48: Stormwater networks	Amend	Who currently manages the 3 items: (1) management storm water, (2) reduce of flooding, (3) tree planting.
Carlos Nathan Watters-Rangitiki	S255/001	Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity	Oppose	Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach.
Carrus Limited	S122/001	Rule R42: Minor discharges - permitted activity	Support	Retain Rule R42.
Carrus Limited	S122/002	Rule R54: Site investigation - permitted activity	Amend	Amend provisions (a) and (b) to include any further iterations of these documents.
Carrus Limited	S122/003	Rule R70: Cleanfill material - permitted activity	Amend	Amend Rule R70 so that: (f) relates to a greater volume of material (i.e. 1000 cubic metres) -the rule includes an exemption that enables earthworks being undertaken in association with a subdivision, and/or earthwork associated with residential and building developments be exempt from the standards set under (f). -a new rule is inserted allowing for activities that cannot meet one or two or the Permitted Activity Standards to be considered as a Controlled or Restricted Discretionary Activity with control or discretion being retained over the standard(s) not met.

Carrus Limited	S122/004	5.5.4 Beds of lakes and rivers general conditions	Support	Retain general conditions for beds of lakes and rivers 5.5.4.
Carter Families	S295/001	10 Kapiti Coast Whaitua	Oppose	[Use the] whaitua process to consider whether non-compulsory values [for water quality] be included in the Plan and then if necessary/appropriate through a variation to the Plan.
Carter Families	S295/002	10 Kapiti Coast Whaitua	Amend	[Remove the provisions that give effect to non-compulsory NPS-FW values ahead of the Whaitua process; Use the whaitua process to consider whether non-compulsory values be included in the Plan.]
Carter Families	S295/003	Entire Plan	Amend	Delete or amend any provisions to remove references to the non-compulsory values for water quality and water quantity. Remove all notes relating to the Whaitua process.
Carter Families	S295/004	Policy P41: Managing adverse effects on ecosystems and habitats with significant indigenous biodiversity values	Oppose	[Oppose any adherence to a mitigation hierarchy and any attempt to define "minimisation of effects"]
Carter Families	S295/005	Policy P45: Managing adverse effects on sites with significant mana whenua values	Oppose	[Oppose any adherence to a mitigation hierarchy and any attempt to define "minimisation of effects"]
Carter Families	S295/006	Policy P32: Adverse effects on aquatic ecosystem health and mahinga kai	Oppose	[Oppose any adherence to a mitigation hierarchy and any attempt to define "minimisation of effects"]

Carter Families	S295/007	Policy P4: Minimising adverse effects	Oppose	Policy P4: Minimising adverse effects Where minimisation of adverse effects is required by policies in the Plan, minimisation means reducing adverse effects of the activity to the smallest amount practicable and shall include: (a) consideration of alternative locations and methods for undertaking the activity that would have less adverse effects, and (b) locating the activity away from areas identified in Schedule A (outstanding water bodies), Schedule C (mana whenua), Schedule E (historic heritage), Schedule F (indigenous biodiversity), and (c) <u>where possible</u> , timing the activity, or the adverse effects of the activity, to avoid times of the year when adverse effects may be more severe, or times when receiving environments are more sensitive to adverse effects, and...
Carter Families	S295/008	Policy P40: Ecosystems and habitats with significant indigenous biodiversity values	Amend	Amend P40 "Protect, and <u>where possible</u> restore <u>over time</u> , the following ecosystems and habitats with significant indigenous biodiversity values:..."
Carter Families	S295/009	Entire Plan	Oppose in part	[Oppose all provisions relating to mahinga kai as currently worded; see submission point on definition of mahinga kai]
Carter Families	S295/010	Mahinga kai	Amend	Amend the definition of mahinga kai: <ul style="list-style-type: none"> • "Mahinga kai" - food gathering, places of food - protection of water resources so that kai would be safe to harvest and eat and knowledge transfer is present; • "Mahinga kai -- kei te ora te mauri" - the mauri of the place is intact - the freshwater resources would be available for customary use at some places (but not everywhere); • "Mahinga kai fishing" - that the freshwater resource would be allow for fish numbers to be sufficient and suitable for human consumption.
Carter Families	S295/011	Entire Plan	Amend	Amend the plan to define <u>protected</u> customary rights and protect those protected customary rights as set out in section 6(g) of the Act.
Carter Families	S295/012	Objective O14: Maori relationships	Support	[Not stated]
Carter Families	S295/013	Objective O15: Kaitiakitanga	Support	[Not stated]

Carter Families	S295/014	Objective O16: Nga Taonga Nui a Kiwa	Support	[Not stated]
Carter Families	S295/015	Entire Plan	Oppose	Amend the Plan to list prohibited activities in sites of significance to mana whenua instead of relying on a third party advisor (i.e. cultural impact assessment) as that is likely to be ultra vires.
Carter Families	S295/016	Entire Plan	Oppose	Remove any provisions that seek to protect, maintain or enhance sites that would come under the NPS-FW definition of 'Te Hauora o te taiao/The health and mauri of the Environment' in respect of natural form and character, as this is a non-compulsory value and the inclusion of provisions providing for it in the Plan should be determined through the Whaitua process and through a plan change.
Carter Families	S295/017	Policy P63: Improving water quality for contact recreation and Maori customary use	Amend	Remove all notes relating to the Whaitua process. Policy P63: Improving water quality for contact recreation and maori customary use... Note: Whaitua committees will identify methods and timeframes to improve water quality in all first and second priority water bodies listed in Schedule H2 (priority water bodies) within their whaitua. These may be incorporated into the Plan by a future plan change or variation.
Carter Families	S295/018	Policy P65: Minimising effects of nutrient discharges	Amend	Policy 65: Minimising effects of nutrient discharges The effects of nutrient discharges from agricultural activities that may enter water shall be minimised through the use of: ... (d) regulatory and non-regulatory methods, -and (e) plan changes or variations resulting from catchment specific recommendations from the Whaitua committee process.
Carter Families	S295/019	Schedule H1: Regionally significant primary contact recreation water bodies	Amend	Amend the Plan by deleting the regionally significant primary contact recreation water bodies listed in Schedule H1.

Carter Families	S295/020	Map 20: Significant primary contact recreation rivers and lakes (Schedule H)	Amend	Delete the rivers shown on Map 20
Carter Families	S295/021	Objective O5: Fresh and coastal water	Amend	<p>Fresh water bodies and the coastal marine area, as a minimum, are managed to:</p> <p>(a) safeguard aquatic ecosystem health and mahinga kai;</p> <p>(b) provide for contact recreation <u>secondary recreational contact and/or provision of potable water</u> and Maori customary use, and</p> <p>(c) in the case of fresh water, provide for the health needs of people <u>secondary recreational contact and/or provision of potable water</u>.</p> <p>Add a new definition for 'secondary recreational contact'.</p>
Carter Families	S295/022	Objective O24: Contact recreation and Maori customary use	Amend	<p>Amend Objective 24: "Rivers, lakes, natural wetlands, and coastal water are suitable for <u>secondary recreational contact and/or provision of potable water, and significant contact recreation</u> fresh water bodies are suitable for <u>contact recreation</u> contact recreation and customary use, including by:...</p>
Carter Families	S295/023	Objective O25: Aquatic ecosystem health and mahinga kai	Amend	<p>Objective O25</p> <p>"To safeguard aquatic ecosystem health mahinga kai in fresh water bodies and coastal marine area:</p> <p>(a) water quality, flows , water levels and aquatic and coastal habitats are managed to maintain aquatic ecosystem health and mahinga kai, and</p> <p>(b) restoration of aquatic ecosystem health and mahinga kai is encouraged <u>over time</u>, and...</p>

Carter Families	S295/024	Policy P10: Contact recreation and Maori customary use	Amend	<p>Amend Policy 10: The management of natural resources shall have particular regard to the actual and potential adverse effects on contact recreation <u>the health and mauri of people involved in secondary contact recreation</u> and Maori customary use <u>sites</u>, in fresh and coastal water. including by: (a) Providing water quality and, in rivers, flows suitable for the community's objectives for contact recreation and Maori customary use (b) managing activities to maintain or enhance contact recreation values in the beds of lakes and rivers, including by retaining existing swimming holes and maintaining access to existing contact recreation locations, and (c) encouraging improved access to suitable swimming locations, and</p> <p>(d) providing for the passive recreation and amenity values of fresh water bodies and the coastal marine area.</p>
Carter Families	S295/025	Policy P31: Aquatic ecosystem health and mahinga kai	Amend	<p>Amend Policy P31: Aquatic ecosystem health and mahinga kai shall be maintained, or <u>where possible/identified restored over time</u>, by managing the effects of use and development on physical, chemical and biological processes to:</p> <p>(a) minimise <u>limit</u> adverse effects on natural flow characteristics and hydrodynamic processes, and the natural pattern <u>where they exist</u>, and <u>natural</u> range of water level fluctuations in rivers, lakes and natural wetlands, and</p> <p>(b) minimise <u>limit</u> adverse effects on aquatic habitat diversity and quality, including the form, frequency and pattern of pools, runs, and riffles in rivers, and the natural form of rivers, lakes, natural wetlands and coastal habitats, and</p> <p>(c) minimise <u>limit</u> adverse effects on habitats that are important to the life cycle and survival of aquatic species, and</p> <p>(d) Minimise <u>limit</u> adverse effects at times which will most affect the breeding spawning, and dispersal or migration of aquatic species, and</p> <p>(e) avoid creating barriers to the migration or movement of indigenous aquatic species, and restore the connections between fragmented aquatic habitats where appropriate, and</p> <p>(f) minimise <u>limit</u> adverse effects on <u>established</u> riparian habitats and restore them where practicable, and...</p>

Carter Families	S295/026	Policy P32: Adverse effects on aquatic ecosystem health and mahinga kai	Amend	Amend Policy P32 Significant adverse effects on aquatic ecosystem health and mahinga kai shall be managed by: (a) avoiding significant adverse effects, and (b) where significant adverse effects cannot be avoided, remedying them, and (c) where significant adverse effects cannot be remedied, mitigating them, and <u>(d) where significant adverse effects cannot be avoided, remedied or mitigated and/or residual significant adverse effects remain, it is appropriate to consider the use of biodiversity offsets.</u> Proposals for mitigation and biodiversity offsetting will be assessed against the principles listed in Schedule G (biodiversity offsetting).
Carter Families	S295/027	Policy P62: Promoting discharges to land	Amend	Amend Policy P62: The discharge of contaminants to land is promoted over direct discharges to water, particularly where there are adverse effects on: <u>(a) aquatic ecosystem health and mahinga kai, or (b) secondary recreational contact and/or provision of potable water</u> contact recreation and Māori customary use.
Carter Families	S295/028	Policy P70: Managing point source discharges for aquatic ecosystem health and mahinga kai	Amend	Amend Policy P70: Managing point source discharges for aquatic ecosystem health and mahinga kai Where an objective in Table 3.4, Table 3.5, Table 3.6 or Table 3.8 of Objective O25 is not met, point source discharges to water shall be managed in the following way:...
Carter Families	S295/029	Objective O25: Aquatic ecosystem health and mahinga kai	Amend	Amend the criteria of tables 3.4, 3.5, 3.6, 3.7 and 3.8 so the criteria are only assessing aquatic ecosystem health not mahinga kai.
Carter Families	S295/030	Schedule G: Principles to be applied when proposing and considering mitigation and offsetting in relation to biodiversity	Amend	Delete Schedule G.

Carter Families	S295/031	Objective O19: Natural processes	Oppose	Delete
Carter Families	S295/032	Policy P26: Natural processes	Amend	Amend Policy P26: Natural processes Use and development will be managed to minimise <u>limit adverse effects on the integrity and functioning of natural processes and minimise adverse effects on significant habitats and landscapes.</u>
Carter Families	S295/033	Objective O28: Extent of wetlands	Amend	Amend Objective O28: The extent of natural wetlands is maintained or increased and <u>where possible</u> their <u>extent and condition</u> is restored <u>over time</u> .
Carter Families	S295/034	Policy P30: Natural buffers	Amend	Amend Policy 30: The adverse effects of use and development on natural features such as beaches, dunes or wetlands that buffer development from natural hazards shall be minimised, <u>if that use of development reduces the ability of that feature to operate as a buffer.</u>
Carter Families	S295/035	Objective O3: Mauri	Amend	Amend Objective O3: Mauri is sustained and <u>where possible/identified</u> enhanced <u>over time</u> , particularly the mauri of fresh and coastal waters.
Carter Families	S295/036	Objective O9: Recreational values	Amend	Amend O9: The recreational values of the coastal marine area, rivers and lakes and their margins and natural wetlands are maintained and <u>where possible/identified</u> enhanced <u>over time</u> .
Carter Families	S295/037	Objective O11: Maori customary use	Amend	Amend O11: Opportunities for Māori customary use of the coastal marine area, rivers and lakes and their margins and natural wetlands for cultural purposes are recognised, maintained and <u>where possible/identified</u> [enhanced] improved <u>over time</u> .

Carter Families	S295/038	Objective O23: Maintain or improve water quality	Amend	Amend O23 The quality of water in the region's rivers, lakes, natural wetlands, groundwater and the coastal marine area is maintained <u>and where possible/identified</u> or improved <u>over time</u> .
Carter Families	S295/039	Objective O28: Extent of wetlands	Amend	Amend O28 The extent of natural wetlands is maintained or <u>where possible/identified</u> increased and their condition is restored <u>over time</u> .
Carter Families	S295/040	Objective O29: Fish passage	Amend	Amend O29 Use and development provides for the passage of fish and koura, and <u>where possible/identified</u> the passage of indigenous fish and koura is restored <u>over time</u> .
Carter Families	S295/041	Objective O30: Trout	Amend	Amend O30 The habitat of trout identified in Schedule I (trout habitat) is maintained and <u>where possible/identified</u> improved [restored] <u>over time</u> .
Carter Families	S295/042	Objective O33: Significant mana whenua values	Amend	Amend O33 Sites with significant <u>The values of</u> mana whenua values <u>sites</u> are <u>recognised and provided for</u> [protected and restored] <u>and where possible/identified</u> restored over time
Carter Families	S295/043	Objective O35: Significant indigenous biodiversity values	Amend	Amend O35 Ecosystems and habitats with significant indigenous biodiversity values are protected and <u>where possible/identified</u> restored <u>over time</u> .

Carter Families	S295/044	Objective O38: Special amenity landscapes	Amend	Amend O38 Identified special amenity landscape values are maintained <u>and where possible/identified</u> [-or] enhanced <u>over time</u> .
Carter Families	S295/045	Policy P17: Mauri	Amend	Amend P17: The mauri of fresh and coastal waters shall be recognised as being important to Māori by...: (b) providing for activities that sustain and <u>where possible/identified</u> enhance mauri <u>over time</u> , and...
Carter Families	S295/046	Policy P38: Restoration of wetlands	Amend	Amend P38The restoration of natural wetlands and the construction of artificial wetlands to provide habitat for indigenous flora and fauna, and to carry out the physical and ecological functions of natural wetlands, shall be encouraged <u>where possible/identified, over time</u> .
Carter Families	S295/047	Policy P44: Protection and restoration of sites with significant mana whenua values	Amend	Amend P44 <u>The values of mana whenua sites are recognised and provided for and where possible/identified restored over time.</u> Sites with significant mana whenua values identified in Schedule C (mana whenua) shall be protected and/or restored.
Carter Families	S295/048	Policy P44: Protection and restoration of sites with significant mana whenua values	Amend	Policy P44: Protection and restoration of sites with significant mana whenua values Sites with significant mana whenua values <u>shall be identified</u> in Schedule C (mana whenua) _ shall be protected and/or restored.

Carter Families	S295/049	Policy P45: Managing adverse effects on sites with significant mana whenua values	Amend	<p>Amend P45</p> <p>Policy P45: Managing adverse effects on sites with significant mana whenua values</p> <p>In the first instance, <u>Where possible alternative locations should be sought for activities in sites with significant mana whenua values identified in Schedule C (mana whenua) shall be avoided.</u></p> <p>If the site cannot be avoided, more than minor adverse effects on the significant mana whenua values must be evaluated through a cultural impact assessment undertaken by the relevant iwi authority or iwi authorities. <u>If alternative locations can not be found, the activities undertaken within these sites shall recognise and provide for the values mana whenua hold for that site as listed in Schedule C.</u> The adverse effects of activities shall be managed in accordance with tikanga and kaupapa Māori, as recommended in the cultural impact assessment by: (a) avoiding more than minor adverse effects, and</p> <p>(b) where more than minor adverse effects cannot be avoided, remedying them, and (c) where more than minor adverse effects cannot be remedied, mitigating them, and (d) receiving written consent of the iwi authority. Where more than minor adverse effects on significant mana whenua values identified in Schedule C (mana whenua) cannot be avoided, remedied or mitigated, the activity is inappropriate. Offsetting of effects in sites with significant mana whenua values is inappropriate.</p>
Carter Families	S295/051	Entire Plan	Amend	[Remove] any provisions that seek to improve water quality with the exception of those water-bodies that have already been overallocated.
Carter Families	S295/052	Rule R92: All discharges to land within community drinking water protection areas - restricted discretionary activity	Amend	Any provisions [Rule R92] should relate to any future lots and not existing lots subject to evidence showing that such provisions are necessary to give effect to the NPS-FW. If those provisions are not necessary they should be deleted.
Carter Families	S295/053	Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity	Amend	Amend R82(a) to provide for best practice when undertaking aerial top-dressing as opposed to a blanket no discharge rule.

Carter Families	S295/054	Rule R83: Discharge of collected animal effluent onto or into land - controlled activity	Amend	Amend R83 to provide for a variation to Rule 83(g) and any other relevant provisions which allows an extended period of time, in line with the timeframe granted to local authorities to upgrade stormwater systems (R50).
Carter Families	S295/055	Rule R89: Farm refuse dumps - permitted activity	Amend	Amend R89 so that it refers to a set-back distance from water supplies which are used for potable water. Allow for a refuse up to 100m ³ in size. Delete clauses(c)(ii),(d)(i), (e), (h) and (i).
Carter Families	S295/056	Rule R94: Cultivation or tilling of land - permitted activity	Amend	Amend R94 (b) to encourage best practice of starting break-feeding at the far side of the paddock to the waterbody. Amend the activity status so that not meeting a permitted activity condition would result in a controlled activity status rather than discretionary. Remove requirement for 5m setback.
Carter Families	S295/057	Rule R95: Break-feeding - permitted activity	Oppose	Amend R95 to encourage best practice of starting break-feeding at the far side of the paddock to the waterbody. Amend the activity status so that not meeting a permitted activity condition would result in a controlled activity status rather than discretionary. Remove requirement for 5m setback.
Carter Families	S295/058	Rule R96: Cultivation and break-feeding - discretionary activity	Oppose	Amend R96 to encourage best practice of starting break-feeding at the far side of the paddock to the waterbody. Amend the activity status so that not meeting a permitted activity condition would result in a controlled activity status rather than discretionary.
Carter Families	S295/059	Dairy cows	Amend	Amend definition of dairy cows to exclude all 'dry and grazing' dairy cows so that grazing dry dairy cows do not trigger the requirement to fence rivers with an active bed wider than 1m in the hill country.
Carter Families	S295/060	Rule R97: Access to the beds of surface water bodies by livestock - permitted activity	Oppose	See submission point S295/059 on definition of dairy cows.
Carter Families	S295/061	Earthworks	Amend	Amend the definition of earthworks to exclude the construction of new farm and forestry tracks in accordance with District Plan provisions.

Carter Families	S295/062	Rule R48: Stormwater from an individual property - permitted activity	Amend	Delete R48.
Carter Families	S295/063	Rule R100: Vegetation clearance on erosion prone land - permitted activity	Amend	Amend definition (see submission point S295/064)
Carter Families	S295/064	Vegetation clearance	Amend	Amend definition of vegetation clearance to only refer to vegetation clearance which involves the removal of roots or stumps (e.g. root racking or stump clearance).
Carter Families	S295/065	Erosion prone land	Amend	Amend definition of erosion prone land The pre-existing slope of the land exceeds 20 <u>28</u> degrees.
Carter Families	S295/066	Rule R115: Culverts - permitted activity	Amend	Amend R115 to provide for culverts of a larger dimension than proposed for water bodies located on the Kapiti Coast. Refer only to the minimum size limit of 0.3m diameter but remove any maximum size.
Carter Families	S295/067	Rule R121: Maintenance of drains - permitted activity	Amend	Have more practicable provisions that allow for a machine to clear both sides and the middle of the drain at one point in time.
Carter Families	S295/068	Rule R121: Maintenance of drains - permitted activity	Amend	Amend the plan to include a 'best practicable provision' which states 'where possible, all fish and koura should be returned to the drain'.
Carter Families	S295/069	Rule R121: Maintenance of drains - permitted activity	Amend	Amend rule to allow the removal of woody debris with a diameter greater than 0.2m from drains.

Carter Families	S295/070	Rule R92: All discharges to land within community drinking water protection areas - restricted discretionary activity	Oppose	Delete Rule 92.
Carter Families	S295/071	Rule R75: New or upgraded on-site wastewater systems - permitted activity	Amend	Amend R75 to provide for on-site effluent disposal systems within a community drinking water supply protection area.
Carter Families	S295/072	5.4.4 Earthworks and vegetation clearance	Amend	Include a permitted activity rule for new farm and forestry tracks [see original submission for suggested new rule wording]
Carter Families	S295/073	Rule R99: Earthworks-permitted activity	Amend	Amend Rule 99 to either increase the minimum area of earthworks permitted per property based on it as an percentage area of the total property (so that larger properties can undertake more earthworks) and/or so that the rule is applied to catchments affected.
Carter Families	S295/074	Rule R101: Earthworks and vegetation clearance - discretionary activity	Amend	Amend the activity status or R101 so that activities that don't comply with rule 99 or 100 are a restricted discretionary activity.
Carter Families	S295/075	Rule R136: Take and use of water - permitted activity	Amend	Amend Rule to return to the limits set under the Operative Regional [freshwater] plan until the Whaitua process identifies which water bodies have been over allocated.
Carter Families	S295/076	5.5.3 Activities in wetlands	Amend	[Do not include all ephemeral and wet areas as 'natural wetlands'; identify wetlands with significant values and protect them]
Carter Families	S295/077	5.6.2 Take and use of water	Oppose	Maintain the existing limits [in the Regional Freshwater Plan].

Carter Families	S295/078	Rule R36: Agrichemicals - permitted activity	Amend	<p>Amend R36 to be limited to a specific distance from the area which is being sprayed.</p> <p>(g) the applicator, manager or owner of the property shall prepare a spray plan at least once per annum, and:</p> <p>... (iv) supply a copy of the spray plan at least 24 hours prior to the discharge of agrichemicals <u>verbally notify at least 24 hours prior to the discharge of agrichemicals the owner/occupier of a property which is either identified as a sensitive area or is within 50 metres of the area which will be affected by the discharge or likely to be directly affected by the discharge, or requests a copy, and (h) ...</u></p> <p>(i) for ground-based applications where the applicator is not a commercial applicator the applicator shall:</p> <p>(i) hold a GROWSAFE® Introductory Certificate, or</p> <p>(ii) be supervised by a person holding a current GROWSAFE® Advanced Certificate, and</p>
Carter Families	S295/079	Policy P42: Protecting and restoring ecosystems and habitats with significant indigenous biodiversity values	Amend	<p>Amend P42:</p> <p>In order to protect the ecosystems and habitats with significant indigenous biodiversity values identified in Policy P40, particular regard shall be given to managing the adverse effects of use and development in surrounding areas on physical, chemical and biological processes to: (a) maintain ecological connections within and between these habitats, or (b) provide for the enhancement of ecological connectivity between fragmented habitats through biodiversity offsets, and (c) provide adequate buffers around ecosystems and habitats with significant indigenous biodiversity values, and (d) avoid cumulative adverse effects on, and the incremental loss of the values of these ecosystems and habitats.</p>
Carter Families	S295/080	Objective O9: Recreational values	Amend	<p>Amend O9:</p> <p>The recreational values of the coastal marine area, rivers, lakes and their margins and natural wetlands are maintained and <u>where possible, enhanced, over time.</u></p>
Carter Families	S295/081	Objective O11: Maori customary use	Amend	<p>Amend O11:</p> <p>Opportunities for Māori customary use of the coastal marine area, rivers and lakes and their margins and natural wetlands for cultural purposes are recognised, maintained and <u>where possible, improved, over time.</u></p>

Carter Families	S295/082	Objective O23: Maintain or improve water quality	Amend	Amend O23: The quality of water in the region's rivers, lakes, natural wetlands, groundwater and the coastal marine area is maintained, <u>or where possible, improved, over time.</u>
Carter Families	S295/083	Policy P3: Precautionary approach	Amend	Amend P3: Use and development shall be managed with a precautionary approach where there is limited information regarding the receiving environment and the <u>risk of</u> adverse effects the activity may have on this environment <u>may be both high and likely to occur.</u>
Carter Families	S295/084	Objective O47: Sediment runoff	Amend	Amend O47: The amount of sediment-laden runoff entering water is reduced <u>over time.</u>
Carter Families	S295/085	Policy P20: Exercise of kaitiakitanga	Amend	Amend P20: (a) managing natural and physical resources in sites with significant [manage] mana whenua values listed in Schedule C (mana whenua) in accordance with tikanga and kaupapa Maori as exercised by mana whenua, <u>when possible;</u> ...
Carter Families	S295/086	Policy P35: Restoring fish passage	Amend	Amend P35: The passage of indigenous fish and koura shall be restored, <u>over time</u> , where this is appropriate for the management and protection of indigenous fish and koura populations.
Carter Families	S295/087	Policy P38: Restoration of wetlands	Amend	Amend P38: The restoration of natural wetlands and the construction of artificial wetlands to provide habitat for indigenous flora and fauna, and to carry out the physical and ecological functions of natural wetlands, shall be encouraged <u>where possible, and supported by local and regional government.</u>
Carter Families	S295/088	Objective O38: Special amenity landscapes	Oppose	Delete O38.

Carter Families	S295/089	Policy P49: Use and development adjacent to outstanding natural features and landscapes and special amenity landscapes	Amend	Policy P49: Use and development adjacent to outstanding natural features and landscapes and special amenity landscapes Use and development in the coastal marine area on sites adjacent to an outstanding natural feature or landscape or special amenity landscape identified in a district plan shall be managed by:...
Carter Families	S295/090	Rule R114: River crossing structures - permitted activity	Amend	Amend R114(f)(ii) Increase the area to 200ha as per the east coast. [none stated for amending R114(g)]
Carterton District Council	S301/001	Map 7: Sites of significance to Ngati Kahungunu ki Wairarapa and Rangitane o Wairarapa (Schedule C5)	Amend	Adapt Map 7 to more clearly identify the physical extent of the Schedule C items, independent of the need to otherwise rely on a GIS mapping tool that is separate from the Plan.
Carterton District Council	S301/002	Map 26: Surface water community drinking water supply protection areas (incorporates Schedule M1)	Amend	More clearly identify the extent of the Kaipatangata water supply protection area so that it is readily visible to people viewing the proposed NRP and interactive on-line maps.
Carterton District Council	S301/003	Map 27a: Groundwater community drinking water supply protection areas - Wairarapa (incorporates Schedule M2)	Amend	Amend the bore references to read S26-0705; S26-0824; S26-0919, and S26-0918.
Carterton District Council	S301/004	Schedule M2: Groundwater community drinking water supply abstraction points	Amend	Amend the bore references to read S26-0705; S26-0824; S26-0919, and S26-0918.

Carterton District Council	S301/005	Schedule N: Stormwater management strategy	Oppose	Delete or preface Schedule N as "preliminary" until the requirements are agreed with territorial local authorities following the workshop process suggested by Method M15.
Carterton District Council	S301/006	Schedule R: Guideline for stepdown allocations	Neither support or oppose	CDC notes that there is nothing specified for the Kaipatangata Stream and seeks clarification as to whether this is the intention.
Carterton District Council	S301/007	12 Schedules	Oppose in part	CDC opposes the non-complying activity status of activities within areas identified within any of the Schedules to the Plan.
Carterton District Council	S301/008	Map 21b: Modelled river classes - middle Wairarapa valley catchments (Table 3.1)	Amend	Adapt Maps 22 to 25 [now Maps 21a - e] to more clearly identify the distinctions between river classifications without reliance on a GIS mapping tool that is separate from the Plan.
Carterton District Council	S301/009	Map 21c: Modelled river classes - Lake Wairarapa and lower valley catchments (Table 3.1)	Amend	Adapt Maps 22 to 25 [now Maps 21a - e] to more clearly identify the distinctions between river classifications without reliance on a GIS mapping tool that is separate from the Plan.
Carterton District Council	S301/010	Map 21d: Modelled river classes - Wellington Hutt Valley and Wainuiomata catchments (Table 3.1)	Amend	Adapt Maps 22 to 25 [now Maps 21a - e] to more clearly identify the distinctions between river classifications without reliance on a GIS mapping tool that is separate from the Plan.
Carterton District Council	S301/012	2.1.6 Definitions, schedules and maps	Oppose in part	CDC opposes the reliance on the on-line GIS system and requests that all mapped information relied on by the schedules, definitions, objectives, policies and rules of the Plan are contained within the Plan itself in a clearly readable and accessible format.

Carterton District Council	S301/013	Map 26: Surface water community drinking water supply protection areas (incorporates Schedule M1)	Amend	Amend the maps to more clearly show the physical extent of the community drinking water supplies.
Carterton District Council	S301/014	Map 21e: Modelled river classes - Kapiti Coast catchments (Table 3.1)	Amend	Adapt Maps 22 to 25 [now Maps 21a - e] to more clearly identify the distinctions between river classifications without reliance on a GIS mapping tool that is separate from the Plan.
Carterton District Council	S301/015	Map 27a: Groundwater community drinking water supply protection areas - Wairarapa (incorporates Schedule M2)	Amend	Amend the maps to more clearly show the physical extent of the community drinking water supplies. [See submission point S301/013]
Carterton District Council	S301/016	Map 27b: Groundwater community drinking water supply protection areas - Hutt Valley (incorporates Schedule M2)	Amend	Amend the maps to more clearly show the physical extent of the community drinking water supplies. [See submission point S301/013]
Carterton District Council	S301/017	Map 27c: Groundwater community drinking water supply protection areas - Kapiti Coast (incorporates Schedule M2)	Amend	Amend the maps to more clearly show the physical extent of the community drinking water supplies. [See submission point S301/013]
Carterton District Council	S301/018	Maori customary use	Amend	Change definition 'Maori use' to 'Maori customary use' [Note 'Maori use' has been updated to 'Maori customary use' in the PNRP].

Carterton District Council	S301/019	2.2 Definitions	Amend	Add new definition for 'Distribution Uniformity': The ratio of the average depth of irrigation water applied minus the average deviation from this depth, divided by the average depth applied, as would occur with overlapped areas wetted with irrigation water, expressed as a percentage. [This definition is already included in current version of the PNRP]
Carterton District Council	S301/020	Mean annual low flow (MALF)	Amend	Amend the definition of MALF to read: "The <u>arithmetic mean</u> of the lowest flows measured in each year of a full site record."
Carterton District Council	S301/021	New discharge	Amend	Amend definition of 'new discharge' to read as follows (or words having similar effect): ... In the context of wastewater discharged to fresh water from a wastewater treatment plant or a wastewater network means a discharge not authorised by resource consent at the time of application for a resource consent, or a discharge that <u>is</u> was authorised by a resource consent at the time of application for a new consent <u>which is proposed to be increased or expanded in a manner that would exacerbate adverse environmental effects (but excluding improvements to treatment technology, discharge location or discharge regime)</u> . but is to be increased or otherwise altered by a new resource consent.
Carterton District Council	S301/022	Wastewater	Amend	Amend the definition of 'wastewater' by deleting the words 'but excluding stormwater'.
Carterton District Council	S301/023	Water sensitive urban design	Amend	Reword the second-to-last sentence of the definition as follows: "WSUD manages stormwater at its source <u>as one of the tools</u> to control runoff and water quality. The terms low impact design, low impact urban design and water sensitive design are often used synonymously with WSUD."
Carterton District Council	S301/024	3. Objectives	Amend	Amend Objectives O5, O16, O17, O23, O25, O26, O27, O33, O35 and O50 and the accompanying explanatory text to acknowledge the need to allow time (longer than the 10-year life of the Natural Resources Plan) for communities to remove their discharges of treated wastewater from surface water and to provide for the continued discharge of treated wastewater to water in specific circumstances (subject to discretionary activity consent).

Carterton District Council	S301/025	Objective O16: Nga Taonga Nui a Kiwa	Amend	Amend Objectives O5, O16, O17, O23, O25, O26, O27, O33, O35 and O50 and the accompanying explanatory text to acknowledge the need to allow time (longer than the 10-year life of the Natural Resources Plan) [See submission point S301/024]
Carterton District Council	S301/026	Objective O17: Natural character	Amend	Amend Objectives O5, O16, O17, O23, O25, O26, O27, O33, O35 and O50 and the accompanying explanatory text to acknowledge the need to allow time (longer than the 10-year life of the Natural Resources Plan) [See submission point S301/024]
Carterton District Council	S301/027	Objective O23: Maintain or improve water quality	Amend	Amend Objectives O5, O16, O17, O23, O25, O26, O27, O33, O35 and O50 and the accompanying explanatory text to acknowledge the need to allow time (longer than the 10-year life of the Natural Resources Plan) [See submission point S301/024]
Carterton District Council	S301/028	Objective O25: Aquatic ecosystem health and mahinga kai	Amend	Amend Objectives O5, O16, O17, O23, O25, O26, O27, O33, O35 and O50 and the accompanying explanatory text to acknowledge the need to allow time (longer than the 10-year life of the Natural Resources Plan) [See submission point S301/024]
Carterton District Council	S301/029	Objective O26: Mahinga kai	Amend	Amend Objectives O5, O16, O17, O23, O25, O26, O27, O33, O35 and O50 and the accompanying explanatory text to acknowledge the need to allow time (longer than the 10-year life of the Natural Resources Plan) [See submission point S301/024]
Carterton District Council	S301/030	Objective O27: Riparian margins	Amend	Amend Objectives O5, O16, O17, O23, O25, O26, O27, O33, O35 and O50 and the accompanying explanatory text to acknowledge the need to allow time (longer than the 10-year life of the Natural Resources Plan) [See submission point S301/024]
Carterton District Council	S301/031	Objective O33: Significant mana whenua values	Amend	Amend Objectives O5, O16, O17, O23, O25, O26, O27, O33, O35 and O50 and the accompanying explanatory text to acknowledge the need to allow time (longer than the 10-year life of the Natural Resources Plan) [See submission point S301/024]
Carterton District Council	S301/032	Objective O35: Significant indigenous biodiversity values	Amend	Amend Objectives O5, O16, O17, O23, O25, O26, O27, O33, O35 and O50 and the accompanying explanatory text to acknowledge the need to allow time (longer than the 10-year life of the Natural Resources Plan) [See submission point S301/024]

Carterton District Council	S301/033	Objective O50: Wastewater discharges to fresh water	Amend	Amend Objectives O5, O16, O17, O23, O25, O26, O27, O33, O35 and O50 and the accompanying explanatory text to acknowledge the need to allow time (longer than the 10-year life of the Natural Resources Plan) [See submission point S301/024]
Carterton District Council	S301/034	Objective O48: Stormwater networks	Amend	Amend Objective O48 by replacing the word 'effects' with 'significant adverse environmental effects'.
Carterton District Council	S301/035	Objective O50: Wastewater discharges to fresh water	Amend	Amend Objective O50 and the accompanying explanatory text to acknowledge the likely need for continued reliance on disposal of treated effluent to rivers for the foreseeable future to allow communities to work towards removal of such discharge from rivers over a time frame that is affordable and efficient. [See also submission point S301/024]
Carterton District Council	S301/036	Policy P4: Minimising adverse effects	Amend	Amend Policy P4 to incorporate consideration of the operational requirements and functional needs of regionally significant infrastructure.
Carterton District Council	S301/037	Policy P12: Benefits of regionally significant infrastructure and renewable electricity generation facilities	Support	Retain Policy P12.
Carterton District Council	S301/038	Policy P13: Existing regionally significant infrastructure and renewable electricity generation facilities	Support	Retain Policy P13.
Carterton District Council	S301/039	Policy P14: Incompatible activities adjacent to regionally significant infrastructure and renewable electricity generation activities	Amend	Amend Policy P14 to read as follows (or words with similar effect): 'Regionally significant infrastructure and renewable energy generation activities shall be protected from new incompatible use and development occurring under, over or adjacent to it, by locating and designing any new use and development to avoid, remedy or mitigate any reverse sensitivity effects.'

Carterton District Council	S301/040	Policy P41: Managing adverse effects on ecosystems and habitats with significant indigenous biodiversity values	Amend	Delete or amend P41 to remove the requirement to avoid activities other than those specified in rehabilitation management plans (in the first paragraph).
Carterton District Council	S301/041	Policy P45: Managing adverse effects on sites with significant mana whenua values	Oppose in part	Delete part (d) of Policy P45.
Carterton District Council	S301/042	Policy P69: Human drinking water supplies	Amend	Delete the words 'to the extent practicable' from Policy P69.
Carterton District Council	S301/043	Policy P70: Managing point source discharges for aquatic ecosystem health and mahinga kai	Amend	Amend P70 as follows: 'Point source discharges to fresh water and coastal water, <u>relating to new discharge activity</u> , shall be managed to maintain water quality, as a minimum, after reasonable mixing.'
Carterton District Council	S301/044	Policy P71: Quality of discharges	Amend	Express dissolved oxygen concentrations as a maximum decrease (decrease to be defined). Include a minimum temperature threshold below which this standard does not apply (CDC suggest 10 degrees Celsius).
Carterton District Council	S301/045	Policy P71: Quality of discharges	Amend	Express nitrate nitrogen, ammoniacal nitrogen, ScBOD and POM as maximum increases, as for other parameters [Note these parameters were included in the draft PNRP but are not in the current PNRP].
Carterton District Council	S301/046	Policy P73: Minimising adverse effects of stormwater discharges	Oppose	Delete Policy P73 or amend it to clarify that it addresses significant adverse effects of stormwater only (if there are any in particular case).

Carterton District Council	S301/047	Policy P74: First-stage local authority network consents	Oppose	Delete Policies P74 and P75 or preface them as "preliminary" until such time as the consultation process envisaged by Method M15 has been concluded.
Carterton District Council	S301/048	Policy P75: Second-stage local authority network consents	Oppose	Delete Policies P74 and P75 or preface them as "preliminary" until such time as the consultation process envisaged by Method M15 has been concluded. [See submission point S301/047].
Carterton District Council	S301/049	Policy P77: Assessing resource consents to discharge stormwater containing wastewater	Oppose in part	Delete Policies P74 and P75 or preface them as "preliminary" until such time as the consultation process envisaged by Method M15 has been concluded. [See submission point S301/047].
Carterton District Council	S301/050	Policy P79: Managing land use impacts on stormwater	Oppose in part	Delete Policies P74 and P75 or preface them as "preliminary" until such time as the consultation process envisaged by Method M15 has been concluded. [See submission point S301/047].
Carterton District Council	S301/051	Policy P76: Minimising wastewater and stormwater interactions	Oppose	Delete Policy P76 or preface it as "preliminary" until the consultation process envisaged by Method M15 has been concluded.
Carterton District Council	S301/052	Policy P83: Avoiding new wastewater discharges to fresh water	Oppose	Delete Policy P83.
Carterton District Council	S301/053	Policy P95: Discharges to land	Amend	Amend P95(f) as follows: "(f) not resulting in a discharge that enters <u>surface</u> water."
Carterton District Council	S301/054	2.2 Definitions	Amend	Add definition for "natural capacity" consistent with the definitions for "field capacity" and "deficit irrigation".
Carterton District Council	S301/055	Policy P109: Lapse dates affecting water takes	Oppose	Remove proposed 3-year lapsing limit.

Carterton District Council	S301/056	Rule R50: Stormwater from a local authority network at plan notification - controlled activity	Oppose	Delete Rules R50 and R51 or preface them as "preliminary" until the consultation process envisaged by Method M15 has been concluded.
Carterton District Council	S301/057	Rule R51: Stormwater from a local authority network two years after public notification - restricted discretionary activity	Oppose	Delete Rules R50 and R51 or preface them as "preliminary" until the consultation process envisaged by Method M15 has been concluded. [See submission point S301/056].
Carterton District Council	S301/058	Rule R58: Water races - discretionary activity	Neither support or oppose	CDC seeks clarification of whether the activity requiring consent is the discharge of contaminants into a water race, or discharge of water race water and contaminants into other water.
Carterton District Council	S301/059	Rule R62: New wastewater to fresh water - non-complying activity	Amend	Amend Rule R62 to provide for all discharges of treated wastewater to surface water as a discretionary activity (not a non-complying activity.)
Carterton District Council	S301/060	Rule R67: Discharges inside sites of significance - non complying activity	Amend	Amend Rule R67 to provide for all discharges into Schedules areas as a discretionary activity (not a non-complying activity).
Carterton District Council	S301/061	Rule R79: Discharge of treated wastewater - controlled activity	Amend	Increase the wind speed limit to 12 m/s. Delete the 10% limit on trade waste. Amend irrigation rate to 20mm per irrigation event. Allow greater flexibility in the form of proposed droplet size versus distribution uniformity. Amend minimum setback distances from boundaries and from surface water to allow discharge of treated effluent closer to boundaries.
Carterton District Council	S301/062	Rule R99: Earthworks-permitted activity	Amend	Insert new rule that provides permitted activity status for discharges associated with road construction and maintenance (equivalent to Rule 18 of the Regional Plan for Discharges to Land).

Carterton District Council	S301/063	Rule R115: Culverts - permitted activity	Amend	Amend R115(h)(i) to increase the maximum culvert length from 20m to 30m.
Carterton District Council	S301/064	Rule R117: New structures - permitted activity	Amend	Amend Rule R117 to provide for maintenance of stream alignment to protect essential infrastructure. Delete condition R117(i)
Carterton District Council	S301/065	Rule R121: Maintenance of drains - permitted activity	Oppose in part	Delete the prescriptive list of conditions from Rules R121 and R122.
Carterton District Council	S301/066	Rule R122: Removing vegetation - permitted activity	Oppose in part	Delete the prescriptive list of conditions from Rules R121 and R122.
Carterton District Council	S301/067	Map 21a: Modelled river classes - upper Wairarapa valley catchments (Table 3.1)	Amend	Adapt Maps 22 to 25 [now Maps 21a - e] to more clearly identify the distinctions between river classifications without reliance on a GIS mapping tool that is separate from the Plan.
Carterton District Council	S301/068	2.1.6 Definitions, schedules and maps	Amend	Clarify the expression "Maori practices" [Add new definition].
Castlepoint Ratepayers and Residents Association Incorporated	S79/001	Policy P148: Motor vehicles in sites with significant value	Oppose	Amend P148 to allow recreational access onto the beach for vehicles, namely, Mataikona Beach, South of Suicide Rock Beach, Okau Beach [Sandy Bay] and adjacent sandy beaches, North, Whakataki Beach, and Castlepoint Beaches not covered [front beach] by the Masterton District Council By-law.
Cathie Tomkies	S217/001	Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity	Oppose	Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach.

CBEC	S101/001	2. Interpretation	Amend	That "Climate change" <u>be defined as a change of climate which is attributed directly or indirectly to human activity that alters the composition of the global atmosphere and which is in addition to natural climate variability observed over comparable time periods.</u> " (Source: UN Framework Convention on Climate Change 1992).
CBEC	S101/002	3.4 Natural character, form and function	Amend	Create a separate objective for climate change, and that states: " <u>The risk, residual risk, and adverse effects of climate change on people, the community, biodiversity, aquatic ecosystem health, mahinga kai and infrastructure are recognised</u> "
CBEC	S101/003	4.4 Natural form and function	Amend	Amend P29 to read: <u>" The potential for climate change to threaten biodiversity, aquatic ecosystem health and mahinga kai or to cause or exacerbate natural hazard events that could adversely affect use and development including but not limited to:</u> <u>(a) coastal erosion and inundation (storm surge), and</u> <u>(b) river and lake flooding and erosion, aggradation, decreased minimum flows and</u> <u>(c) stormwater ponding and impeded drainage, and</u> <u>(d) sea level rise, using the best available guidance for the Wellington Region shall be recognised."</u>
CentrePort Limited (CentrePort)	S121/001	1.1 Overview of the Wellington Region	Support	Retain provision in its current form.
CentrePort Limited (CentrePort)	S121/002	1.6 Values of water in the Plan	Support	Retain provision in its current form.
CentrePort Limited (CentrePort)	S121/003	Commercial Port Area	Support in part	Amend to provide clarification as to what other Maps define or link to the Commercial Port Area.
CentrePort Limited (CentrePort)	S121/004	Common marine and coastal area	Support in part	Provide clarification as to the extent of application of the Coastal Plan provisions, specifically in relation to whether the wider environment is included, to enable certainty.

CentrePort Limited (CentrePort)	S121/005	Earthworks	Support	Retain this definition in its current form.
CentrePort Limited (CentrePort)	S121/006	Functional need	Support	Retain this definition in its current form.
CentrePort Limited (CentrePort)	S121/007	Hard engineering	Support	Retain this definition in its current form.
CentrePort Limited (CentrePort)	S121/008	High hazard areas (also known as areas at high risk from natural hazards)	Support in part	Clarify why the Coastal Marine Area is defined as a High Hazard Area and its implications for effects based decision making. Alternatively, exclude the Commercial Port Area from the definition.
CentrePort Limited (CentrePort)	S121/009	Maori customary use	Oppose in part	Refine the definition of Māori Customary Use to provide clarity as to the activities that fall within the term.
CentrePort Limited (CentrePort)	S121/010	Mobile sources	Support	Retain definition in its current form.
CentrePort Limited (CentrePort)	S121/011	Operational requirement	Support	Retain this definition in its current form.
CentrePort Limited (CentrePort)	S121/012	Port Noise Control Line	Support	Retain this definition in its current form.
CentrePort Limited (CentrePort)	S121/013	Port related activities	Amend	Amend definition as follows: Activities within the Commercial Port Area, the Lambton Harbour Area and on the adjacent land within the district including, but not limited to, the berthing, departure and movement of ships, storage and cargo handling, handling of goods and passengers, all activities associated with the movement, storage and handling of cargo and any activities (including construction, maintenance and repair) associated with buildings, <u>other structures</u> , machinery and equipment used in connection with the port or its administration.

CentrePort Limited (CentrePort)	S121/014	Reclamation	Support	Retain this definition in its current form.
CentrePort Limited (CentrePort)	S121/015	Regionally significant infrastructure	Support	Retain this definition in its current form.
CentrePort Limited (CentrePort)	S121/016	Reverse sensitivity	Support	Retain this definition in its current form.
CentrePort Limited (CentrePort)	S121/017	Sensitive activity	Support	Retain this definition in its current form.
CentrePort Limited (CentrePort)	S121/018	Temporary structure	Support in part	Amend the definition of 'temporary structure' as follows: A structure in the coastal marine area <u>outside of the Commercial Port Area</u> which is not in place for a period exceeding a total of 31 days or part days during a 12 month period, inclusive of the placement and removal.
CentrePort Limited (CentrePort)	S121/019	Objective O5: Fresh and coastal water	Support in part	Clarification on what the required consideration of safeguarding aquatic ecosystem health and Mahinga kai are.

CentrePort Limited (CentrePort)	S121/020	Objective O5: Fresh and coastal water	Support in part	Clarify O5 by adding 'where appropriate' at the start of O5 (b), as follows: "Fresh water bodies and the coastal marine area, as a minimum, <u>where appropriate</u> , are managed to: (a) safeguard aquatic ecosystem health and mahinga kai, and (b) provide for contact recreation and Māori customary use, and ..." [NB: submission point places new text as shown, not in front of (b) as stated]
CentrePort Limited (CentrePort)	S121/021	Objective O9: Recreational values	Support in part	Amend Objective O9 as follows: The recreational values of the coastal marine area, rivers and lakes and their margins and natural wetlands are maintained and enhanced <u>where appropriate</u> .
CentrePort Limited (CentrePort)	S121/022	Objective O10: Public access	Support in part	Amend Objective O10 as follows: Public access to and along the coastal marine area and rivers and lakes is maintained and enhanced <u>where appropriate</u> .
CentrePort Limited (CentrePort)	S121/023	Objective O11: Maori customary use	Amend	Amend Objective O11 as follows: Opportunities for Māori customary use of the coastal marine area, rivers and lakes and their margins and natural wetlands for cultural purposes are recognised, maintained and improved <u>where appropriate</u> . [note incorrect objective text used in submission]
CentrePort Limited (CentrePort)	S121/024	Objective O12: Benefits of regionally significant infrastructure	Support	Retain this objective in its current form.
CentrePort Limited (CentrePort)	S121/025	Objective O13: Protecting regionally significant infrastructure	Support	Retain this objective in its current form.

CentrePort Limited (CentrePort)	S121/026	Objective O19: Natural processes	Support in part	Amend Objective O19 as follows: The interference- adverse effects from use and development on natural processes is minimised- avoided, remedied or mitigated.
CentrePort Limited (CentrePort)	S121/027	Objective O21: High hazard areas	Support in part	Clarify why the Coastal Marine Area is defined as a High Hazard Area and its implications for effects based decision making. Alternatively exclude the Commercial Port Area from the definition of High Hazard Area.
CentrePort Limited (CentrePort)	S121/028	Objective O22: Hard engineering	Oppose	Amend Objective O22 as follows: Hard engineering mitigation and protection methods are only used as a last practicable option <u>unless there is a functional need or operational requirement.</u>
CentrePort Limited (CentrePort)	S121/029	Objective O24: Contact recreation and Maori customary use	Support in part	Amend Objective O24 as follows: Rivers, lakes, natural wetlands and coastal water <u>(excluding the Commercial Port Area)</u> are suitable for contact recreation and Maori customary use, by: ...
CentrePort Limited (CentrePort)	S121/030	Objective O29: Fish passage	Support in part	Amend Objective O29 as follows: Use and development provides for the passage of fish and koura, and the passage of indigenous fish and koura is restored. <u>Use and development provides for the passage of fish and koura, and if appropriate restored if passage of fish and koura is not currently provided.</u>
CentrePort Limited (CentrePort)	S121/031	Objective O33: Significant mana whenua values	Support in part	Amend Objective O33 as follows: Sites with significant mana whenua values are protected <u>from inappropriate use and development</u> and restored <u>where values have been compromised.</u>

CentrePort Limited (CentrePort)	S121/032	Objective O35: Significant indigenous biodiversity values	Support in part	Ecosystems and habitats with significant indigenous biodiversity values are protected <u>from inappropriate use and development</u> and restored <u>where values have been compromised</u> .
CentrePort Limited (CentrePort)	S121/033	Objective O37: Significant surf breaks	Support in part	Clarify the nature of potential adverse effects and measurement of these and how the policy would be applied in practice.
CentrePort Limited (CentrePort)	S121/034	Objective O48: Stormwater networks	Support	Retain Objective O48 in its current form.
CentrePort Limited (CentrePort)	S121/035	Objective O53: Functional need in the coastal marine area	Support	Retain Objective O53 in its current form.
CentrePort Limited (CentrePort)	S121/036	Objective O55: Public open space	Support in part	Amend Objective O55 as follows. The need for <u>appropriately located</u> public open space in the coastal marine area is recognised
CentrePort Limited (CentrePort)	S121/037	Objective O56: New development in the coastal marine area	Support in part	Amend Objective O56 as follows: New development in the coastal marine area is of a scale, density and design that is compatible <u>with its function and</u> its location in the coastal environment.
CentrePort Limited (CentrePort)	S121/038	Objective O58: Noise and underwater noise	Support	Retain Objective O58 in its current form.
CentrePort Limited (CentrePort)	S121/039	Objective O59: Passage of vessels and aircraft	Support	Retain Objective O58 in its current form.

CentrePort Limited (CentrePort)	S121/040	Policy P3: Precautionary approach	Support in part	Amend Policy P3 as follows: Use and development shall be managed with a precautionary approach where there is limited information regarding the receiving environment and the adverse effects the activity may have on this environment. <u>A precautionary approach to the management of the nature, scale and speed of use and development shall be used where there is limited information available and the potential for significant adverse effects.</u>
CentrePort Limited (CentrePort)	S121/041	Policy P4: Minimising adverse effects	Support in part	Amend Policy P4 as follows:Where minimisation of adverse effects is required by policies in the Plan minimisation means reducing adverse effects of the activity to the smallest amount practicable <u>having regard to the nature and objectives of the activity</u> and shall include: ...(b) <u>if practicable considering the nature and objectives of the activity</u> locating the activity away from areas identified in Schedule A (outstanding water bodies), Schedule C (mana whenua), Schedule E (historic heritage), Schedule F (indigenous biodiversity), and ...
CentrePort Limited (CentrePort)	S121/042	Policy P7: Uses of land and water	Support	Retain Policy P7 in its current form.
CentrePort Limited (CentrePort)	S121/043	Policy P8: Beneficial activities	Support in part	Amend Policy P8 as follows: ... h) maintenance, use <u>and upgrading</u> of existing structures in the coastal marine area, natural wetlands and the beds of rivers and lakes, and
CentrePort Limited (CentrePort)	S121/044	Policy P9: Public access to and along the coastal marine area and the beds of lakes and rivers	Support in part	Amend Policy 9 as follows:Reduction in the extent or quality of public access to and along the coastal marine area ... (b) protect public health, and safety , <u>security and biosecurity</u> , or...with respect to (a), (b) and (c), where it is necessary to permanently restrict or remove existing public access, and <u>where practicable and achievable and considering the nature of the activity</u> , the loss of public access shall be mitigated or offset by providing enhanced public access at a similar or nearby location <u>or offset</u> .

CentrePort Limited (CentrePort)	S121/045	Policy P10: Contact recreation and Maori customary use	Support in part	Amend Policy P10 as follows: ...(b) managing activities to maintain or enhance <u>safe</u> contact recreation values in the beds of lakes and rivers, including by retaining existing swimming holes and maintaining access to existing contact recreation locations, and ...(d) providing for the <u>safe</u> passive recreation and amenity values of fresh water bodies and the coastal marine area.
CentrePort Limited (CentrePort)	S121/046	Policy P12: Benefits of regionally significant infrastructure and renewable electricity generation facilities	Support in part	Amend Policy P12 as follows:... (d) the functional need for port activities <u>and infrastructure</u> to be located within the coastal marine area, and ...
CentrePort Limited (CentrePort)	S121/047	Policy P13: Existing regionally significant infrastructure and renewable electricity generation facilities	Support	Retain Policy P13 in its current form.
CentrePort Limited (CentrePort)	S121/048	Policy P14: Incompatible activities adjacent to regionally significant infrastructure and renewable electricity generation activities	Support	Retain Policy P14 in its current form.
CentrePort Limited (CentrePort)	S121/049	Policy P22: Ecosystem values of estuaries	Support in part	Amend Policy P22 as follows: Significant <u>A</u> adverse effects on the ecosystem values of estuaries, including their importance as habitat for indigenous plants, birds and fish including diadromous species, and as a nursery for important fish stocks, shall be avoided <u>, remedied or mitigated.</u>

CentrePort Limited (CentrePort)	S121/050	Policy P23: Restoring Te Awarua-o-Porirua Harbour, Wellington Harbour (Port Nicholson), and Lake Wairarapa	Not stated	Amend Policy P9 as follows:The ecological health and significant values of Te Awarua-o-Porirua Harbour, Wellington Harbour (Port Nicholson) and Lake Wairarapa will be restored overtime by: ... (c) <u>where appropriate</u> undertaking planting and pest management programmes in harbour and lake habitats and ecosystems.
CentrePort Limited (CentrePort)	S121/051	Policy P24: Outstanding natural character	Support in part	Amend Policy P24 as follows:Areas of outstanding natural character in the coastal marine area will be preserved by: (a) Protecting avoiding adverse effects of activities on natural character in areas of the coastal marine area with outstanding natural character <u>by avoiding inappropriate use and development</u> , and ... (d) maintaining the high levels of naturalness of these areas, and and (e) avoiding the adverse effects of activities, including those located outside the area, that individually or cumulatively detract from the natural character values of the outstanding natural character area.
CentrePort Limited (CentrePort)	S121/052	Policy P27: High hazard areas	Support in part	Clarity why all the CMA is defined as a High Hazard Area and its implications for effects based decision making. Alternatively, exclude the Commercial Port Area from the definition.
CentrePort Limited (CentrePort)	S121/053	Policy P28: Hazard mitigation measures	Oppose	Amend Policy P28 as follows:Hard engineering mitigation and protection methods shall be avoided except where <u>(a) there is a functional and operational need; or</u> (b) <u>It is necessary to protect existing and planned future development from unacceptable risk, assessed using the risk-based approach, and the works either form part of a hazard management strategy or the environmental effects are considered to be no more than minor.</u>
CentrePort Limited (CentrePort)	S121/054	Policy P31: Aquatic ecosystem health and mahinga kai	Support in part	Amend Policy P31(e) as follows:... (e) minimise <u>manage in accordance with the process outlined in Policy P32</u> creating barriers to the migration or movement of indigenous aquatic species, and restore the connections between fragmented aquatic habitats where appropriate, and ...
CentrePort Limited (CentrePort)	S121/055	Policy P32: Adverse effects on aquatic ecosystem health and mahinga kai	Support in part	Amend Policy P32(d) as follows:... (d) where residual adverse effects remain, it is appropriate to consider the use of biodiversity -offsets.

CentrePort Limited (CentrePort)	S121/056	Policy P33: Protecting indigenous fish habitat	Support in part	Amend Policy P33 as follows: The more than minor adverse effects of activities on the species known to be present in any water body identified in Schedule F1 (rivers/lakes) as habitat for indigenous fish species, and Schedule F1b (inanga spawning habitats), particularly at the relevant spawning and migration times identified in Schedule F1a (fish spawning/migration) for those species, shall be avoided, <u>remedied, mitigated or offset.</u>
CentrePort Limited (CentrePort)	S121/057	Policy P34: Fish passage	Support in part	Amend Policy P34 as follows: <u>Manage in accordance with the process outlined in Policy 32</u> the construction or creation of new barriers to the passage of fish and koura species shall be avoided.
CentrePort Limited (CentrePort)	S121/058	Policy P40: Ecosystems and habitats with significant indigenous biodiversity values	Support in part	Amend Policy P40 as follows: Protect and restore <u>Manage the values</u> of the following ecosystems and habitats with significant indigenous biodiversity values: ...
CentrePort Limited (CentrePort)	S121/059	Policy P41: Managing adverse effects on ecosystems and habitats with significant indigenous biodiversity values	Support in part	Amend Policy P41 (d) as follows: ... (d) where residual adverse effects remain, it is appropriate to consider the use of biodiversity offsets.
CentrePort Limited (CentrePort)	S121/060	Policy P44: Protection and restoration of sites with significant mana whenua values	Support in part	Amend Policy P44 as follows: Sites with significant mana whenua values identified in Schedule C (mana whenua) shall be protected <u>from inappropriate use and development</u> and/or restored.
CentrePort Limited (CentrePort)	S121/061	Policy P46: Managing adverse effects on sites with significant historic heritage value	Support in part	Amend Policy P46 so that the listed outcomes do not unduly constrain opportunities for otherwise appropriate redevelopment of historic heritage sites.

CentrePort Limited (CentrePort)	S121/062	Policy P47: Appropriate demolition	Support in part	Amend Policy P47 as follows: Demolition or removal of a structure with significant historic heritage value identified in ... is inappropriate except where the structure: ... c. It is not reasonably practicable to repair it, or d. <u>is derelict and has no on-going functional or economic use in its present state and/or configuration.</u>
CentrePort Limited (CentrePort)	S121/063	Policy P48: Protection of outstanding natural features and landscapes	Support in part	Amend Policy P48 as follows: The natural features and landscapes (including seascapes) of the coastal marine area, rivers, lakes and their margins and natural wetlands shall be protected from inappropriate use and development by: (a) <u>seeking to avoid</u> ing adverse effects of activities on <u>identified</u> outstanding natural features and landscapes, and (b) <u>avoiding</u> significant adverse effects and avoiding , remedying or mitigating other adverse effects of activities on natural features and landscapes.
CentrePort Limited (CentrePort)	S121/064	Policy P49: Use and development adjacent to outstanding natural features and landscapes and special amenity landscapes	Support in part	Amend Policy P49 as follows: Use and development in the coastal marine area on sites adjacent to an outstanding natural feature or landscape or special amenity landscape identified in a district plan shall be managed by <u>seeking to</u> : (a) protect ing visual and biophysical linkages between the site and the outstanding natural feature or landscape, and (b) <u>avoiding</u> adverse cumulative effects <u>from inappropriate use and development</u> on the values of an outstanding natural feature or landscape.
CentrePort Limited (CentrePort)	S121/065	Policy P50: Significant geological features	Support in part	Amend Policy P50 as follows: The significant adverse effects of use and development on the significant geological features identified in Schedule J (geological features) shall be <u>avoided, remedied or mitigated.</u>
CentrePort Limited (CentrePort)	S121/066	Policy P51: Significant surf breaks	Support in part	Clarify the nature of potential adverse effects and measurement of these and how the policy would be applied in practice.

CentrePort Limited (CentrePort)	S121/067	Policy P51: Significant surf breaks	Support in part	Amend Policy P51 as follows:Use and development in and adjacent to the significant surf breaks identified in Schedule K (surf breaks) shall be managed by minimising <u>avoiding, remedying or mitigating</u> the adverse effects on: ...
CentrePort Limited (CentrePort)	S121/068	Policy P60: Agrichemicals and fumigants	Support	Retain Policy P60 in its current form.
CentrePort Limited (CentrePort)	S121/069	Policy P73: Minimising adverse effects of stormwater discharges	Support in part	Amend Policy P73 as follows:... <u>(d) where practicable</u> progressively improving existing stormwater, wastewater, road and other public infrastructure, including during routine maintenance and upgrade.
CentrePort Limited (CentrePort)	S121/070	Policy P78: Managing stormwater from large sites	Support in part	Amend Policy P78 as follows:The adverse effects of the discharge of stormwater from a port, airport or state highway, where the discharge will enter water shall be minimised by: (a) managing the discharge in order to minimise the adverse effects of stormwater discharges on aquatic ecosystem health and mahinga kai, contact recreation and Māori customary use <u>where practicable and appropriate</u> , and ...
CentrePort Limited (CentrePort)	S121/071	Policy P86: Discharge of wastewater from vessels	Support	Retain Policy P86 in its current form.
CentrePort Limited (CentrePort)	S121/072	Policy P87: Minimising adverse effects of wastewater discharges from vessels and offshore installations	Support	Retain Policy P87 in its current form.
CentrePort Limited (CentrePort)	S121/073	Policy P88: Bio foul cleaning	Support	Retain Policy P88 in its current form.
CentrePort Limited (CentrePort)	S121/074	Policy P132: Functional need and efficient use	Support	Retain Policy P132 in its current form.

CentrePort Limited (CentrePort)	S121/075	Policy P133: Recreational values	Support in part	Amend Policy P133 as follows: The adverse effects of use and development in the coastal marine area on recreational values shall be managed, <u>where practicable</u> , by providing for a diverse range of recreational opportunities while avoiding conflicts and safety issues.
CentrePort Limited (CentrePort)	S121/076	Policy P135: Safe passage	Support	Retain Policy P135 in its current form.
CentrePort Limited (CentrePort)	S121/077	Policy P136: Hutt Valley aquifer zone in Wellington Harbour (Port Nicholson)	Support in part	Retain Policy P136 but amend Map 30 to exclude the Commercial Port Area. [see also submission points on Map 30]
CentrePort Limited (CentrePort)	S121/078	Policy P136: Hutt Valley aquifer zone in Wellington Harbour (Port Nicholson)	Support in part	Clarify, following scientific investigation, the areas of Wellington Harbour where the confined Hutt Valley aquifer currently exists.
CentrePort Limited (CentrePort)	S121/079	Policy P137: Airport height restriction areas	Support in part	Clarify height restrictions in P137 or Map 50 and the related online GIS information.
CentrePort Limited (CentrePort)	S121/080	Policy P138: Structures in sites with significant values	Support in part	Amend Policy P138 as follows: New structures, replacement of a structure or any addition or alteration to a structure ... shall be avoided, except where: ...and in respect of (a) to (d):(e) there are no practicable alternative <u>locations</u> or methods of providing for the activity.
CentrePort Limited (CentrePort)	S121/081	Policy P139: Seawalls	Support in part	Amend Policy P139 as follows: The construction of a new seawall is inappropriate except where the seawall is required to protect: ...and in respect of (a) and (b):(c) there is <u>are</u> no reasonable or practicable alternative means <u>methods and locations</u> , and (d) suitably located , designed and certified by a qualified, professional engineer, and (e) designed to incorporate the use of soft engineering options where appropriate <u>and practicable</u> .

CentrePort Limited (CentrePort)	S121/082	Policy P143: Deposition in a site of significance	Not stated	Amend Policy P143 as follows:Deposition of sand, shingle or shell in a site identified in Schedule C (mana whenua), Schedule E4 (archaeological sites), Schedule F4 (coastal sites), Schedule F5 (coastal habitats) and Schedule J (geological features) shall be avoided except where: ...and in respect of (a) to (f):(g) there are no practicable alternative <u>locations or methods</u> of providing for the activity.
CentrePort Limited (CentrePort)	S121/083	Policy P145: Reclamation, drainage and destruction	Support	Retain Policy P145 in its current form.
CentrePort Limited (CentrePort)	S121/084	Policy P150: Noise and lighting	Support	Retain Policy P150 in its current form.
CentrePort Limited (CentrePort)	S121/085	Policy P151: Underwater noise	Support	Retain Policy P151 in its current form.
CentrePort Limited (CentrePort)	S121/086	Rule R12: Emergency power generators - permitted activity	Support	Retain Rule R12 in its current form.
CentrePort Limited (CentrePort)	S121/087	Rule R15: Spray coating not within an enclosed space - permitted activity	Support	Retain Rule R15 in its current form.
CentrePort Limited (CentrePort)	S121/088	Rule R26: Abrasive blasting outside an enclosed area - permitted activity	Support	Retain Rule R26 in its current form.
CentrePort Limited (CentrePort)	S121/089	5.1.7 Dust generating activities	Amend	Add a new permitted activity rule for the discharge to air from sorting and storage of powdered or bulk products [see original submission p20-21 for suggested wording].

CentrePort Limited (CentrePort)	S121/090	Rule R28: Cement storage - permitted activity	Support	Retain Rule R28 in its current form.
CentrePort Limited (CentrePort)	S121/091	Rule R32: Petroleum storage or transfer facilities - permitted activity	Support	Retain Rule R32 in its current form.
CentrePort Limited (CentrePort)	S121/092	Rule R33: Mobile source emissions - permitted activity	Support	Retain Rule R33 in its current form.
CentrePort Limited (CentrePort)	S121/093	Rule R39: Fumigation - permitted activity	Support	Retain Rule R39 in its current form.
CentrePort Limited (CentrePort)	S121/094	Rule R40: Discharge of other fumigants - controlled activity	Support	Retain Rule R40 in its current form.
CentrePort Limited (CentrePort)	S121/095	Rule R52: Stormwater from large sites - restricted discretionary activity	Support	Retain Rule R52 in its current form.
CentrePort Limited (CentrePort)	S121/096	Rule R54: Site investigation - permitted activity	Support	Retain Rule R54 in its current form.
CentrePort Limited (CentrePort)	S121/097	Rule R55: Discharges from contaminated land - permitted activity	Support	Retain R55 in its current form.

CentrePort Limited (CentrePort)	S121/098	Rule R56: Discharges from contaminated land - discretionary activity	Support	Retain R56 in its current form.
CentrePort Limited (CentrePort)	S121/099	Rule R57: Discharge of hazardous substances - non-complying activity	Support	Retain R57 in its current form.
CentrePort Limited (CentrePort)	S121/100	Rule R63: Wastewater from ships and offshore installations - permitted activity	Support	Retain R63 in its current form.
CentrePort Limited (CentrePort)	S121/101	Rule R64: Wastewater from ships and offshore installations - non-complying activity	Support	Retain Rule R64 in its current form.
CentrePort Limited (CentrePort)	S121/102	Rule R65: In-water biofoul cleaning - permitted activity	Support in part	Amend Rule R65 as follows: The discharge of contaminants and biological material into coastal water from in-water cleaning of biofouling from a vessel ... is a permitted activity provided the following conditions are met: ... <u>(d) where the vessel is of international origin</u> the cleaning or treatment method shall capture any biological material released into the water column greater than 50µm in diameter, with any captured cleaning debris disposed on land, and...
CentrePort Limited (CentrePort)	S121/103	Rule R66: In-water biofoul cleaning - discretionary activity	Support in part	Amend R65 as indicated in submission point S121/102.
CentrePort Limited (CentrePort)	S121/104	Rule R67: Discharges inside sites of significance - non complying activity	Oppose	Amend Rule R67 as follows: The discharge of water or contaminants into water, or onto or into land where it may enter water: (a) inside a site or habitat identified in Schedule A (outstanding water bodies), Schedule F1 (rivers/lakes), Schedule F3 (significant wetland), or Schedule F4 (coastal sites) <u>unless located in the Commercial Port Area</u> , and ... is a non-complying activity.

CentrePort Limited (CentrePort)	S121/105	5.7 Coastal management rules	Amend	Consider restructuring the Coastal Management Rules to make it clear what rules apply to the commercial Port Area and those that do not.
CentrePort Limited (CentrePort)	S121/106	5.7.2 Coastal management general conditions	Oppose in part	Amend the coastal management general conditions by either:1. deleting general condition (c), or2. Amend Map 30 to more accurately reflect the extent of the Aquifer, or3. Exclude the Commercial Port Area in the rule [from having to meet condition (c)].
CentrePort Limited (CentrePort)	S121/107	5.7.2 Coastal management general conditions	Support in part	Amend Coastal Management General Management Condition (u) as follows: (u) Port Noise Management Plan CentrePort shall at all times operate in accordance with the <u>current</u> Port Noise Management Plan for CentrePort Ltd
CentrePort Limited (CentrePort)	S121/108	Rule R149: Maintenance or repair of structures - permitted activity	Support	Retain Rule R149 in its current form.
CentrePort Limited (CentrePort)	S121/109	Rule R152: Removal or demolition of structures or part of a structure - permitted activity	Oppose	Amend Rule R152 as follows: The removal or demolition of a structure or part of a structure, including any associated: ...is a permitted activity, provided the following conditions are met:...(f) the structure is not inside a site or habitat identified in Schedule C (mana whenua), Schedule F4 (coastal sites) <u>except for structures within the Commercial Port Area</u> or Schedule F5 (coastal habitats), and(g) the removal or demolition shall not disturb more than 10m3 of the foreshore or seabed <u>except for structures within the Commercial Port Area</u> , and(h) the structure or part of the structure is completely removed from the coastal marine area <u>except for structures within the Commercial Port Area</u> , and...
CentrePort Limited (CentrePort)	S121/110	Rule R154: New temporary structures outside sites of significance - permitted activity	Support in part	Amend Rule R154(f) as follows: ... (f) the structure is outside a site or habitat identified in Schedule C (mana whenua), Schedule F4 (coastal sites) <u>unless located in the Commercial Port Area</u> , Schedule F5 (coastal habitats) or Schedule J (geological features), and ...

CentrePort Limited (CentrePort)	S121/111	Rule R155: New temporary structures - restricted discretionary activity	Support in part	Amend Rule R155 Matters for discretion (10) as follows:10. Navigational safety including the notification of the Wellington Regional Council Harbourmaster, <u>the Chief Pilot of CentrePort Ltd</u> and Maritime New Zealand.
CentrePort Limited (CentrePort)	S121/112	Rule R156: New or replacement navigation aids - permitted activity	Support in part	Amend Rule R156 (g) as follows:(g) written notice ... to: (i) the Wellington Regional Council Harbourmaster, and(ii) Maritime New Zealand, and(iii) Land Information New Zealand, and <u>(iv) The Chief Pilot of CentrePort Ltd, and ...</u>
CentrePort Limited (CentrePort)	S121/113	Rule R158: Structures in airport height restriction areas or navigation protection areas for airport/navigation purposes or navigation protection areas - discretionary activity	Support in part	Amend Rule R158 (i) as follows: (i) in respect of condition (b), written approval is given by the Wellington Regional Council Harbourmaster <u>and the Chief Pilot of CentrePort Ltd.</u>
CentrePort Limited (CentrePort)	S121/114	Rule R161: New structures, additions or alterations to structures outside sites of significance - discretionary activity	Oppose	Amend Rule R161 as follows:A new structure, addition or alteration to a structure and the associated use of the structure outside a site or habitat identified in Schedule C (mana whenua), Schedule F4 (coastal sites) <u>unless located in the Commercial Port Area</u> , Schedule F5 (coastal habitats) or Schedule J (geological features) in the coastal marine area, including any associated ...
CentrePort Limited (CentrePort)	S121/115	Rule R162: New structures, additions or alterations to structures inside sites of significance - non-complying activity	Oppose	Amend Rule R161 [R162] as follows:A new structure, addition or alteration to a structure and the associated use of the structure inside a site or habitat identified in Schedule C (mana whenua), Schedule F4 (coastal sites) <u>unless located in the Commercial Port Area</u> , Schedule F5 (coastal habitats) or Schedule J (geological features) in the coastal marine area, including any associated ...

CentrePort Limited (CentrePort)	S121/116	Rule R165: Additions or alterations to existing seawalls - controlled activity	Support in part	Amend Rule R165(f) as follows:(f) any addition shall add no more than <u>10m</u> 5m in horizontal projection and 1m in vertical projection to the structure as it existed on the date of public notification of the Proposed Natural Resources Plan (31.07.2015), and ...
CentrePort Limited (CentrePort)	S121/117	Rule R166: Seawalls outside sites of significance - discretionary activity	Support in part	Amend Rule R166 as follows:A new seawall, or the addition to or alteration or replacement of an existing seawall, and the associated use of the structure outside a site or habitat identified in Schedule C (mana whenua), Schedule F4 (coastal sites) <u>unless located in the Commercial Port Area</u> , Schedule F5 (coastal habitats) or Schedule J (geological features) in the coastal marine area including any associated: ...
CentrePort Limited (CentrePort)	S121/118	Rule R167: Seawalls inside sites of significance - non-complying activity	Oppose	Amend Rule R167 as follows:A new seawall, or the addition to or alteration or replacement of an existing seawall, and the associated use of the structure inside a site or habitat identified in Schedule C (mana whenua), Schedule F4 (coastal sites) <u>unless located in the Commercial Port Area</u> , Schedule F5 (coastal habitats) or Schedule J (geological features) in the coastal marine area including any associated: ...
CentrePort Limited (CentrePort)	S121/119	Rule R168: Alteration of structures identified in Schedule E2 or Schedule E3 - permitted activity	Support	Retain Rule R168 in its current form. [see also S121/140 on Schedule E2]
CentrePort Limited (CentrePort)	S121/120	Rule R169: Additions or alterations to structures identified in Schedule E1 and or Schedule E2 - restricted discretionary activity	Support	Retain Rule R169 in its current form. [see also S121/140 on Schedule E2]
CentrePort Limited (CentrePort)	S121/121	Rule R170: Additions to structures identified in Schedule E3 - permitted activity	Support	Retain Rule R170 in its current form. [see also S121/140 on Schedule E2]

CentrePort Limited (CentrePort)	S121/122	Rule R171: Additions or alterations to structures identified in Schedule E1, Schedule E2 or Schedule E3 - discretionary activity	Support	Retain Rule R171 in its current form. [see also S121/140 on Schedule E2]
CentrePort Limited (CentrePort)	S121/123	Rule R172: Removal, demolition or replacement of a structure or part of a structure identified in Schedule E1, Schedule E2 or Schedule E3 - discretionary activity	Support	Retain Rule R172 in its current form. [see also S121/140 on Schedule E2]
CentrePort Limited (CentrePort)	S121/124	Rule R173: Additions or alterations to structures inside the Commercial Port Area - permitted activity	Support in part	Amend Rule R173 to remove reference to Kaiwharawhara Stream Estuary through its inclusion in Schedule F4 and subject to the change proposed to general condition (c). [see S121/106]
CentrePort Limited (CentrePort)	S121/125	Rule R174: Additions or alterations to structures inside the Commercial Port Area - controlled activity	Support	Retain Rule R174 in its current form and subject to the change proposed to general condition (c). [see S121/106]
CentrePort Limited (CentrePort)	S121/126	Rule R175: New structures associated with passenger and cargo handling inside the Commercial Port Area - permitted activity	Support	Retain Rule R175 in its current form and subject to the change proposed to general condition (c). [See S121/106]

CentrePort Limited (CentrePort)	S121/127	Rule R182: Occupation of space by a structure owned by a network utility operator - permitted activity	Support	Retain Rule R182 in its current form.
CentrePort Limited (CentrePort)	S121/128	Rule R183: Renewal of existing resource consents for occupation of space by structures - controlled activity	Support	Retain Rule R183 in its current form.
CentrePort Limited (CentrePort)	S121/129	Rule R184: Occupation of space - discretionary activity	Support	Retain Rule R184 in its current form.
CentrePort Limited (CentrePort)	S121/130	Rule R185: General surface water and foreshore activities - permitted activity	Support in part	Amend Rule R185 to add a note excluding activity in the Commercial Port Area.
CentrePort Limited (CentrePort)	S121/131	Rule R186: General surface water and foreshore activities - restricted discretionary	Support in part	Amend Rule R186 to add a note excluding activity in the Commercial Port Area.
CentrePort Limited (CentrePort)	S121/132	Rule R189: Clearance of stormwater pipes - permitted activity	Support	Retain Rule R189 in its current form.
CentrePort Limited (CentrePort)	S121/133	5.7.14 Dredging	Amend	Insert a new rule providing for maintenance dredging within a Commercial Port Area or navigation protection area as a permitted activity.

CentrePort Limited (CentrePort)	S121/134	Rule R202: Maintenance dredging outside a Commercial Port Area or navigation protection areas - controlled activity	Support	Retain Rule R202 in its current form.
CentrePort Limited (CentrePort)	S121/135	Rule R203: Dredging inside the Commercial Port Area and in navigation protection areas - discretionary activity	Support	Retain Rule R203 in its current form.
CentrePort Limited (CentrePort)	S121/136	Rule R214: Reclamation and drainage for regionally significant infrastructure outside of sites of significance - discretionary activity	Amend	Amend Rule R212 to provide for dredging related deposition or dumping within a scheduled site as a discretionary activity.
CentrePort Limited (CentrePort)	S121/137	Rule R214: Reclamation and drainage for regionally significant infrastructure outside of sites of significance - discretionary activity	Support in part	Amend Rule R214 as follows: Reclamation and drainage for regionally significant infrastructure activities outside a site or habitat identified in Schedule C (mana whenua), Schedule E4 (archaeological sites), Schedule F4 (coastal sites) <u>unless located in the Commercial Port Area</u> , Schedule F5 (coastal habitats) or Schedule J (geological features) in the coastal marine area, including any associated: ...
CentrePort Limited (CentrePort)	S121/138	Rule R215: Reclamation and drainage - non-complying activity	Support	Retain Rule R215 in its current form, subject to the relief sought in relation to Rule R214. [see S121/137]
CentrePort Limited (CentrePort)	S121/139	Rule R216: Destruction - non-complying activity	Amend	Either delete Rule R216 or define "destruction" within the definitions section or within the context of the rule itself.

CentrePort Limited (CentrePort)	S121/140	Schedule E2: Historic heritage wharves and boatsheds	Oppose	Remove Miramar Wharf, Railway Wharf and Waterloo Quay Wharf from Schedule E2: Historic heritage (wharves and boatsheds).
CentrePort Limited (CentrePort)	S121/141	Schedule F4: Sites with significant indigenous biodiversity values in the coastal marine area	Oppose in part	Either delete Kaiwharawhara Stream estuary from Schedule F4; or make provision in relevant rules for discretionary activity for Port related purposes.
CentrePort Limited (CentrePort)	S121/142	Schedule K: Significant surf breaks	Amend	Clarify how the relevant policies to Schedule K will be applied.
CentrePort Limited (CentrePort)	S121/143	Map 9: Historic heritage wharves and boatsheds (Schedule E2)	Amend	Remove Miramar Wharf, Railway Wharf and Waterloo Quay Wharf from Map 9: Historic heritage (wharves and boatsheds). [see S121/140]
CentrePort Limited (CentrePort)	S121/144	Map 19: Sites with significant indigenous biodiversity values in the coastal marine area (Schedule F4)	Amend	Either delete Kaiwharawhara Stream estuary from Schedule F4; or make provision in relevant rules for discretionary activity for Port related purposes. [See s121/141]
CentrePort Limited (CentrePort)	S121/145	Map 24: Significant surf breaks (Schedule K)	Amend	Clarify how the relevant policies to Map 24 will be applied.
CentrePort Limited (CentrePort)	S121/146	Map 30: Hutt Valley aquifer zone in Wellington Harbour (Port Nicholson)	Oppose	Amend Map 30 to more accurately reflect the extent of the Aquifer, or - Delete condition (c) of the coastal management general conditions, or - Exclude the Commercial Port Area in the rule [from having to meet condition (c)] [see S121/106]

CentrePort Limited (CentrePort)	S121/147	Map 32: Commercial port, Lambton Harbour Area & noise control lines - Lambton Harbour	Amend	Amend Map 32 so that the Lambton Harbour Area (Northern Zone) shown on Map 32 is also overlain with the Commercial Port Area notation.
CentrePort Limited (CentrePort)	S121/148	Map 49: Navigation protection areas in Wellington Harbour (Port Nicolson)	Amend	Amend Map 49 as shown in attached Plan [see map on p33 of original submission] and include the Commercial Port Area as being a Navigation Protection Area.
CentrePort Limited (CentrePort)	S121/149	Map 50: Wellington International Airport height restrictions	Amend	Clarify height restrictions in Map 50 and the related online GIS information.
CentrePort Limited (CentrePort)	S121/150	Rule R149: Maintenance or repair of structures - permitted activity	Amend	Provision for activities in or on an existing structure or use of that structure, similar to that provided under Rules 10 and 25 of the Operative Regional Coastal Plan.
CentrePort Properties Limited	S141/001	3. Objectives	Amend	Amend the objectives, policies and rules relevant to the Waterloo Quay Wharf and InterIsland Wharf to provide for the mixed use redevelopment, either as a complete change of use or in combination with Port related activities; and retain underlying provisions relating to port operations in the Commercial Port Area, until such time as mixed use redevelopment occurs; and apply appropriate controls over redevelopment.
CentrePort Properties Limited	S141/002	4.6 Sites with significant values	Amend	Amend the objectives, policies and rules relevant to the Waterloo Quay Wharf and InterIsland Wharf to provide for the mixed use redevelopment, either as a complete change of use or in combination with Port related activities; and retain underlying provisions relating to port operations in the Commercial Port Area, until such time as mixed use redevelopment occurs; and apply appropriate controls over redevelopment.
CentrePort Properties Limited	S141/003	5.7.3 Maintenance, repair, additions and alterations to existing structures	Amend	Amend the objectives, policies and rules relevant to the Waterloo Quay Wharf and InterIsland Wharf to provide for the mixed use redevelopment, either as a complete change of use or in combination with Port related activities; and retain underlying provisions relating to port operations in the Commercial Port Area, until such time as mixed use redevelopment occurs; and apply appropriate controls over redevelopment.

CentrePort Properties Limited	S141/004	Hard engineering	Support	Retain the definition.
CentrePort Properties Limited	S141/005	Maori customary use	Amend	Refine definition of to provide clarity as to the activities that fall within the term.
CentrePort Properties Limited	S141/006	Noise sensitive activities	Support	Retain the definition.
CentrePort Properties Limited	S141/007	Port related activities	Amend	Retain this definition.
CentrePort Properties Limited	S141/008	Port Noise Control Line	Support	Retain this definition.
CentrePort Properties Limited	S141/009	Reclamation	Support	Retain this definition.
CentrePort Properties Limited	S141/010	Regionally significant infrastructure	Support	Retain this definition.
CentrePort Properties Limited	S141/011	Reverse sensitivity	Support	Retain this definition.
CentrePort Properties Limited	S141/012	Sensitive activity	Support	Retain this definition.
CentrePort Properties Limited	S141/013	Objective O9: Recreational values	Amend	Amend to refer to "where appropriate".

CentrePort Properties Limited	S141/014	Objective O12: Benefits of regionally significant infrastructure	Amend	Recognise the benefits of other commercial infrastructure and developments in the coastal marine area that are not regionally significant infrastructure or renewable energy generation activities. Amend Objective O12 as follows: The social, economic, cultural and environmental benefits of regionally significant infrastructure, and renewable energy generation activities <u>and new commercial development activities</u> are recognised.
CentrePort Properties Limited	S141/015	Objective O53: Functional need in the coastal marine area	Amend	Use and development in the coastal marine area has a functional need or operational requirement to be located there, <u>unless the use and development is in the Lambton Harbour Area.</u>
CentrePort Properties Limited	S141/016	Objective O54: Use and development in the coastal marine area	Support	Retain in its current form.
CentrePort Properties Limited	S141/017	Objective O56: New development in the coastal marine area	Amend	Retain in its current form.
CentrePort Properties Limited	S141/018	Objective O57: Use and development in Lambton Harbour Area	Support	Retain in its current form.
CentrePort Properties Limited	S141/019	Objective O59: Passage of vessels and aircraft	Support	Retain in its current form.

CentrePort Properties Limited	S141/020	Policy P4: Minimising adverse effects	Amend	Where minimisation of adverse effects is required by policies in the Plan, minimisation means reducing adverse effects of the activity to the greatest extent reasonably practicable and shall <u>may</u> include:...(b) <u>where reasonably practicable</u> , locating the activity away from areas identified in Schedule A (outstanding water bodies), Schedule C (mana whenua), Schedule E (historic heritage), Schedule F (indigenous biodiversity), and... (e) designing the activity so that the scale or footprint of the activity is as small as practicable, <u>where it is reasonably practicable to minimise adverse effects on identified areas</u> .
CentrePort Properties Limited	S141/021	Policy P8: Beneficial activities	Support	Retain in its current form.
CentrePort Properties Limited	S141/022	Policy P12: Benefits of regionally significant infrastructure and renewable electricity generation facilities	Amend	The benefits of regionally significant infrastructure, and renewable energy generation activities, a <u>nd new commercial developments</u> are recognised by having regard to:...
CentrePort Properties Limited	S141/023	Policy P24: Outstanding natural character	Amend	(e) avoiding, <u>remedying or mitigating</u> the adverse effects of activities, including those located outside the area, that individually or cumulatively detract from the natural character values of the outstanding natural character area.
CentrePort Properties Limited	S141/024	Policy P27: High hazard areas	Amend	a) they have a functional ...no practicable alternative to be so located, and the risk to the development and/or residual risk after hazard mitigation measures, assessed using a risk-based approach, is low, and <u>or (b) the use and development is in the Lambton Harbour Area, and...</u>
CentrePort Properties Limited	S141/025	Policy P46: Managing adverse effects on sites with significant historic heritage value	Amend	Amend so that the listed outcomes do not unduly constrain opportunities for otherwise appropriate redevelopment of historic heritage sites.

CentrePort Properties Limited	S141/026	Policy P47: Appropriate demolition	Amend	<u>(b) impracticable to repair-, or (c) derelict and has no on-going functional or economic use in its present state and/or configuration.</u>
CentrePort Properties Limited	S141/027	Policy P132: Functional need and efficient use	Amend	(b) have an operational requirement to locate within the coastal marine area, and no reasonable or practicable alternative to locating in the coastal marine area, <u>or be located in the Lambton Harbour Area</u> , or...
CentrePort Properties Limited	S141/028	Policy P133: Recreational values	Amend	The adverse effects of use and development in the coastal marine area on recreational values shall be managed <u>where practicable</u> by providing for a diverse range of recreational opportunities while avoiding conflicts and safety issues.
CentrePort Properties Limited	S141/029	Policy P134: Public open space values and visual amenity	Amend	Amend Policy P134 to delete the reference to "having particular regard to any relevant provisions contained in any bordering territorial authorities' proposed and/or operative district plan." and seeks the development of appropriate (including site specific) controls or guidelines.
CentrePort Properties Limited	S141/030	Policy P135: Safe passage	Support	Retain in its current form.
CentrePort Properties Limited	S141/031	Policy P136: Hutt Valley aquifer zone in Wellington Harbour (Port Nicholson)	Amend	Retain Policy P136 in its current form. Remove the Lambton Harbour Area (Northern Zone) from the Hutt Valley aquifer zone.
CentrePort Properties Limited	S141/032	Policy P139: Seawalls	Amend	The construction of a new seawall is <u>generally</u> inappropriate except where the seawall is required to protect: (a) existing, or upgrades to, infrastructure, <u>reclaimed land or structures</u> or...

CentrePort Properties Limited	S141/033	Policy P142: Lambton Harbour Area	Amend	Amend policy P142(j) to state: has particular regard to provisions, including design guides, contained in the Wellington City District Plan and any relevant proposed plan changes or variations, including the following matters: amenity values; noise and vibration; views; traffic; wind; lighting and glare; sunlight and shading; height, bulk and form; and urban design, <u>except in the case of use and development in the Lambton Harbour Area (Northern Zone)</u> : Also seeks an appropriate height limit(s,) building envelopes site coverage.
CentrePort Properties Limited	S141/034	Policy P145: Reclamation, drainage and destruction	Amend	(a) the reclamation, drainage or destruction is associated with the development, operation, maintenance and upgrade of regionally significant infrastructure (b) and there are no other locations outside the coastal marine area for the activity associated with the reclamation, drainage or destruction, <u>or(b) the reclamation, drainage or destruction is associated with appropriate use and development in the Lambton Harbour Area (Northern Zone); and...</u>
CentrePort Properties Limited	S141/035	Policy P150: Noise and lighting	Support	Retain in its current form.
CentrePort Properties Limited	S141/037	Rule R146: Geotechnical investigation bores - permitted activity	Amend	The Lambton Harbour Area (Northern Zone) should be removed from the Hutt Valley aquifer zone and/or that the provision be amended.
CentrePort Properties Limited	S141/038	Rule R147: Drilling, construction or alteration of any bore - controlled activity	Amend	Remove the Lambton Harbour Area (Northern Zone) from the Hutt Valley aquifer zone and/or that the provision be amended.

CentrePort Properties Limited	S141/039	Rule R148: Drilling, construction or alteration of any bore - discretionary activity	Amend	Remove the Lambton Harbour Area (Northern Zone) from the Hutt Valley aquifer zone and/or that the provision be amended.
CentrePort Properties Limited	S141/040	5.7.2 Coastal management general conditions	Amend	Remove the Lambton Harbour Area (Northern Zone) from the Hutt Valley aquifer zone and/or that the provision be amended.
CentrePort Properties Limited	S141/041	5.7.2 Coastal management general conditions	Support	Retain provisions for noise in current form.
CentrePort Properties Limited	S141/042	Rule R149: Maintenance or repair of structures - permitted activity	Support	Retain in its current form.
CentrePort Properties Limited	S141/043	Rule R150: Minor additions or alterations to structures - permitted activity	Support	Retain in its current form.
CentrePort Properties Limited	S141/044	Rule R151: Additions or alterations to structures - controlled activity	Amend	Retain in its current form.
CentrePort Properties Limited	S141/045	Rule R152: Removal or demolition of structures or part of a structure - permitted activity	Support	Retain in its current form.

CentrePort Properties Limited	S141/046	Rule R153: Removal or demolition of a structures or part of a structure - restricted discretionary activity	Support	Seeks the following additional matters of discretion [to Rule R153]:Removal or demolition is for the purpose of appropriate development in the Lambton Harbour Area (Northern Zone); and Positive effects on the Lambton Harbour Area.
CentrePort Properties Limited	S141/047	Rule R154: New temporary structures outside sites of significance - permitted activity	Support	Retain Rule R154 in its current form. CentrePort seeks such further, consequential or alternative relief as may be necessary, desirable, or appropriate to give effect to the decision sought.
CentrePort Properties Limited	S141/048	Rule R155: New temporary structures - restricted discretionary activity	Amend	Additional matters of discretion: New temporary structure is for the purpose of appropriate development in the Lambton Harbour Area (Northern Zone); and Positive effects on the Lambton Harbour Area.
CentrePort Properties Limited	S141/049	Rule R161: New structures, additions or alterations to structures outside sites of significance - discretionary activity	Support	Retain in its current form.
CentrePort Properties Limited	S141/050	Rule R163: Replacement of structure or parts of structures - permitted activity	Amend	Amend Rule R164 so that it applies to redevelopment of the wharves in the Lambton Harbour Area (Northern Zone).

CentrePort Properties Limited	S141/051	Rule R164: Replacement of structures - restricted discretionary activity	Amend	Delete the reference in condition (f) to Schedule E2 (wharves and boatsheds).
CentrePort Properties Limited	S141/052	Rule R166: Seawalls outside sites of significance - discretionary activity	Support	Retain in its current form.
CentrePort Properties Limited	S141/053	Rule R168: Alteration of structures identified in Schedule E2 or Schedule E3 - permitted activity	Support	Retain in its current form.
CentrePort Properties Limited	S141/054	Rule R169: Additions or alterations to structures identified in Schedule E1 and or Schedule E2 - restricted discretionary activity	Amend	Additional matters of discretion: Whether or not the additions or alterations are for the purpose of appropriate development in the Lambton Harbour Area (Northern Zone); and Positive effects on the Lambton Harbour Area.
CentrePort Properties Limited	S141/055	Rule R171: Additions or alterations to structures identified in Schedule E1, Schedule E2 or Schedule E3 - discretionary activity	Support	Retain in its current form.
CentrePort Properties Limited	S141/056	Rule R172: Removal, demolition or replacement of a structure or part of a structure identified in Schedule E1, Schedule E2 or Schedule E3 - discretionary activity	Support	Retain in its current form.

CentrePort Properties Limited	S141/057	Rule R173: Additions or alterations to structures inside the Commercial Port Area - permitted activity	Amend	Retain Rule R173 in its current form, or amend to be consistent with Rules 6, 10, and 12 in Section 6.3 of the Operative Regional Coastal Plan.
CentrePort Properties Limited	S141/058	Rule R174: Additions or alterations to structures inside the Commercial Port Area - controlled activity	Amend	Retain Rule R174 in its current form, or amend to be consistent with Rule 13 in Section 6.3 of the Operative Regional Coastal Plan.
CentrePort Properties Limited	S141/059	Rule R183: Renewal of existing resource consents for occupation of space by structures - controlled activity	Support	Retain in its current form.
CentrePort Properties Limited	S141/060	Rule R184: Occupation of space - discretionary activity	Support	Retain in its current form.
CentrePort Properties Limited	S141/061	Rule R186: General surface water and foreshore activities - restricted discretionary	Support	Retain in its current form.
CentrePort Properties Limited	S141/062	Rule R196: Motor vehicles - permitted activity	Support	Retain in its current form.

CentrePort Properties Limited	S141/063	Rule R197: Motor vehicles for certain purposes - permitted activity	Amend	The disturbance of the foreshore or seabed from motor vehicles in the coastal marine area, for the following purposes:(a) surf lifesaving operations... (d) the maintenance, upgrade and operation of regionally significant infrastructure <u>or</u> (e) <u>use and development in the Lambton Harbour Area (Northern Zone)</u> . is a permitted activity, provided the following conditions are met:...
CentrePort Properties Limited	S141/064	Rule R204: Destruction, damage or disturbance outside sites of significance - discretionary activity	Support	Retain in its current form.
CentrePort Properties Limited	S141/065	Rule R214: Reclamation and drainage for regionally significant infrastructure outside of sites of significance - discretionary activity	Support	Reclamation and drainage for regionally significant infrastructure activities <u>and development inside the Lambton Harbour Area (Northern Zone)</u> outside a site or habitat identified...
CentrePort Properties Limited	S141/066	Rule R215: Reclamation and drainage - non-complying activity	Oppose	Delete Rule R215.
CentrePort Properties Limited	S141/067	Rule R216: Destruction - non-complying activity	Oppose	[Delete Rule R216.]
CentrePort Properties Limited	S141/068	Rule R217: Planting - permitted activity	Support	Retain in its current form.
CentrePort Properties Limited	S141/069	Rule R218: Planting - discretionary activity	Support	Retain in its current form.

CentrePort Properties Limited	S141/070	Method M23: Archaeological discovery protocols	Support	Retain Method 23 in its current form.
CentrePort Properties Limited	S141/071	Schedule C: Sites with significant mana whenua values	Amend	Remove Railway Wharf and Waterloo Quay Wharf and the underlying and adjacent coastal marine area from Schedule C (mana whenua), Schedule F4 (coastal sites), Schedule F5 (coastal habitats), and Schedule J (geological), and all associated maps if these are considered to apply to the wharves.
CentrePort Properties Limited	S141/072	Schedule F4: Sites with significant indigenous biodiversity values in the coastal marine area	Amend	Remove Railway Wharf and Waterloo Quay Wharf and the underlying and adjacent coastal marine area from Schedule C (mana whenua), Schedule F4 (coastal sites), Schedule F5 (coastal habitats), and Schedule J (geological), and all associated maps if these are considered to apply to the wharves.
CentrePort Properties Limited	S141/073	Schedule F5: Habitats with significant indigenous biodiversity values in the coastal marine area	Amend	Remove Railway Wharf and Waterloo Quay Wharf and the underlying and adjacent coastal marine area from Schedule C (mana whenua), Schedule F4 (coastal sites), Schedule F5 (coastal habitats), and Schedule J (geological), and all associated maps if these are considered to apply to the wharves.
CentrePort Properties Limited	S141/074	Schedule J: Significant geological features in the coastal marine area	Amend	Remove Railway Wharf and Waterloo Quay Wharf and the underlying and adjacent coastal marine area from Schedule C (mana whenua), Schedule F4 (coastal sites), Schedule F5 (coastal habitats), and Schedule J (geological), and all associated maps if these are considered to apply to the wharves.

CentrePort Properties Limited	S141/075	Schedule E2: Historic heritage wharves and boatsheds	Amend	Remove Railway Wharf and Waterloo Quay Wharf from Schedule E2: Historic heritage (wharves and boatsheds) and all associated maps.
CentrePort Properties Limited	S141/076	Schedule E2: Historic heritage wharves and boatsheds	Amend	If Railway Wharf and Waterloo Quay Wharf are not removed from Schedule E2: then:Amend the 'Significant values" description of Railway Wharf to read: 'Railway Wharf is a structure of some historic significance <u>value</u> , as the second ...' Amend the 'Significant values' description of Waterloo Quay Wharf to read 'Waterloo Quay Wharf is a structure of some antiquity and historic significance <u>heritage value</u> , based mainly on its 19th and 20th century uses.'
CentrePort Properties Limited	S141/077	Map 32: Commercial port, Lambton Harbour Area & noise control lines - Lambton Harbour	Amend	Retain the incorporation of the Waterloo Quay Wharf and the Inter-Island Wharf (also known as the Railway Wharf) in the Lambton Harbour Area (Northern Zone).Add the Commercial Port Area as an overlay on the Waterloo Quay Wharf and the Inter-Island Wharf (also known as the Railway Wharf) and adjoining areas.
CentrePort Properties Limited	S141/079	Rule R149: Maintenance or repair of structures - permitted activity	Amend	Provision for activities in or on an existing structure or use of that structure, similar to that provided under Rules 10 and 25 of the Operative Regional Coastal Plan.
Charles William Barrie	S51/001	2.2 Definitions	Amend	Define "Climate change" as "a change of climate which is attributed directly or indirectly to human activity that alters the composition of the global atmosphere and which is in addition to natural climate variability observed over comparable time periods." (Source: UN Framework Convention on Climate Change 1992).
Charles William Barrie	S51/002	Objective O20: Risk from natural hazards	Amend	Create a separate objective for climate change that states: "The risk, residual risk, and adverse effects of climate change on people, the community, biodiversity, aquatic ecosystem health, mahinga kai and infrastructure are recognised"

Charles William Barrie	S51/003	Policy P29: Climate change	Amend	Amend policy P29 to state: "The potential for climate change to threaten biodiversity, aquatic ecosystem health and mahinga kai or to cause or exacerbate natural hazard events that could adversely affect use and development including but not limited to: (a) coastal erosion and inundation (storm surge), and (b) river and lake flooding and erosion, aggradation, decreased minimum flows and (c) stormwater ponding and impeded drainage, and (d) sea level rise, using the best available guidance for the Wellington Region shall be recognised."
Charlie Matthews	S320/001	5.4.3 Livestock exclusion	Oppose	A case by case scenario be used for different properties farmed under different circumstances and policies.
Charlie Matthews	S320/002	Rule R90: Manufacture and storage of silage and compost - permitted activity	Oppose	[Oppose rule]
Charlie Matthews	S320/003	Rule R120: Minor sand and gravel extraction - permitted activity	Oppose	This should be on a case by case system.
Charlie Matthews	S320/004	Rule R121: Maintenance of drains - permitted activity	Oppose	[Oppose rule]
Charlie Matthews	S320/005	Entire Plan	Not stated	GWRC financial commitment to assist/implement plan
Charlie Matthews	S320/007	Category 2 surface water body	Oppose	Exclude water races and drains from [definition of] Category Two [2 surface water body].

Charlie Matthews	S320/008	Schedule I: Important trout fishery rivers and spawning waters	Oppose	Specify criteria for "important" trout spawning rivers; delete those that don't meet the criteria.
Charlie Matthews	S320/009	Map 22: Trout fishery rivers and trout spawning waters (Schedule I)	Oppose	Specify criteria for "important" trout spawning rivers: delete those that don't meet the criteria.
Charlie Matthews	S320/010	Rule R97: Access to the beds of surface water bodies by livestock - permitted activity	Oppose	Extend the timeframes, e.g. Category 1 surface water bodies by 2020, category 2 surface water bodies by 2025. Exclude sheep from Category 1 surface water bodies. Delete requirement for dairy cow exclusion from hill country rivers >1 metre wide. Specify that stock exclusion from inanga or trout spawning sites is during the spawning season. Allow for stock drinking points. Ensure that alternative stock water supplies are available and rules don't apply until they are.
Charlie Matthews	S320/011	Stock crossing point	Oppose	Amend the definition of "stock crossing" to match hill country practicalities and effects.
Charlie Matthews	S320/012	Natural wetland	Oppose	Amend definition to exclude intermittent and ephemeral water bodies and clarify these do not include hill country seeps or paddocks subject to regular ponding, dominated by cultivated pasture, whether or not associated with sedge, raupo or rush species.
Charlie Matthews	S320/013	Significant natural wetland	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Charlie Matthews	S320/014	Schedule F3: Identified significant natural wetlands	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.

Charlie Matthews	S320/015	Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Oppose	Allow for planting introduced species for bees or ducks
Charlie Matthews	S320/016	Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Charlie Matthews	S320/017	Rule R107: Activities in natural wetlands and significant natural wetlands - discretionary activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Charlie Matthews	S320/018	Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity	Oppose	Allow diversion of water as part of a restoration plan.
Charlie Matthews	S320/019	Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Oppose	Allow use of machines rather than just hand held

Charlie Matthews	S320/020	Rule R83: Discharge of collected animal effluent onto or into land - controlled activity	Oppose	Undertake more rigorous regional cost-benefit analysis of pond storage and sealing requirements. Provide reasonable timeframes and a stepped approach for the installation of storage (eg 3-5 years). Clarify the definition of ponding; and exclude extreme weather events, breakdowns out of manager's control, be consistent with urban conditions. In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary. Extend consent timeframe to 20 years to reflect investment made.
Charlie Matthews	S320/021	Rule R93: All other discharges to land - discretionary activity	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Charlie Matthews	S320/022	Map 27a: Groundwater community drinking water supply protection areas - Wairarapa (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Charlie Matthews	S320/023	Map 27b: Groundwater community drinking water supply protection areas - Hutt Valley (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Charlie Matthews	S320/024	Map 27c: Groundwater community drinking water supply protection areas - Kapiti Coast (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Charlie Matthews	S320/025	Silage	Oppose	Change definition to specify this does not include baleage.

Charlie Matthews	S320/026	Rule R90: Manufacture and storage of silage and compost - permitted activity	Oppose	Delete requirement for impermeable lining; retain condition that there be no discharge to water. Delete requirement for location not allowed within 20m of a surface water body.
Charlie Matthews	S320/027	Rule R94: Cultivation or tilling of land - permitted activity	Oppose	Delete condition requiring a 5m setback.
Charlie Matthews	S320/028	Rule R95: Break-feeding - permitted activity	Oppose	Delete condition requiring a 5m setback.
Charlie Matthews	S320/029	Highly modified river or stream	Oppose	Change definition to include all streams that have been modified by human activity - straightening, deepening, channeling.
Charlie Matthews	S320/030	Rule R121: Maintenance of drains - permitted activity	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Charlie Matthews	S320/031	Rule R122: Removing vegetation - permitted activity	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Charlie Matthews	S320/032	Method M14: Maintenance of drains	Oppose	Fast-forward Method M14 to develop agreed good practice for drain clearing prior to the hearing.
Charlie Matthews	S320/033	Earthworks	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Charlie Matthews	S320/034	Rule R99: Earthworks-permitted activity	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Charlie Matthews	S320/036	Erosion prone land	Oppose	Change definition to increase the slope and exclude stable substrate, e.g. greywacke.

Charlie Matthews	S320/037	Vegetation clearance	Oppose	Change definition to exclude hand clearance, hand or aerial spraying and roller crushing.
Charlie Matthews	S320/038	Rule R100: Vegetation clearance on erosion prone land - permitted activity	Oppose	See submission point on definition of "erosion prone" and "vegetation clearance".
Charlie Matthews	S320/039	Rule R101: Earthworks and vegetation clearance - discretionary activity	Oppose	Change rule to controlled or restricted discretionary with clear conditions.
Charlie Matthews	S320/040	Rule R114: River crossing structures - permitted activity	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Charlie Matthews	S320/041	Rule R115: Culverts - permitted activity	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Charlie Matthews	S320/042	Rule R125: Structures within a site identified in Schedule C (mana whenua) - restricted discretionary activity	Oppose	Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Charlie Matthews	S320/043	Rule R89: Farm refuse dumps - permitted activity	Oppose	Increase size from 50m3 to 100m3. Heavily prune the fourteen other conditions to focus on clear effects.
Charlie Matthews	S320/044	Rule R91: Offal pit - permitted activity	Oppose	Retain condition (a) and condition (h). Heavily prune the seven other conditions to focus on clear effects.

Charlie Matthews	S320/045	Rule R36: Agrichemicals - permitted activity	Oppose	Change condition (g) [spray plan] to more reasonably reflect practicalities and risks. [Regarding condition (e) community drinking water supply protection area] undertake a risk analysis to support condition for a controlled rule rather than discretionary.
Charlie Matthews	S320/046	Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity	Oppose	Amend condition (a) to reflect the practicalities of aerial fertiliser application.
Charlie Matthews	S320/047	Rule R48: Stormwater from an individual property - permitted activity	Oppose	Delete condition (a). Delete condition (e). Retain condition (g).
Charlie Matthews	S320/048	Entire Plan	Not stated	Support Wairarapa Federated Farmers submission [S352].
Charlotte and Toby McDonald	S289/001	Category 2 surface water body	Oppose	Exclude water races and drains from [definition of] Category Two [2 surface water body].
Charlotte and Toby McDonald	S289/002	Schedule I: Important trout fishery rivers and spawning waters	Oppose	Specify criteria for "important" trout spawning rivers; delete those that don't meet the criteria.
Charlotte and Toby McDonald	S289/003	Map 22: Trout fishery rivers and trout spawning waters (Schedule I)	Oppose	Specify criteria for "important" trout spawning rivers: delete those that don't meet the criteria.
Charlotte and Toby McDonald	S289/004	Rule R97: Access to the beds of surface water bodies by livestock - permitted activity	Oppose	Extend the timeframes, e.g. Category 1 surface water bodies by 2020, category 2 surface water bodies by 2025. Exclude sheep from Category 1 surface water bodies. Delete requirement for dairy cow exclusion from hill country rivers >1 metre wide. Specify that stock exclusion from inanga or trout spawning sites is during the spawning season. Allow for stock drinking points. Ensure that alternative stock water supplies are available and rules don't apply until they are.

Charlotte and Toby McDonald	S289/005	Stock crossing point	Oppose	Amend the definition of "stock crossing" to match hill country practicalities and effects.
Charlotte and Toby McDonald	S289/006	Natural wetland	Oppose	Amend definition to exclude intermittent and ephemeral water bodies and clarify these do not include hill country seeps or paddocks subject to regular ponding, dominated by cultivated pasture, whether or not associated with sedge, raupo or rush species.
Charlotte and Toby McDonald	S289/007	Significant natural wetland	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Charlotte and Toby McDonald	S289/008	Schedule F3: Identified significant natural wetlands	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Charlotte and Toby McDonald	S289/009	Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Oppose	Allow for planting introduced species for bees or ducks
Charlotte and Toby McDonald	S289/010	Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Charlotte and Toby McDonald	S289/011	Rule R107: Activities in natural wetlands and significant natural wetlands - discretionary activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.

Charlotte and Toby McDonald	S289/012	Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity	Oppose	Allow diversion of water as part of a restoration plan.
Charlotte and Toby McDonald	S289/013	Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Oppose	Allow use of machines rather than just hand held
Charlotte and Toby McDonald	S289/014	Rule R83: Discharge of collected animal effluent onto or into land - controlled activity	Oppose	Undertake more rigorous regional cost-benefit analysis of pond storage and sealing requirements. Provide reasonable timeframes and a stepped approach for the installation of storage (eg 3-5 years). Clarify the definition of ponding; and exclude extreme weather events, breakdowns out of manager's control, be consistent with urban conditions. In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary. Extend consent timeframe to 20 years to reflect investment made.
Charlotte and Toby McDonald	S289/015	Rule R93: All other discharges to land - discretionary activity	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Charlotte and Toby McDonald	S289/016	Map 27a: Groundwater community drinking water supply protection areas - Wairarapa (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Charlotte and Toby McDonald	S289/017	Map 27b: Groundwater community drinking water supply protection areas - Hutt Valley (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.

Charlotte and Toby McDonald	S289/018	Map 27c: Groundwater community drinking water supply protection areas - Kapiti Coast (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Charlotte and Toby McDonald	S289/019	Silage	Oppose	Change definition to specify this does not include baleage.
Charlotte and Toby McDonald	S289/020	Rule R90: Manufacture and storage of silage and compost - permitted activity	Oppose	Delete requirement for impermeable lining; retain condition that there be no discharge to water. Delete requirement for location not allowed within 20m of a surface water body.
Charlotte and Toby McDonald	S289/021	Rule R94: Cultivation or tilling of land - permitted activity	Oppose	Delete condition requiring a 5m setback.
Charlotte and Toby McDonald	S289/022	Rule R95: Break-feeding - permitted activity	Oppose	Delete condition requiring a 5m setback.
Charlotte and Toby McDonald	S289/023	Highly modified river or stream	Oppose	Change definition to include all streams that have been modified by human activity - straightening, deepening, channeling.
Charlotte and Toby McDonald	S289/024	Rule R121: Maintenance of drains - permitted activity	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Charlotte and Toby McDonald	S289/025	Rule R122: Removing vegetation - permitted activity	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Charlotte and Toby McDonald	S289/026	Method M14: Maintenance of drains	Oppose	Fast-forward Method M14 to develop agreed good practice for drain clearing prior to the hearing.

Charlotte and Toby McDonald	S289/027	Earthworks	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Charlotte and Toby McDonald	S289/028	Rule R99: Earthworks-permitted activity	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Charlotte and Toby McDonald	S289/030	Erosion prone land	Oppose	Change definition to increase the slope and exclude stable substrate, e.g. greywacke.
Charlotte and Toby McDonald	S289/031	Vegetation clearance	Oppose	Change definition to exclude hand clearance, hand or aerial spraying and roller crushing.
Charlotte and Toby McDonald	S289/032	Rule R100: Vegetation clearance on erosion prone land - permitted activity	Oppose	See submission point on definition of "erosion prone" and "vegetation clearance".
Charlotte and Toby McDonald	S289/033	Rule R101: Earthworks and vegetation clearance - discretionary activity	Oppose	Change rule to controlled or restricted discretionary with clear conditions.
Charlotte and Toby McDonald	S289/034	Rule R114: River crossing structures - permitted activity	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Charlotte and Toby McDonald	S289/035	Rule R115: Culverts - permitted activity	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.

Charlotte and Toby McDonald	S289/036	Rule R125: Structures within a site identified in Schedule C (mana whenua) - restricted discretionary activity	Oppose	Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Charlotte and Toby McDonald	S289/037	Rule R89: Farm refuse dumps - permitted activity	Oppose	Increase size from 50m ³ to 100m ³ . Heavily prune the fourteen other conditions to focus on clear effects.
Charlotte and Toby McDonald	S289/038	Rule R91: Offal pit - permitted activity	Oppose	Retain condition (a) and condition (h). Heavily prune the seven other conditions to focus on clear effects.
Charlotte and Toby McDonald	S289/039	Rule R36: Agrichemicals - permitted activity	Oppose	Change condition (g) [spray plan] to more reasonably reflect practicalities and risks. [Regarding condition (e) community drinking water supply protection area] undertake a risk analysis to support condition for a controlled rule rather than discretionary.
Charlotte and Toby McDonald	S289/040	Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity	Oppose	Amend condition (a) to reflect the practicalities of aerial fertiliser application.
Charlotte and Toby McDonald	S289/041	Rule R48: Stormwater from an individual property - permitted activity	Oppose	Delete condition (a). Delete condition (e). Retain condition (g).
Charlotte and Toby McDonald	S289/042	Entire Plan	Not stated	Support Wairarapa Federated Farmers submission [S352].
Chorus New Zealand Limited	S144/001	Earthworks	Support	Retain this definition in its current form.
Chorus New Zealand Limited	S144/002	Functional need	Amend	Amend the definition to provide greater clarity around what the word 'dependent' entails.

Chorus New Zealand Limited	S144/003	Operational requirement	Amend	Amend the definition to provide greater clarity around what 'needs to be carried out' entails.
Chorus New Zealand Limited	S144/004	Regionally significant infrastructure	Amend	Amend bullet point two and three of the definition as follows: <ul style="list-style-type: none"> • strategic telecommunication facilities, as defined in section 5 of the Telecommunications Act 2001 • strategic radiocommunications as defined in section 2(1) of the Radio Communications Act 1989.
Chorus New Zealand Limited	S144/005	Objective O12: Benefits of regionally significant infrastructure	Oppose in part	Amend Objective O12 as follows: Objective O12(Coastal) The social, economic, cultural, and environmental <u>and health and safety</u> benefits of regionally significant infrastructure and renewable electricity generation activities. <u>Objective O12A</u> <u>Recognise that some regionally significant infrastructure has a functional need and/or operational requirement to be located and/or operated in a particular environment.</u>

Chorus New Zealand Limited	S144/006	Objective O13: Protecting regionally significant infrastructure	Support in part	Amend Objective O13 as follows: The <u>existing</u> use and ongoing operation of regionally significant infrastructure and renewable energy generation activities in the coastal marine area are protected from new incompatible use and development occurring under, over, or adjacent to the infrastructure or activity.
Chorus New Zealand Limited	S144/007	Objective O21:High hazard areas	Oppose	Amend Objective O21 as follows: Inappropriate use and development in high hazard areas is avoided, <u>other than (a) where it has a functional need and/or operational requirement to be located there, and/or (b) where it is necessary to enable the efficient operation of regionally significant infrastructure.</u>
Chorus New Zealand Limited	S144/008	Policy P4: Minimising adverse effects	Oppose in part	Amend Policy P4 as follows: Where minimisation of adverse effects is required by policies in the Plan minimisation means reducing adverse effects of the activity to the smallest amount practicable <u>having regard to</u> <u>the nature and objectives of the activity</u> and shall include:...."
Chorus New Zealand Limited	S144/009	Policy P7: Uses of land and water	Amend	Amend Policy P7 as follows: The cultural, social and economic benefits of using land and water for: <u>(l) Regionally Significant Infrastructure</u>

Chorus New Zealand Limited	S144/010	Policy P9: Public access to and along the coastal marine area and the beds of lakes and rivers	Amend	Amend Policy P9 as Follows: Reduction in the extent or quality of public access to and along the coastal marine area and the beds of lakes and rivers shall be avoided except where it is necessary to: <u>(d) protect Regionally Significant Infrastructure</u>
Chorus New Zealand Limited	S144/011	Policy P12: Benefits of regionally significant infrastructure and renewable electricity generation facilities	Amend	Amend Policy P12 as follows: (e) <u>the functional need for and the operational requirements associated with developing, operating, maintaining and upgrading regionally significant infrastructure and renewable energy generation activities, including where those activities are proposed within areas of outstanding natural character and landscapes, high hazards, sites of significant value, ecosystems and habitats with significant indigenous biodiversity value, natural features, sites significant historic heritage value, and sites with significant Mana Whenua</u>
Chorus New Zealand Limited	S144/012	Policy P13: Existing regionally significant infrastructure and renewable electricity generation facilities	Amend	Amend Policy P13 as follows: The use, operation, maintenance, and upgrade, <u>and removal</u> of existing regionally significant infrastructure and renewable energy generation activities are beneficial and generally appropriate.

Chorus New Zealand Limited	S144/013	Policy P14: Incompatible activities adjacent to regionally significant infrastructure and renewable electricity generation activities	Amend	<p>Amend Policy P14 as follows:</p> <p>Regionally significant infrastructure and renewable energy generation activities shall be protected from new incompatible use and development occurring under, over or adjacent to it, by locating and designing any new use and development to avoid, remedy or mitigate any <u>adverse effects</u>, <u>including any</u> reverse sensitivity effects.</p>
Chorus New Zealand Limited	S144/014	Policy P24: Outstanding natural character	Amend	<p>Amend Policy P24 as follows:</p> <p>Areas of outstanding natural character in the coastal marine area will be preserved by:</p> <p>(a) avoiding <u>avoid, remedy or mitigate</u> adverse effects of activities on natural character in areas of the coastal marine area with outstanding natural character, and</p> <p>(b) ...</p> <p>(e) avoiding <u>avoid, remedy or mitigate</u> the adverse effects of activities, including those located outside the area, that individually or cumulatively detract from the natural character values of the outstanding natural character area.</p>

Chorus New Zealand Limited	S144/015	Policy P25: Natural character	Amend	Amend Policy P25 as follows: Use and development shall avoid, <u>remedy or mitigate</u> significant adverse effects ...
Chorus New Zealand Limited	S144/016	Policy P28: Hazard mitigation measures	Amend	Amend Policy P28 as follows: Hard engineering mitigation and protection methods shall be avoided except <u>only be implemented</u> where it is necessary ...
Chorus New Zealand Limited	S144/017	Policy P39: Adverse effects on outstanding water bodies	Amend	Amend Policy P39 as follows: The adverse effects of use and development on outstanding water bodies and their significant values identified in Schedule A (outstanding water bodies) shall be avoided, <u>remedied or mitigated</u> .
Chorus New Zealand Limited	S144/018	Policy P49: Use and development adjacent to outstanding natural features and landscapes and special amenity landscapes	Amend	Amend Policy P49 as follows: Use and development in the coastal marine area on sites adjacent to an outstanding natural feature or landscape or special amenity landscape identified in a district plan shall be managed by <u>seeking to</u> : (a) protecting visual and biophysical linkages between the site and the outstanding natural feature or landscape, and (b) avoiding adverse cumulative effects <u>from inappropriate use and development</u> on the values of an outstanding natural feature or landscape.

Chorus New Zealand Limited	S144/019	Policy P132: Functional need and efficient use	Amend	Amend Policy 132 as follows: Use and development in the coastal marine area shall... <u>(h) recognise the location, operation and function of existing regionally significant infrastructure.</u>
Chorus New Zealand Limited	S144/021	Rule R12: Emergency power generators - permitted activity	Amend	Amend Rule R12 as follows: The discharge of contaminants into air(c) the electricity connection is not available is a permitted activity; <u>or</u> <u>(d) load shedding/peak load generation is required.</u>
Chorus New Zealand Limited	S144/022	Rule R54: Site investigation - permitted activity	Amend	Consideration should be given to the introduction of an accidental discovery protocol for contamination as management tool. Amend R54 as follows: The use of land ... provided the following conditions are met: ...(b) <u>if more than 25m³ per 500m² of soil is disturbed</u> , the assessment is reported in accordance with the Contaminated Land Management Guidelines No. 1: Reporting on Contaminated Land (2011), and... <u>Note, regionally significant infrastructure providers are specifically excluded from requiring to comply with Rule R54, provided the exclusion parameters listed under Rule R55 (and any subsequent provisions) are met.</u>

Chorus New Zealand Limited	S144/023	Rule R55: Discharges from contaminated land - permitted activity	Amend	<p>Amend Rule R55 as follows: <u>The use of trenchless methods to install infrastructure is a permitted activity and does not need to comply with provisions (a) and (b) but subject to manage discharges to the environment from trenches acting as migration pathways for contaminants. Note that if the provisions in Rule R55B are complied, compliance with Rule R55 is not necessary.</u></p> <p>Add new rule R55B [see submission for suggested wording]</p>
Chorus New Zealand Limited	S144/024	Rule R69: Minor contaminants - permitted activity	Amend	<p>Amend Rule R69 as follows:</p> <p>The discharge of contaminants onto or into land ...</p> <p><u>The use of trenchless methods to install infrastructure is a permitted activity and does not need to comply with provisions (a) and (b) but subject to manage discharges to the environment from trenches acting as migration pathways for contaminants. Note that if the provisions in Rule R69B are complied, compliance with Rule R69 is not necessary.</u></p> <p>Add Rule R69B [See submission for suggested wording]</p>
Chorus New Zealand Limited	S144/025	Rule R99: Earthworks-permitted activity	Support	Retain Rule 99 in its current form
Chorus New Zealand Limited	S144/026	Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Amend	<p>Amend Rule R112 as follows:</p> <p>The maintenance, repair, replacement, upgrade or use of a structure or a part of a structure (excluding the Barrage Gates <u>and Telecommunications Lines</u>) that is fixed in, on, under, or over the bed of a river or lake, including any associated:</p> <p><u>Note, while Telecommunication Lines are expressly excluded from the provisions of Rule R112, their maintenance, repair, replacement, upgrade or use are subject to compliance with the general conditions in section 5.5.4.</u></p>

Chorus New Zealand Limited	S144/027	Rule R117: New structures - permitted activity	Amend	Retain Rule R117 in its current form.
Chorus New Zealand Limited	S144/028	5.7.2 Coastal management general conditions	Amend	Amend Coastal Management General Condition 5.7.2 (c) as follows: (c) there is no disturbance of the foreshore or seabed to a depth greater than 0.5m <u>2.0m</u> below the seabed or foreshore within the Hutt Valley Aquifer Zone shown on Map 30, and ...
Chorus New Zealand Limited	S144/029	Rule R150: Minor additions or alterations to structures - permitted activity	Amend	Amend Rule R150 to clearly define thresholds for minor additions or alterations to structures.
Chorus New Zealand Limited	S144/030	Rule R161: New structures, additions or alterations to structures outside sites of significance - discretionary activity	Amend	Amend Rule R161 to clearly define thresholds for minor additions or alterations to structures.
Chorus New Zealand Limited	S144/031	Rule R162: New structures, additions or alterations to structures inside sites of significance - non-complying activity	Amend	Amend Rule R162 as follows: A new structure, addition or alteration to a structure and the associated use of the structure ...
Chris Eastwood	S235/001	Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity	Oppose	Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach.
Chris Engel	S170/001	Category A groundwater	Amend	Amend [definition of directly connected]: <u>Ground water in the bore is at the same level as the water in the river and moves up and down with the level of the river.</u>

Chris Engel	S170/002	Regionally significant infrastructure	Amend	Add after treatment plants: water race networks and facilities for the irrigation of pasture and crops.
Chris Engel	S170/003	Unused water	Support	Retain.
Chris Engel	S170/004	Objective O8: Allocation regime	Amend	Amend Objective O8: "the social, <u>agricultural, industrial</u> , cultural and environmental benefits of taking and using water for current uses and also for future needs are recognised and provided for within the Plan's allocation framework"
Chris Engel	S170/005	Objective O25: Aquatic ecosystem health and mahinga kai	Amend	Remove [Objective 25(c)] Amend Table 3.6 to state the numerical amount: "nitrate in groundwater should not exceed human drinking water standards, i.e. 11.3".
Chris Engel	S170/006	Objective O52: Efficient allocation	Amend	Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised the amount is increased through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u>
Chris Engel	S170/007	Policy P7: Uses of land and water	Amend	Add "diffuse contaminants" to (b). Retain (h).
Chris Engel	S170/008	Policy P11: In-stream water storage	Support	Retain.
Chris Engel	S170/009	Schedule P: Classifying and managing groundwater and surface water connectivity	Amend	[Amend Policy P107]: "(a) the groundwater connectivity described in Schedule P needs verifying and GW have a significant part to play in establishing the evidence"Insert (d) when Schedule P changes; "-ve effect on consent holders - 10 year lead in time to reflect cost, +ve effect - the water availability should be released immediately."
Chris Engel	S170/010	Policy P107: The framework for taking and using water	Amend	[Amend]: "(a) the groundwater connectivity described in Schedule P needs verifying and GW have a significant part to play in establishing the evidence" Insert (d) when Schedule P changes; "-ve effect on consent holders - 10 year lead in time to reflect cost, +ve effect - the water availability should be released immediately."

Chris Engel	S170/011	Policy P109: Lapse dates affecting water takes	Support	Support Policy P109.
Chris Engel	S170/012	Policy P111: Water takes at minimum flows and water levels	Amend	<u>Category A groundwater which shall be required to reduce take by 50% of the amount consented above minimum flows following a period of 10 days of continuous river levels at minimum flow.</u>
Chris Engel	S170/013	Rule R135: General rule for taking, use, damming and diverting water - discretionary activity	Amend	Make Rule R135 restricted discretionary.
Chris Engel	S170/014	Policy P115: Authorising takes below minimum flows and lake levels	Amend	Amend Policy P115 (d) category A groundwater which shall be required to reduce take by 50% of the amount consented above minimum flows <u>following a period of 10 days of continuous river levels at minimum flow.</u> Delete (c)(i)
Chris Engel	S170/015	Policy P116: Reallocating water	Support	Retain.
Chris Engel	S170/016	Policy P117: Supplementary allocation amounts at flows above the median flow	Support	Retain.
Chris Engel	S170/017	Policy P118: Reasonable and efficient use	Amend	Amend Policy P118 to read "while existing users replacing existing resource consents have a period of four years from the date of the plan being made operative <u>renewal of consent to meet the criteria.</u>
Chris Engel	S170/018	Policy P119: Unused water	Support	Retain.
Chris Engel	S170/019	Policy P120: Taking water for storage	Support	Retain.

Chris Engel	S170/020	Policy P128: Transfer of resource consents	Support	Retain.
Chris Engel	S170/021	Rule R137: Farm dairy washdown and milk-cooling water - permitted activity	Amend	Amend Rule R137 clause (b) by deleting words after "property...".
Chris Engel	S170/022	Rule R143: Temporary water permit transfers - controlled activity	Amend	Amend Rule R143 to be a permitted activity and not a controlled activity.
Chris Engel	S170/023	Rule R144: Transferring water permits - restricted discretionary activity	Support	Retain.
Chris Engel	S170/024	Method M13: Wairarapa water races	Amend	Insert after cultural values " <u>and economic values</u> of the Wairarapa water races..."
Chris Engel	S170/025	Method M18: Water use groups	Support	Retain.
Chris Engel	S170/026	Methods 19: Water management	Amend	Amend Method 19 (d) <u>quantify costs and benefits of water races and explore alternatives.</u>
Chris Engel	S170/027	Method M28: Development of good management practice guidelines.	Support	Retain.
Chris Engel	S170/028	Policy R.P3: Cumulative effects on river reaches of allocating water	Support	Insert after adverse effects: <u>that are measured</u> on aquatic...

Chris Engel	S170/029	7 Ruamahanga Whaitua	Oppose	Do not include Figures 7.3-7.8 in the plan until categories have been verified. Change the allocation amounts in Tables 7.3-7.5 to what is currently allocated or more if spare water has been identified.
Chris Engel	S170/030	Schedule P: Classifying and managing groundwater and surface water connectivity	Oppose	Needs empirical calibration by GW.
Chris Engel	S170/031	Schedule Q: Reasonable and efficient use criteria	Oppose	Remove sentence "the model must reliably predict annual irrigation volume within an accuracy of 15%"Add after field validated model: <u>for Wairarapa conditions</u> In (a) add after 80%: <u>where practicable</u>
Chris Engel	S170/032	Schedule R: Guideline for stepdown allocations	Amend	Add after health needs of people: <u>stock drinking water and rootstock protection</u> . [Acknowledge Table R1 is interim; consult with water users on further changes]
Chris Engel	S170/033	Category A groundwater	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Chris Engel	S170/034	Category 2 surface water body	Oppose	Exclude water races and drains from [definition of] Category Two [2 surface water body].
Chris Engel	S170/035	Schedule I: Important trout fishery rivers and spawning waters	Oppose	Specify criteria for "important" trout spawning rivers; delete those that don't meet the criteria.
Chris Engel	S170/036	Map 22: Trout fishery rivers and trout spawning waters (Schedule I)	Oppose	Specify criteria for "important" trout spawning rivers: delete those that don't meet the criteria.

Chris Engel	S170/037	Rule R97: Access to the beds of surface water bodies by livestock - permitted activity	Oppose	Extend the timeframes, e.g. Category 1 surface water bodies by 2020, category 2 surface water bodies by 2025. Exclude sheep from Category 1 surface water bodies. Delete requirement for dairy cow exclusion from hill country rivers >1 metre wide. Specify that stock exclusion from inanga or trout spawning sites is during the spawning season. Allow for stock drinking points. Ensure that alternative stock water supplies are available and rules don't apply until they are.
Chris Engel	S170/038	Stock crossing point	Oppose	Amend the definition of "stock crossing" to match hill country practicalities and effects.
Chris Engel	S170/039	Natural wetland	Oppose	Amend definition to exclude intermittent and ephemeral water bodies and clarify these do not include hill country seeps or paddocks subject to regular ponding, dominated by cultivated pasture, whether or not associated with sedge, raupo or rush species.
Chris Engel	S170/040	Significant natural wetland	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Chris Engel	S170/041	Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Oppose	Allow for planting introduced species for bees or ducks
Chris Engel	S170/042	Schedule F3: Identified significant natural wetlands	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Chris Engel	S170/043	Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.

Chris Engel	S170/044	Rule R107: Activities in natural wetlands and significant natural wetlands - discretionary activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Chris Engel	S170/045	Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity	Oppose	Allow diversion of water as part of a restoration plan.
Chris Engel	S170/046	Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Oppose	Allow use of machines rather than just hand held
Chris Engel	S170/047	Rule R83: Discharge of collected animal effluent onto or into land - controlled activity	Oppose	Undertake more rigorous regional cost-benefit analysis of pond storage and sealing requirements. Provide reasonable timeframes and a stepped approach for the installation of storage (eg 3-5 years). Clarify the definition of ponding; and exclude extreme weather events, breakdowns out of manager's control, be consistent with urban conditions. In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary. Extend consent timeframe to 20 years to reflect investment made.
Chris Engel	S170/048	Rule R93: All other discharges to land - discretionary activity	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Chris Engel	S170/049	Map 27a: Groundwater community drinking water supply protection areas - Wairarapa (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.

Chris Engel	S170/050	Map 27b: Groundwater community drinking water supply protection areas - Hutt Valley (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Chris Engel	S170/051	Map 27c: Groundwater community drinking water supply protection areas - Kapiti Coast (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Chris Engel	S170/052	Silage	Oppose	Change definition to specify this does not include baleage.
Chris Engel	S170/053	Rule R90: Manufacture and storage of silage and compost - permitted activity	Oppose	Delete requirement for impermeable lining; retain condition that there be no discharge to water. Delete requirement for location not allowed within 20m of a surface water body.
Chris Engel	S170/054	Rule R94: Cultivation or tilling of land - permitted activity	Oppose	Delete condition requiring a 5m setback.
Chris Engel	S170/055	Rule R95: Break-feeding - permitted activity	Oppose	Delete condition requiring a 5m setback.
Chris Engel	S170/056	Highly modified river or stream	Oppose	Change definition to include all streams that have been modified by human activity - straightening, deepening, channeling.
Chris Engel	S170/057	Rule R121: Maintenance of drains - permitted activity	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.

Chris Engel	S170/058	Rule R122: Removing vegetation - permitted activity	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Chris Engel	S170/059	Method M14: Maintenance of drains	Oppose	Fast-forward Method M14 to develop agreed good practice for drain clearing prior to the hearing.
Chris Engel	S170/060	Earthworks	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Chris Engel	S170/061	Rule R99: Earthworks-permitted activity	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Chris Engel	S170/063	Erosion prone land	Oppose	Change definition to increase the slope and exclude stable substrate, e.g. greywacke.
Chris Engel	S170/064	Vegetation clearance	Oppose	Change definition to exclude hand clearance, hand or aerial spraying and roller crushing.
Chris Engel	S170/065	Rule R100: Vegetation clearance on erosion prone land - permitted activity	Oppose	See submission point on definition of "erosion prone" and "vegetation clearance".
Chris Engel	S170/066	Rule R101: Earthworks and vegetation clearance - discretionary activity	Oppose	Change rule to controlled or restricted discretionary with clear conditions.
Chris Engel	S170/067	Rule R114: River crossing structures - permitted activity	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.

Chris Engel	S170/068	Rule R115: Culverts - permitted activity	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Chris Engel	S170/069	Rule R125: Structures within a site identified in Schedule C (mana whenua) - restricted discretionary activity	Oppose	Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Chris Engel	S170/070	Rule R89: Farm refuse dumps - permitted activity	Oppose	Increase size from 50m ³ to 100m ³ . Heavily prune the fourteen other conditions to focus on clear effects.
Chris Engel	S170/071	Rule R91: Offal pit - permitted activity	Oppose	Retain condition (a) and condition (h). Heavily prune the seven other conditions to focus on clear effects.
Chris Engel	S170/072	Rule R36: Agrichemicals - permitted activity	Oppose	Change condition (g) [spray plan] to more reasonably reflect practicalities and risks. [Regarding condition (e) community drinking water supply protection area] undertake a risk analysis to support condition for a controlled rule rather than discretionary.
Chris Engel	S170/073	Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity	Oppose	Amend condition (a) to reflect the practicalities of aerial fertiliser application.
Chris Engel	S170/074	Rule R48: Stormwater from an individual property - permitted activity	Oppose	Delete condition (a). Delete condition (e). Retain condition (g).
Chris Engel	S170/075	Entire Plan	Not stated	Support Wairarapa Federated Farmers submission [S352].

Chris Engel	S170/076	Policy P6: Synchronised expiry and review dates	Support in part	Retain and add (c) "consents will run for a period of 25 years"
Chris Engel	S170/077	5.6.3 Transferring water permits	Amend	[Make transferring water a permitted activity]
Chris Engel	S170/078	Category B groundwater (not directly connected)	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Chris Engel	S170/079	Category B groundwater (directly connected)	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Chris Engel	S170/080	Category C groundwater	Amend	<u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u>
Chris Van Niekerk	S191/001	Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity	Oppose	Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach.
Chris and Steven Price	S339/001	Category 2 surface water body	Oppose	Exclude water races and drains from [definition of] Category Two [2 surface water body].
Chris and Steven Price	S339/002	Schedule I: Important trout fishery rivers and spawning waters	Oppose	Specify criteria for "important" trout spawning rivers; delete those that don't meet the criteria.
Chris and Steven Price	S339/003	Map 22: Trout fishery rivers and trout spawning waters (Schedule I)	Oppose	Specify criteria for "important" trout spawning rivers: delete those that don't meet the criteria.

Chris and Steven Price	S339/004	Rule R97: Access to the beds of surface water bodies by livestock - permitted activity	Oppose	Extend the timeframes, e.g. Category 1 surface water bodies by 2020, category 2 surface water bodies by 2025. Exclude sheep from Category 1 surface water bodies. Delete requirement for dairy cow exclusion from hill country rivers >1 metre wide. Specify that stock exclusion from inanga or trout spawning sites is during the spawning season. Allow for stock drinking points. Ensure that alternative stock water supplies are available and rules don't apply until they are.
Chris and Steven Price	S339/005	Stock crossing point	Oppose	Amend the definition of "stock crossing" to match hill country practicalities and effects.
Chris and Steven Price	S339/006	Natural wetland	Oppose	Amend definition to exclude intermittent and ephemeral water bodies and clarify these do not include hill country seeps or paddocks subject to regular ponding, dominated by cultivated pasture, whether or not associated with sedge, raupo or rush species.
Chris and Steven Price	S339/007	Significant natural wetland	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Chris and Steven Price	S339/008	Schedule F3: Identified significant natural wetlands	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Chris and Steven Price	S339/009	Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Oppose	Allow for planting introduced species for bees or ducks
Chris and Steven Price	S339/010	Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.

Chris and Steven Price	S339/011	Rule R107: Activities in natural wetlands and significant natural wetlands - discretionary activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Chris and Steven Price	S339/012	Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity	Oppose	Allow diversion of water as part of a restoration plan.
Chris and Steven Price	S339/013	Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Oppose	Allow use of machines rather than just hand held
Chris and Steven Price	S339/014	Rule R83: Discharge of collected animal effluent onto or into land - controlled activity	Oppose	Undertake more rigorous regional cost-benefit analysis of pond storage and sealing requirements. Provide reasonable timeframes and a stepped approach for the installation of storage (eg 3-5 years). Clarify the definition of ponding; and exclude extreme weather events, breakdowns out of manager's control, be consistent with urban conditions. In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary. Extend consent timeframe to 20 years to reflect investment made.
Chris and Steven Price	S339/015	Rule R93: All other discharges to land - discretionary activity	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Chris and Steven Price	S339/016	Map 27a: Groundwater community drinking water supply protection areas - Wairarapa (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.

Chris and Steven Price	S339/017	Map 27b: Groundwater community drinking water supply protection areas - Hutt Valley (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Chris and Steven Price	S339/018	Map 27c: Groundwater community drinking water supply protection areas - Kapiti Coast (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Chris and Steven Price	S339/019	Silage	Oppose	Change definition to specify this does not include baleage.
Chris and Steven Price	S339/020	Rule R90: Manufacture and storage of silage and compost - permitted activity	Oppose	Delete requirement for impermeable lining; retain condition that there be no discharge to water. Delete requirement for location not allowed within 20m of a surface water body.
Chris and Steven Price	S339/021	Rule R94: Cultivation or tilling of land - permitted activity	Oppose	Delete condition requiring a 5m setback.
Chris and Steven Price	S339/022	Rule R95: Break-feeding - permitted activity	Oppose	Delete condition requiring a 5m setback.
Chris and Steven Price	S339/023	Highly modified river or stream	Oppose	Change definition to include all streams that have been modified by human activity - straightening, deepening, channeling.
Chris and Steven Price	S339/024	Rule R121: Maintenance of drains - permitted activity	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.

Chris and Steven Price	S339/025	Rule R122: Removing vegetation - permitted activity	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Chris and Steven Price	S339/026	Method M14: Maintenance of drains	Oppose	Fast-forward Method M14 to develop agreed good practice for drain clearing prior to the hearing.
Chris and Steven Price	S339/027	Earthworks	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Chris and Steven Price	S339/028	Rule R99: Earthworks-permitted activity	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Chris and Steven Price	S339/030	Erosion prone land	Oppose	Change definition to increase the slope and exclude stable substrate, e.g. greywacke.
Chris and Steven Price	S339/031	Vegetation clearance	Oppose	Change definition to exclude hand clearance, hand or aerial spraying and roller crushing.
Chris and Steven Price	S339/032	Rule R100: Vegetation clearance on erosion prone land - permitted activity	Oppose	See submission point [S339/030 and 031] on definition of "erosion prone" and "vegetation clearance".
Chris and Steven Price	S339/033	Rule R101: Earthworks and vegetation clearance - discretionary activity	Oppose	Change rule to controlled or restricted discretionary with clear conditions.
Chris and Steven Price	S339/034	Rule R114: River crossing structures - permitted activity	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.

Chris and Steven Price	S339/035	Rule R115: Culverts - permitted activity	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Chris and Steven Price	S339/036	Rule R125: Structures within a site identified in Schedule C (mana whenua) - restricted discretionary activity	Oppose	Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Chris and Steven Price	S339/037	Rule R89: Farm refuse dumps - permitted activity	Oppose	Increase size from 50m ³ to 100m ³ . Heavily prune the fourteen other conditions to focus on clear effects.
Chris and Steven Price	S339/038	Rule R91: Offal pit - permitted activity	Oppose	Retain condition (a) and condition (h). Heavily prune the seven other conditions to focus on clear effects.
Chris and Steven Price	S339/039	Rule R36: Agrichemicals - permitted activity	Oppose	Change condition (g) [spray plan] to more reasonably reflect practicalities and risks. [Regarding condition (e) community drinking water supply protection area] undertake a risk analysis to support condition for a controlled rule rather than discretionary.
Chris and Steven Price	S339/040	Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity	Oppose	Amend condition (a) to reflect the practicalities of aerial fertiliser application.
Chris and Steven Price	S339/041	Rule R48: Stormwater from an individual property - permitted activity	Oppose	Delete condition (a). Delete condition (e). Retain condition (g).
Chris and Steven Price	S339/042	Entire Plan	Not stated	Support Wairarapa Federated Farmers submission [S352]

Chris and Steven Price	S339/043	Rule R36: Agrichemicals - permitted activity	Oppose	Delete condition R36(e)
Christine J A Burt	S2/001	Objective O23: Maintain or improve water quality	Not stated	Amend PNRP to lower the acceptable levels of pollutants in water and to identify where, how, why pollutants levels are high and solutions to these problems.
Christine Ann Edwards	S53/001	Entire Plan	Oppose	Revise all provisions of the PNRP in order to appropriately address and enable coastal and river/stream hazard mitigation measures, particularly in relation to areas of significant existing development.
Christine Ann Edwards	S53/002	3.4 Natural character, form and function	Amend	Revise all provisions of the PNRP to particularly enable coastal hazard mitigation activities (including protection) in areas of significant existing development.
Christine Ann Edwards	S53/003	3.4 Natural character, form and function	Amend	Include objectives that recognise the importance and benefits of coastal hazard mitigation activities (including protection), especially in areas of significant existing development.
Christine Ann Edwards	S53/004	4.4 Natural form and function	Amend	Include policies that recognise the importance and benefits of coastal hazard mitigation activities (including protection), especially in areas of significant existing development.
Christine Ann Edwards	S53/005	3.4 Natural character, form and function	Amend	Include objectives that, if a resource consent is required for hazard mitigation activities, support that consent being obtained, and remove provisions that would hinder consent being obtained.
Christine Ann Edwards	S53/006	4.4 Natural form and function	Amend	Include policies that, if a resource consent is required for hazard mitigation activities, support that consent being obtained, and remove provisions that would hinder consent being obtained.
Christine Ann Edwards	S53/007	5.7.6 Seawalls	Amend	Provide for appropriate coastal hazard mitigation activities (including protection) as permitted or controlled activities.
Christine Ann Edwards	S53/008	5.7.6 Seawalls	Amend	Provide for coastal hazard mitigation activities (including protection) to be no greater than discretionary activities and ensure that no coastal hazard mitigation activity is non-complying or prohibited.

Christine Ann Edwards	S53/009	3.4 Natural character, form and function	Amend	Revise the PNRP to clarify that, in contrast to risk management, hazard identification/risk assessment is an objective process and that any scientific or expert reports are to be scientific and objective (not policy-based or precautionary) and report not only likely estimates but also their uncertainties, to enable submitters to participate in an informed way and to enable decision-makers to make informed decisions.
Christine Ann Edwards	S53/010	Entire Plan	Amend	Ensure that the provisions of the PNRP comply with the RMA 1991, NZCPS and RPS.
Christine Ann Edwards	S53/011	3.4 Natural character, form and function	Amend	Undertake appropriate s32 evaluations and prepare revised s32 reports including in relation to the implications of the PNRP for coastal hazard mitigation (including protection) activities. Have regard to those revised reports.
Christine Ann Edwards	S53/012	Entire Plan	Amend	The decisions sought in the submission of Coastal Ratepayers United Inc. [S93] are supported and adopted in addition to, and as they may overlap with, this submission.
Christine Marjorie Stanley	S87/001	Entire Plan	Not stated	[Not stated; concerned with difficulty getting access to online GW maps in rural areas with poor internet access]
Christine Marjorie Stanley	S87/002	Objective O23: Maintain or improve water quality	Amend	[Not stated; concerned that objective is too subjective]
Christine Marjorie Stanley	S87/003	Policy P23: Restoring Te Awarua-o-Porirua Harbour, Wellington Harbour (Port Nicholson), and Lake Wairarapa	Amend	[Clarify what 'restored' means]
Christine Marjorie Stanley	S87/004	Objective O10: Public access	Amend	Recreation and public access should only be maintained where the effects of such use are well regulated within the local bylaws.
Christine Marjorie Stanley	S87/005	Policy P54: Open fires	Amend	[Not stated; concerned about decrease in air quality over Pauatahanui Inlet]
Christine Marjorie Stanley	S87/006	Method M16: Contaminated land	Amend	[Make clear to landowners what 'contaminated' means]

Christine Marjorie Stanley	S87/007	Rule R36: Agrichemicals - permitted activity	Amend	Amend R36 so that it can address small non-domestic lots.
Christine Marjorie Stanley	S87/008	Policy P111: Water takes at minimum flows and water levels	Amend	[Take into account reduced amount of water flowing into Pauatahanui inlet and affecting the flushing ability of the inlet when setting water take limits]
Christine Marjorie Stanley	S87/009	Rule R97: Access to the beds of surface water bodies by livestock - permitted activity	Amend	Ensure the whitua committee recognise that intensive stock management does not negatively impact on Pauatahanui Inlet.
Christopher Butler	S96/001	Entire Plan	Oppose	Revise all provisions of the PNRP in order to appropriately address and enable coastal and river/stream hazard mitigation measures, particularly in relation to areas of significant existing development.
Christopher Butler	S96/002	3.4 Natural character, form and function	Amend	Revise the PNRP in order to appropriately address and enable coastal and river/stream hazard mitigation measures, especially for areas of significant existing development.
Christopher Butler	S96/003	3.4 Natural character, form and function	Amend	Include objectives that recognise the importance and benefits of coastal hazard mitigation activities (including protection), especially in areas of significant existing development, and support the right of communities to integrate effectively with their environment.
Christopher Butler	S96/004	4.4 Natural form and function	Amend	Include policies that recognise the importance and benefits of coastal hazard mitigation activities (including protection), especially in areas of significant existing development, and support the right of communities to integrate effectively with their environment.
Christopher Butler	S96/005	3.4 Natural character, form and function	Amend	Include objectives that, if a resource consent is required for hazard mitigation activities, support that consent being obtained, and remove provisions that would hinder consent being obtained.

Christopher Butler	S96/006	4.4 Natural form and function	Amend	Include policies that, if a resource consent is required for hazard mitigation activities, support that consent being obtained, and remove provisions that would hinder consent being obtained.
Christopher Butler	S96/007	5.7.6 Seawalls	Amend	Provide for appropriate coastal hazard mitigation activities (including protection) as permitted or controlled activities.
Christopher Butler	S96/008	5.7.6 Seawalls	Amend	Provide for coastal hazard mitigation activities (including protection) to be no greater than discretionary activities and ensure that no coastal hazard mitigation activity is non-complying or prohibited.
Christopher Butler	S96/009	3.4 Natural character, form and function	Amend	Revise the PNRP to clarify that hazard identification/risk assessment needs to be an objective process.
Christopher Butler	S96/010	Entire Plan	Amend	Ensure that the provisions of the PNRP comply with the RMA 1991, NZCPS and RPS.
Christopher Butler	S96/011	3.4 Natural character, form and function	Amend	Undertake s32 evaluations and prepare revised s32 reports in relation to the implications of the PNRP for coastal hazard mitigation (including protection) activities.
Christopher Butler	S96/012	Entire Plan	Amend	Support for the submission of the Coastal Ratepayers United Inc [S93].
Claire Jones	S45/001	5.7.13 Motor vehicles on the foreshore	Amend	Either amend the rules [relating to vehicles on beaches] to make them stronger or make the rules more public with more signage, more profile in our local papers, more patrols of the beaches and stronger penalties for breaking the law. Educating the public is important.
Clayton Hartnell	S379/001	Category 2 surface water body	Oppose	Exclude water races and drains from [definition of] Category Two [2 surface water body].
Clayton Hartnell	S379/002	Schedule I: Important trout fishery rivers and spawning waters	Oppose	Specify criteria for "important" trout spawning rivers; delete those that don't meet the criteria.

Clayton Hartnell	S379/003	Map 22: Trout fishery rivers and trout spawning waters (Schedule I)	Oppose	Specify criteria for "important" trout spawning rivers: delete those that don't meet the criteria.
Clayton Hartnell	S379/004	Rule R97: Access to the beds of surface water bodies by livestock - permitted activity	Oppose	Extend the timeframes, e.g. Category 1 surface water bodies by 2020, category 2 surface water bodies by 2025. Exclude sheep from Category 1 surface water bodies. Delete requirement for dairy cow exclusion from hill country rivers >1 metre wide. Specify that stock exclusion from inanga or trout spawning sites is during the spawning season. Allow for stock drinking points. Ensure that alternative stock water supplies are available and rules don't apply until they are.
Clayton Hartnell	S379/005	Stock crossing point	Oppose	Amend the definition of "stock crossing" to match hill country practicalities and effects.
Clayton Hartnell	S379/006	Natural wetland	Oppose	Amend definition to exclude intermittent and ephemeral water bodies and clarify these do not include hill country seeps or paddocks subject to regular ponding, dominated by cultivated pasture, whether or not associated with sedge, raupo or rush species.
Clayton Hartnell	S379/007	Significant natural wetland	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Clayton Hartnell	S379/008	Schedule F3: Identified significant natural wetlands	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Clayton Hartnell	S379/009	Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Oppose	Allow for planting introduced species for bees or ducks

Clayton Hartnell	S379/010	Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Clayton Hartnell	S379/011	Rule R107: Activities in natural wetlands and significant natural wetlands - discretionary activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Clayton Hartnell	S379/012	Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity	Oppose	Allow diversion of water as part of a restoration plan.
Clayton Hartnell	S379/013	Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Oppose	Allow use of machines rather than just hand held
Clayton Hartnell	S379/014	Rule R83: Discharge of collected animal effluent onto or into land - controlled activity	Oppose	Undertake more rigorous regional cost-benefit analysis of pond storage and sealing requirements. Provide reasonable timeframes and a stepped approach for the installation of storage (eg 3-5 years). Clarify the definition of ponding; and exclude extreme weather events, breakdowns out of manager's control, be consistent with urban conditions. In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary. Extend consent timeframe to 20 years to reflect investment made.

Clayton Hartnell	S379/015	Rule R93: All other discharges to land - discretionary activity	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Clayton Hartnell	S379/016	Map 27a: Groundwater community drinking water supply protection areas - Wairarapa (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Clayton Hartnell	S379/017	Map 27b: Groundwater community drinking water supply protection areas - Hutt Valley (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Clayton Hartnell	S379/018	Map 27c: Groundwater community drinking water supply protection areas - Kapiti Coast (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Clayton Hartnell	S379/019	Silage	Oppose	Change definition to specify this does not include baleage.
Clayton Hartnell	S379/020	Rule R90: Manufacture and storage of silage and compost - permitted activity	Oppose	Delete requirement for impermeable lining; retain condition that there be no discharge to water. Delete requirement for location not allowed within 20m of a surface water body.
Clayton Hartnell	S379/021	Rule R94: Cultivation or tilling of land - permitted activity	Oppose	Delete condition requiring a 5m setback.

Clayton Hartnell	S379/022	Rule R95: Break-feeding - permitted activity	Oppose	Delete condition requiring a 5m setback.
Clayton Hartnell	S379/023	Highly modified river or stream	Oppose	Change definition to include all streams that have been modified by human activity - straightening, deepening, channeling.
Clayton Hartnell	S379/024	Rule R121: Maintenance of drains - permitted activity	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Clayton Hartnell	S379/025	Rule R122: Removing vegetation - permitted activity	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Clayton Hartnell	S379/026	Method M14: Maintenance of drains	Oppose	Fast-forward Method M14 to develop agreed good practice for drain clearing prior to the hearing.
Clayton Hartnell	S379/027	Earthworks	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Clayton Hartnell	S379/028	Rule R99: Earthworks-permitted activity	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Clayton Hartnell	S379/030	Erosion prone land	Oppose	Change definition to increase the slope and exclude stable substrate, e.g. greywacke.
Clayton Hartnell	S379/031	Vegetation clearance	Oppose	Change definition to exclude hand clearance, hand or aerial spraying and roller crushing.
Clayton Hartnell	S379/032	Rule R100: Vegetation clearance on erosion prone land - permitted activity	Oppose	See submission point on definition of "erosion prone" and "vegetation clearance".

Clayton Hartnell	S379/033	Rule R101: Earthworks and vegetation clearance - discretionary activity	Oppose	Change rule to controlled or restricted discretionary with clear conditions.
Clayton Hartnell	S379/034	Rule R114: River crossing structures - permitted activity	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Clayton Hartnell	S379/035	Rule R115: Culverts - permitted activity	Amend	Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost.
Clayton Hartnell	S379/036	Rule R125: Structures within a site identified in Schedule C (mana whenua) - restricted discretionary activity	Oppose	Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Clayton Hartnell	S379/037	Rule R89: Farm refuse dumps - permitted activity	Oppose	Increase size from 50m3 to 100m3. Heavily prune the fourteen other conditions to focus on clear effects.
Clayton Hartnell	S379/038	Rule R91: Offal pit - permitted activity	Oppose	Retain condition (a) and condition (h). Heavily prune the seven other conditions to focus on clear effects.
Clayton Hartnell	S379/039	Rule R36: Agrichemicals - permitted activity	Oppose	Change condition (g) [spray plan] to more reasonably reflect practicalities and risks. [Regarding condition (e) community drinking water supply protection area] undertake a risk analysis to support condition for a controlled rule rather than discretionary.
Clayton Hartnell	S379/040	Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity	Oppose	Amend condition (a) to reflect the practicalities of aerial fertiliser application.

Clayton Hartnell	S379/041	Rule R48: Stormwater from an individual property - permitted activity	Oppose	Delete condition (a). Delete condition (e). Retain condition (g).
Clayton Hartnell	S379/042	Entire Plan	Not stated	Support Wairarapa Federated Farmers submission [S352]
Coastal Ratepayers United Incorporated	S93/006	Entire Plan	Amend	Ensure that the provisions of the PNRP comply with the RMA and give effect to the NZCPS and the Regional Policy Statement for the Wellington region (RPS).
Coastal Ratepayers United Incorporated	S93/006	Entire Plan	Amend	Reconsider the whole plan, including definitions, objectives, policies, rules, other methods, schedules and maps that relate directly or indirectly to climate change, coastal hazards and mitigation (including protection) measures, both within the coastal marine area and otherwise e.g., in beds of rivers and streams.
Coastal Ratepayers United Incorporated	S93/006	3. Objectives	Amend	Develop and include an objective and corresponding policy to deal with the specific issue of coastal hazard mitigation and protection. Word the objective in a manner that references the need to balance the benefits and costs of such measures on those affected.
Coastal Ratepayers United Incorporated	S93/006	Entire Plan	Amend	Undertake appropriate s 32 evaluations and prepare revised s 32 reports, having proper regard to s 32 matters, including in relation to the implications of the PNRP for hazard mitigation (including protection) measures. Have regard to those revised reports.
Coastal Ratepayers United Incorporated	S93/006	3. Objectives	Amend	Develop and include an overarching objective and corresponding policy in respect of use and development in the coastal environment to prevent the Plan from inadvertently preventing activities that might otherwise be contemplated by the NZCPS. [See p3, p15 of original submission for further details].

Coastal Ratepayers United Incorporated	S93/026	High hazard areas (also known as areas at high risk from natural hazards)	Oppose	Delete the definition of "High hazard areas" and refer instead to "areas at high risk of being affected by coastal hazards" as per the NZCPS. Align related passages of text to be compliant with NZCPS processes and provisions regarding areas at high risk of being affected by coastal hazards.
Coastal Ratepayers United Incorporated	S93/026	Risk-based approach (natural hazards)	Amend	Incorporate relevant aspects of the joint Australian and New Zealand International Standard on risk management AS/NZS ISO 31000:2009 "Risk management - Principles and guidelines" into the PNRP, including (without limiting the breadth of the decision sought) principles d, f, h and i. Add the standard AS/NZS ISO 31000:2009 to the list of standards referenced by the PNRP.
Coastal Ratepayers United Incorporated	S93/026	Hazard management strategy	Amend	Incorporate relevant aspects of "NZCPS 2010 Guidance Note Policy 3: Precautionary Approach".
Coastal Ratepayers United Incorporated	S93/026	Risk-based approach (natural hazards)	Amend	Delete the existing definition and references to it elsewhere throughout the plan and add a new definition: "Risk management approach (natural hazards)" "Objective identification, assessment, and prioritisation of risks and related uncertainties ("Risk assessment") followed by the coordinated and economical application of resources to minimise, monitor, and control the uncertainty of a hazard and its impact or to maximize the realisation of opportunities ("Risk management"). Policy 24 and Policies 25-27 of the NZCPS respectively exemplify risk assessment and management. Ref. AS/NZS ISO 31000:2009 Risk management - Principles and guidelines, November 2009"
Coastal Ratepayers United Incorporated	S93/026	Hazard management strategy	Amend	Replace definition of "Hazard management strategy" with: "A hazard risk assessment along with a plan to manage any hazard risks, developed using the risk management approach and approved by the local authority."

Coastal Ratepayers United Incorporated	S93/026	Beach recontouring (coastal marine area)	Amend	Clarify that river and stream cutting is not included in "Beach recontouring (beds of rivers)" and "Beach recontouring (coastal marine area)". Reconsider the differences in the wording and make them consistent. Reconsider the use of the terms "river beach" and "beach" in the "beach contouring (beds of rivers)" definition and consider also including a reference to "bed".
Coastal Ratepayers United Incorporated	S93/026	2.1 How to use this Plan	Amend	Clarify the meaning of the coastal icon and make the explanation of it consistent across the PNRP
Coastal Ratepayers United Incorporated	S93/026	Earthworks	Amend	Insert that the definition does not include Beach recontouring (beds of rivers) and Beach recontouring (coastal marine area) and does not include river (including stream) mouth cutting.
Coastal Ratepayers United Incorporated	S93/026	3.4 Natural character, form and function	Amend	Delete Objectives O19-22 and replace with a single objective as follows: "Objective Oxx: Ensure that natural hazard risks taking account of climate change, are managed by: <ul style="list-style-type: none"> • locating new development away from areas prone to such risks; • considering responses, including managed retreat, for existing development in this situation; and • protecting or restoring natural defences to such hazards."
Coastal Ratepayers United Incorporated	S93/026	Entire Plan	Amend	Review all of the references to "practicable", "reasonably practicable", "reasonable or practicable" and any other similar terms (or variations of those or similar terms) and use one form of wording that conveys the concept of reasonableness.
Coastal Ratepayers United Incorporated	S93/026	Risk	Amend	Revise the PNRP to clarify that, in contrast to risk management, hazard identification/risk assessment is an objective process that calls for uncertainty to be reported, not hidden and precautionary assumptions based on "professional judgement" to be avoided.

Coastal Ratepayers United Incorporated	S93/026	Risk	Amend	Replace the current definition with: "The effect of uncertainty in hazards on the objectives people and communities have to provide for their well-being through the sustainable use and development of the coastal environment. Ref. AS/NZS ISO 31000:2009 Risk management - Principles and guidelines, November 2009"
Coastal Ratepayers United Incorporated	S93/026	Functional need	Amend	Reconsider use of the terms "functional need" and "operational requirement" in the rules and either change the rules or the definitions to enable appropriate hazard mitigation measures that might be able to be located elsewhere but are more efficiently, effectively or cost-effectively located in the particular location.
Coastal Ratepayers United Incorporated	S93/026	Entire Plan	Amend	Review the use of language and drafting throughout the PNRP. Ensure that terminology is used consistently and appropriately.
Coastal Ratepayers United Incorporated	S93/046	Objective O32: Outstanding natural features and landscapes	Amend	Please see the decision sought in [submission point S93/033].
Coastal Ratepayers United Incorporated	S93/046	3. Objectives	Oppose in part	Revise Chapter 3 to appropriately enable and address coastal hazard mitigation (including protection) activities, especially in areas of significant existing development. All of the matters addressed elsewhere [in the submission] and any suggested changes to provisions are subject to this general decision sought.
Coastal Ratepayers United Incorporated	S93/046	Objective O35: Significant indigenous biodiversity values	Amend	Revise the objective to be less extreme. An option is to revise the objective so that it reads "Ecosystems and habitats with significant indigenous biodiversity values are protected from inappropriate use and development and restored where appropriate" to be consistent with the wording of Objective 034 and to revise Schedule F.
Coastal Ratepayers United Incorporated	S93/046	4. Policies	Amend	Include a specific policy to deal with issue of coastal hazard mitigation and protection, incorporating reference to "areas of significant existing development" and the "benefits and costs to those affected".

Coastal Ratepayers United Incorporated	S93/046	Objective O33: Significant mana whenua values	Amend	Revise the objective to be less extreme and revise the objective and other relevant provisions in the PNRP to address the concerns expressed. An option is to revise the objective so that it reads "Sites with significant mana whenua values are protected from inappropriate use and development and restored where appropriate" to be consistent with the wording of Objective 034 and to revise Schedule C
Coastal Ratepayers United Incorporated	S93/046	4. Policies	Oppose in part	Revise Chapter 4 to appropriately enable and address coastal hazard mitigation (including protection) activities, especially in areas of significant existing development. All of the matters addressed in the submission and any suggested changes to provisions are subject to this general decision sought.
Coastal Ratepayers United Incorporated	S93/046	Objective O36: Significant geological features	Amend	Revise the objective to be less extreme. An option is to revise the objective so that it reads "Significant geological features in the coastal marine areas are protected from inappropriate use and development" to be consistent with the wording of Objective 034 and to revise Schedule J.
Coastal Ratepayers United Incorporated	S93/046	3.7 Sites with significant values	Amend	Reconsider the appropriateness of the provisions that rely on proposed and operative district plans and how they are best worded to ensure that, both now and in the fullness of time, there is no risk of the provisions being inconsistent with the relevant proposed or operative district plans
Coastal Ratepayers United Incorporated	S93/046	Objective O38: Special amenity landscapes	Amend	Reword Objective O38 to be more consistent with the wording in Objective O32 so that Objective O38 reads something along these lines: "Identified special amenity landscape values are protected from inappropriate subdivision, use and development" but it is probably preferable to make both objectives O32 and O38 more general where they are referring to areas within districts.
Coastal Ratepayers United Incorporated	S93/046	Objective O56: New development in the coastal marine area	Amend	Revise the objective to also recognise the purpose of the new development. An option is to add "and its purpose" at the end of the objective.

Coastal Ratepayers United Incorporated	S93/046	Policy P3: Precautionary approach	Oppose in part	Revise the policy to deal with the concerns expressed including making it clear it doesn't apply where the lack of information or uncertainty is not material or where the consequences are not significantly adverse. Include wording to acknowledge that being too precautionary is just as inappropriate as not being precautionary enough and redress its lack of balance with respect to the well-being of people in their communities.
Coastal Ratepayers United Incorporated	S93/046	Policy P3: Precautionary approach	Oppose in part	Make it clear that the principle does not apply to risk assessment [See original submission for further detail].
Coastal Ratepayers United Incorporated	S93/046	4. Policies	Amend	Include a policy that enables appropriate use and development in the coastal environment to ensure the Plan does not inadvertently prevent activities that might otherwise be contemplated by the NZCPS.
Coastal Ratepayers United Incorporated	S93/046	Objective O53: Functional need in the coastal marine area	Amend	Revise the objective to address the concerns expressed [with use of "functional need" and "operational requirement"; See p17-18 of original submission for further detail].
Coastal Ratepayers United Incorporated	S93/046	4. Policies	Amend	Include a policy that provides for a risk management framework to be used in the management of use and development in the coastal environment.
Coastal Ratepayers United Incorporated	S93/066	Policy P145: Reclamation, drainage and destruction	Oppose in part	Revise the policy so that appropriate coastal hazard mitigation activities are enabled (using appropriate language that is consistent with that used in the PNRP). Include definitions of "destruction", "disturbance", and "damage" so that the differences in meaning of the terms is clear

Coastal Ratepayers United Incorporated	S93/066	Policy P7: Uses of land and water	Oppose in part	Delete Policy P7 or: <ul style="list-style-type: none"> reconsider the appropriateness of including each of the items and remove those that should not be there; delete (a) aquaculture; include reference to the benefits of river and stream mouth cutting and protecting against natural hazards by structures. An option is to revise (g) along the following lines "natural hazard mitigation measures including gravel extraction from rivers, river and stream mouth cutting, and structures [particularly in areas of significant existing development]". If that is not done, delete (g); and revise (k) to remove the word "transport" and reword the policy so it refers to something like "appropriate access to and along water bodies and the coastal marine area".
Coastal Ratepayers United Incorporated	S93/066	Policy P138: Structures in sites with significant values	Oppose in part	Delete the policy or make it less extreme to deal with the concerns expressed. A possible solution is to simply refer to avoiding, remedying or mitigating the effects of structures in the areas and remove "and in respect of (a) to (d): (e) there are no practicable alternative methods of providing for the activity".
Coastal Ratepayers United Incorporated	S93/066	Policy P4: Minimising adverse effects	Amend	Include appropriate qualification in P4(b) to deal with the fact that, given the extent of the areas referred to in (b), it will not always be possible or appropriate (particularly in terms of community well-being) to avoid them.
Coastal Ratepayers United Incorporated	S93/066	Policy P24: Outstanding natural character	Oppose in part	Delete the policy or notify a variation to identify the areas of outstanding natural character in the coastal marine area. If the policy is not deleted, revise the policy to address the concerns expressed, including by making it less extreme and by giving effect to the NZCPS
Coastal Ratepayers United Incorporated	S93/066	4.6 Sites with significant values	Oppose in part	Limit the extent of the areas identified in the schedules or qualify the schedules (and any relevant defined terms) and revise the policies so that they are less extreme and focus on the attributes of the areas that create the value.

Coastal Ratepayers United Incorporated	S93/066	Policy P132: Functional need and efficient use	Oppose in part	Revise the policy so that language that is currently problematically inconsistent across the PNRP is made consistent. Revise the policy to enable the situation where appropriate hazard mitigation measures might be able to be located elsewhere but are more efficiently, effectively or cost-effectively located in the coastal marine area. Reconsider (f), the use of the word "redundant" and, if it remains, provide a definition of "Redundant" so that for example, structures that might be built, become covered in sand but might, in fullness of time, be useful again are not caught.
Coastal Ratepayers United Incorporated	S93/066	Policy P29: Climate change	Oppose in part	Revise the policy so that it addresses the concerns expressed [See original submission p26]. Revise the policy so that it gives effect to the proper interpretation of the NZCPS
Coastal Ratepayers United Incorporated	S93/066	Policy P8: Beneficial activities	Amend	Include reference to "upgrade" in Policy 8(h).
Coastal Ratepayers United Incorporated	S93/066	Policy P15: Flood protection activities	Amend	Either widen Policies P15 and P16 to include coastal hazard mitigation activities (using appropriate terminology) or create new policies to deal with those activities. In addition, given the limited definition of "upgrade" and the importance of the existing activities, upgrade should be included
Coastal Ratepayers United Incorporated	S93/066	Policy P48: Protection of outstanding natural features and landscapes	Oppose	Delete the policy or notify a variation to identify the outstanding and other areas of natural features and landscapes (including seascapes) being referred to. Revise the policy to address the concerns expressed, including by making the policy less extreme.
Coastal Ratepayers United Incorporated	S93/066	Policy P49: Use and development adjacent to outstanding natural features and landscapes and special amenity landscapes	Oppose in part	Revise Policy P49 to address the concerns expressed [regarding inconsistency with various district plans now and over time].

Coastal Ratepayers United Incorporated	S93/066	Policy P103: Management of gravel extraction	Oppose in part	Revise title of the policy to refer to gravel, sand or rock extraction. Revise the policy so that it addresses the concerns expressed [regarding the flow of gravel, sand or rock to the coast].
Coastal Ratepayers United Incorporated	S93/066	4. Policies	Oppose in part	Delete Policies P26-P30 and replace them with policies that use risk management and reflect the risk assessment and management policies in the NZCPS 2010 generalised to natural resources. Ensure that none of the replacement policies refer to "high hazard areas" and instead align any such needed language to Policy 24 of the NZCPS which identifies "areas at high risk of being affected [by coastal hazards]".
Coastal Ratepayers United Incorporated	S93/066	Policy P20: Exercise of kaitiakitanga	Amend	Revise the provisions so that kaitiakitanga can be exercised but also so that appropriate activities, including coastal hazard mitigation activities, do not become non-complying activities because they happen to be in areas identified in Schedule C.
Coastal Ratepayers United Incorporated	S93/066	Policy P25: Natural character	Oppose in part	Delete the policy or notify a variation to identify the areas of natural character and high natural character. If the policy is not deleted, revise the policy to address the concerns expressed, including by making it less extreme, by giving effect to the NZCPS, and by widening d(ii) as discussed [p25 of original submission].
Coastal Ratepayers United Incorporated	S93/066	Policy P134: Public open space values and visual amenity	Oppose in part	Revise the policy to address the concerns expressed. An option is to, in (b), add "built and/or" before "natural character" or refer to degree of naturalness or similar to reflect the fact that the coastal environment includes significant built areas.
Coastal Ratepayers United Incorporated	S93/066	Policy P139: Seawalls	Oppose in part	Delete Policy P139 and replace it with a policy that gives effect to Policy 27 of the NZCPS, including that seawalls may be appropriate to protect areas of significant existing development from natural hazards.

Coastal Ratepayers United Incorporated	S93/066	Policy P9: Public access to and along the coastal marine area and the beds of lakes and rivers	Oppose in part	Revise the policy completely to address the concerns that it: <ul style="list-style-type: none"> • is too uncertain in its reference to "extent or quality" of public access; • too extreme in referring to "shall be avoided" and "necessary"; • too limited in (a) to (c) in that the purposes do not include reference to other beneficial activities, including in particular natural hazard mitigation measures; and • fails to distinguish between walking and vehicular access and could interfere with attempts to limit inappropriate pedestrian or vehicular access.
Coastal Ratepayers United Incorporated	S93/066	Policy P143: Deposition in a site of significance	Oppose in part	Clarify what is meant by "shingle".Delete "and in respect of (a) to (f): (g) there are no practicable alternative methods of providing for the activity". Reconsider (b) and (d) and include reference to coastal hazard mitigation (including protection), using terminology consistent with that developed for the PNRP.
Coastal Ratepayers United Incorporated	S93/086	Rule R162: New structures, additions or alterations to structures inside sites of significance - non-complying activity	Oppose in part	Revise the rule and related rules (or create new rules) to address the concerns expressed throughout this submission. Make coastal hazard mitigation (including protection) structures outside sites of significance a permitted, controlled or restricted discretionary activity with structures inside sites of significance being a discretionary activity.
Coastal Ratepayers United Incorporated	S93/086	Rule R119: Clearing flood debris and beach recontouring - permitted activity	Amend	[See decision requested for submission point S93/070].
Coastal Ratepayers United Incorporated	S93/086	5. Rules	Amend	Reconsider the Interpretation statement that deals with the situation where an activity is covered by more than one rule and ascertain if its meaning is beyond dispute so that there is no potential for debate as to what rule(s) apply, especially where there are also specific rules about certain areas or resources. If its meaning is not beyond dispute, revise it so that its meaning is clear. Include the revised statement everywhere that it should be included and revise any rules necessary to ensure that there is no dispute about which rule trumps others.

Coastal Ratepayers United Incorporated	S93/086	Rule R194: Disturbance or damage - discretionary activity	Amend	Reconsider the relationship between [R194 and R195] and all of the other rules, including their reference to "damage" that is missing from most of the other rules. Revise these and all other rules to address the concerns expressed throughout this submission. Ensure that any coastal hazard mitigation (including protection) activities, including soft and hard engineering activities, are no worse than discretionary activities.
Coastal Ratepayers United Incorporated	S93/086	Rule R193: River and stream mouth cutting - permitted activity	Amend	Change the references from "river and stream" to "river (including stream)" here and anywhere else such terminology occurs in the PNRP. Change the reference in (c) from "open coastal water" to "water" and anywhere else inappropriate "open coastal water" terminology appears in the PNRP. Remove the duplicated reference to "discharge of contaminants" and make the list consistent with equivalent lists in all other rules. Create a new rule that is the equivalent of Rule 193 but that deals with river and stream mouth cutting in the beds of rivers (including streams) or otherwise ensure that appropriate provision is made for such activities in beds of rivers (including streams).
Coastal Ratepayers United Incorporated	S93/086	5.5.2 Wetlands general conditions	Amend	Revise (a) so that it does not effectively turn permitted activities into something else by the restrictions on the discharge of contaminants and so that its wording is consistent with the wording of the actual rules or vice versa and consistent with wording to be adopted across the PNRP. Reconsider the wording of all of the rules relating to wetlands to ensure the above and to ensure that there are not inconsistencies between or within the rules and general conditions.
Coastal Ratepayers United Incorporated	S93/086	Rule R192: Beach recontouring for coastal restoration purposes - controlled activity	Amend	[See decision requested for submission point S93/070]. Reconsider why Rule R119 is a permitted activity but Rule R192 is a controlled activity and make them both either one way or the other. Consider whether reference to diverting water should be included in all of these rules as moving material for the beach grooming could arguably result in diversion of water when the water reaches that area.

Coastal Ratepayers United Incorporated	S93/086	5. Rules	Amend	Reconsider all the general conditions and rules in Chapter 5 to address the range of concerns expressed [with inconsistencies; see p32-36 of original submission for details].
Coastal Ratepayers United Incorporated	S93/086	5.5.5 Activities in beds of lakes and rivers	Amend	Where an activity may be occurring in the bed of a river (including a stream) and in the coastal marine area for example, river (including stream) mouth cutting or beach recontouring or any other such activity, make the rules governing such activities, including any relevant definitions, appropriate and consistent both in the coastal marine area and in the bed of the river.
Coastal Ratepayers United Incorporated	S93/086	5.7.6 Seawalls	Oppose in part	Amend the rules about seawalls to address the concerns expressed throughout this submission, especially in relation to areas of significant existing development. Amend the rules or create new rules to address the material that may be associated with a seawall e.g., rip rap but that is not attached to the land so is not a structure and that includes occupation of space in the coastal marine area. Make coastal hazard mitigation (including protection) structures outside sites of significance a permitted, controlled or restricted discretionary activity with structures inside sites of significance a discretionary activity.
Coastal Ratepayers United Incorporated	S93/086	5.7.6 Seawalls	Amend	Make it clear that the rules about structures apply to seawalls except for those explicitly different in section 5.7.6 or create new rules in the seawalls section that deals with matters that are missing in relation to the seawall rules e.g., maintenance and repair. Include a note in the relevant general structure rule referring the reader to the different seawall provision.
Coastal Ratepayers United Incorporated	S93/086	Rule R163: Replacement of structure or parts of structures - permitted activity	Amend	Remove condition (f).
Coastal Ratepayers United Incorporated	S93/086	5.7 Coastal management rules	Amend	Reconsider all references to "open coastal water" throughout the PNRP and replace them with "water" or if there is a valid reason why "water" is not acceptable, then with "coastal water".

Coastal Ratepayers United Incorporated	S93/086	Rule R196: Motor vehicles - permitted activity	Oppose in part	Exclude from this rule the areas in districts where motor vehicles are not permitted (and areas seaward of those areas). A suggestion is to create a new map, identify all of these areas and exclude these areas from Rule R196 and, with appropriate exceptions, make such an activity a discretionary activity.
Coastal Ratepayers United Incorporated	S93/086	5.7.2 Coastal management general conditions	Amend	[See decision requested for submission point S93/070]. In the rules that permit discharge of contaminants, remove the confusing interaction between the coastal management general conditions and the rules that refer to them, preferably by indicating that general condition (e) does not apply.
Coastal Ratepayers United Incorporated	S93/086	5. Rules	Oppose in part	Revise Chapter 5 to appropriately reflect risk management approaches and to enable and address coastal hazard mitigation (including protection) activities, especially for areas of significant existing development. All of the matters addressed [in the original submission] and any suggested changes to provisions are subject to this general decision sought.
Coastal Ratepayers United Incorporated	S93/086	5.5.5 Activities in beds of lakes and rivers	Amend	[See decision requested for submission point S93/070]. Revise general condition (a) in section 5.5.4 and relevant rules to address the problems discussed.
Coastal Ratepayers United Incorporated	S93/086	5.5.3 Activities in wetlands	Oppose in part	Revise the rules or the definitions to ensure that cutting of river and stream mouths is a permitted activity and not restricted by any of these rules. Revise the rules to ensure that appropriate hazard mitigation measures are not captured by the rules and ensure that hazard mitigation measures are not non-complying or prohibited activities. Reconsider the wording of the rules to address apparent inconsistencies between or within the general conditions and rules.
Coastal Ratepayers United Incorporated	S93/106	Rule R205: Destruction, damage or disturbance inside sites of significance - non-complying activity	Amend	Set out what destruction, damage or disturbance refers to. Address and remedy how these rules relate to other rules that do not refer to destruction or damage. Clarify the meaning of "damage" and "destruction" and how those terms differ from, and relate to, "disturbance". Make Rule R205 a discretionary activity or otherwise address the concerns expressed throughout this submission.

Coastal Ratepayers United Incorporated	S93/106	12 Schedules	Oppose in part	Revise the schedules to appropriately address the concerns expressed throughout the submission.
Coastal Ratepayers United Incorporated	S93/106	Rule R197: Motor vehicles for certain purposes - permitted activity	Amend	Change "local authority activities" here and anywhere else that term (or any similar term) is used in the PNRP to activities carried out "by or on behalf of local authorities" or similar wording to convey the message that the provision covers not only work done by local authorities and but also work done by others (e.g., contractors) on behalf of local authorities for a range of purposes. Include coastal hazard mitigation (including protection) activities (using appropriate terminology) as one of the purposes so that motor vehicles for that purpose are permitted activities.
Coastal Ratepayers United Incorporated	S93/106	10.2 Rules	Amend	State in Chapter 10 that Rule R136 and s 14(1)(b) of the RMA override all of the provisions and rules in Chapter 10.
Coastal Ratepayers United Incorporated	S93/106	13 Maps	Oppose in part	Revise the maps to appropriately address the concerns expressed throughout the submission.
Coastal Ratepayers United Incorporated	S93/106	Operational requirement	Amend	[See submission point S93/022].
Coastal Ratepayers United Incorporated	S93/106	Rule R208: Deposition outside sites of significance - discretionary activity	Amend	Clarify if the structures or seawalls rules cover the deposition of material to protect those structures or whether rules R208 and R209 apply. Add reference to associated diversion of water. Add reference to occupation of space in the coastal marine area for whatever rules do apply to the material used to protect any structures or seawalls or other materials deposited for coastal hazard mitigation (including protection) activities.
Coastal Ratepayers United Incorporated	S93/106	Method M3: Wellington regional hazards management strategy	Amend	Revise the method to address the concerns identified [see p49 of the original submission], in particular, when expanding on the intention refer to a "genuinely collaborative process" and "local communities of stakeholders, including affected property owners". Clarify more specifically what natural hazards such a strategy is intended to address.

Coastal Ratepayers United Incorporated	S93/106	6.10 Coast	Amend	Include a method outlining GWRC's intention to take the lead role in the coordination of a partnership programme between Department of Conservation, city and district councils and their communities to proactively manage the beach and dune reserve environments and restore the form and function of the dune systems in the Wellington region
Coastal Ratepayers United Incorporated	S93/106	Rule R207: Deposition for beach renourishment - controlled activity	Support in part	Add diversion of water to this rule and to all other relevant rules as deposition may divert water when the water reaches that area. Change (d) "by, or for, a local authority" to "by, or on behalf of, a local authority" and use that terminology consistently throughout the PNRP when reference is made to things being done by a local authority or local authority activities so it is clear that the work can be done by others who are not part of the local authority.
Coastal Ratepayers United Incorporated	S93/106	Rule R201: Dredging for flood protection purposes or erosion mitigation inside sites of significance - discretionary activity	Amend	Please see the decisions sought elsewhere in this submission.
Coastal Ratepayers United Incorporated	S93/106	Policy P27: High hazard areas	Oppose in part	Delete Policies P27 and P28 and add a replacement policy: "Policy Pxx: Risk management approach" "Use and development shall be managed using a risk management approach, particularly when hazard risks impact upon the achievement of use and development objectives."
Coastal Ratepayers United Incorporated	S93/106	Rule R209: Deposition inside sites of significance - non-complying activity	Amend	Clarify if the structures or seawalls rules cover the deposition of material to protect those structures or whether rules R208 and R209 apply. Add reference to associated diversion of water. Add reference to occupation of space in the coastal marine area for whatever rules do apply to the material used to protect any structures or seawalls or other materials deposited for coastal hazard mitigation (including protection) activities.
Coastal Ratepayers United Incorporated	S93/106	Policy P41: Managing adverse effects on ecosystems and habitats with significant indigenous biodiversity values	Amend	The RMA provides for an appropriate level of precaution.

Coastal Ratepayers United Incorporated	S93/106	Rule R200: Dredging for flood protection purposes or erosion mitigation - controlled activity	Amend	Please see the decisions sought elsewhere in this submission.
Coastal Ratepayers United Incorporated	S93/106	Method M4: Sea level rise	Amend	Revise the method to address the concerns [see p49-50 of the original submission and the attachment]. Revise the Method M4 to say "will work in partnership with city and district councils and stakeholders, including affected property owners, to develop..." Add reference to using appropriate statistical input, information on the uncertainties, and the range of likely sea level rise outcomes over what likely timeframes. Add that the purpose is to enable a "consistent, <u>robust and high-quality approach</u> ..." Add reference to draft guidance being provided for public comment.
Coastal Ratepayers United Incorporated	S93/106	Rule R204: Destruction, damage or disturbance outside sites of significance - discretionary activity	Amend	Set out what destruction, damage or disturbance refers to. Address and remedy how these rules relate to other rules that do not refer to destruction or damage. Clarify the meaning of "damage" and "destruction" and how those terms differ from, and relate to, "disturbance". Make Rule R205 a discretionary activity or otherwise address the concerns expressed throughout this submission.
Conrad John Toussaint Edwards	S73/001	Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity	Amend	Amend the provisions to make it clear that cars are allowed to drive on Titahi Bay beach except where they could damage the fossil forest, which is where it is exposed at that time.[See original submission for further details].Do not redefine the area of the fossil forest in different words in Schedule J, or any of the rules. Rather cross reference Map 35, by adding "as shown in Map 35" or similar.Make clear that car access to Titahi Bay beach is permitted to launch and retrieve boats, and for boatshed owners to access their sheds.
Conrad John Toussaint Edwards	S73/002	Rule R190: Launching, retrieving or temporary mooring of vessels - permitted activity	Amend	[See submission point S73/001].

Conrad John Toussaint Edwards	S73/003	Rule R191: Disturbance associated with beach grooming - permitted activity	Amend	[See submission point S73/001].
Conrad John Toussaint Edwards	S73/004	Rule R196: Motor vehicles - permitted activity	Amend	[See submission point S73/001].
Conrad John Toussaint Edwards	S73/005	Rule R198: Motor vehicles inside sites of significance - non complying activity	Amend	[See submission point S73/001].
Conrad John Toussaint Edwards	S73/006	Schedule J: Significant geological features in the coastal marine area	Amend	[See submission point S73/001].
Conrad John Toussaint Edwards	S73/007	Map 35: Titahi Bay fossil forest (indicative)	Amend	Make it absolutely clear what Map 35 will portray when it is no longer indicative. This should be known areas of fossil forest, i.e. areas of the beach where fossil remnants have been observed. This is NOT the whole foreshore as the crude indicative version implies.
Conrad John Toussaint Edwards	S73/008	Policy P149: Protection of the Titahi Bay fossil forest	Amend	[Make wording of references to the fossil forest area consistent. See submission point S73/001].
Craig and Janet Morrison	S303/001	Category 2 surface water body	Oppose	Exclude water races and drains from [definition of] Category Two [2 surface water body].
Craig and Janet Morrison	S303/002	Schedule I: Important trout fishery rivers and spawning waters	Oppose	Specify criteria for "important" trout spawning rivers; delete those that don't meet the criteria.
Craig and Janet Morrison	S303/003	Map 22: Trout fishery rivers and trout spawning waters (Schedule I)	Oppose	Specify criteria for "important" trout spawning rivers: delete those that don't meet the criteria.

Craig and Janet Morrison	S303/004	Rule R97: Access to the beds of surface water bodies by livestock - permitted activity	Oppose	Extend the timeframes, e.g. Category 1 surface water bodies by 2020, category 2 surface water bodies by 2025. Exclude sheep from Category 1 surface water bodies. Delete requirement for dairy cow exclusion from hill country rivers >1 metre wide. Specify that stock exclusion from inanga or trout spawning sites is during the spawning season. Allow for stock drinking points. Ensure that alternative stock water supplies are available and rules don't apply until they are. [Arrange] farm visits by the committee to visually assess the imposition of these proposed rules.
Craig and Janet Morrison	S303/005	Stock crossing point	Oppose	Amend the definition of "stock crossing" to match hill country practicalities and effects.
Craig and Janet Morrison	S303/006	Natural wetland	Oppose	Amend definition to exclude intermittent and ephemeral water bodies and clarify these do not include hill country seeps or paddocks subject to regular ponding, dominated by cultivated pasture, whether or not associated with sedge, raupo or rush species.
Craig and Janet Morrison	S303/007	Significant natural wetland	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Craig and Janet Morrison	S303/008	Schedule F3: Identified significant natural wetlands	Oppose	Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha.
Craig and Janet Morrison	S303/009	Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity	Oppose	Allow for planting introduced species for bees or ducks

Craig and Janet Morrison	S303/010	Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Craig and Janet Morrison	S303/011	Rule R107: Activities in natural wetlands and significant natural wetlands - discretionary activity	Oppose	Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership.
Craig and Janet Morrison	S303/012	Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity	Oppose	Allow diversion of water as part of a restoration plan.
Craig and Janet Morrison	S303/013	Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity	Oppose	Allow use of machines rather than just hand held
Craig and Janet Morrison	S303/014	Rule R83: Discharge of collected animal effluent onto or into land - controlled activity	Oppose	Undertake more rigorous regional cost-benefit analysis of pond storage and sealing requirements. Provide reasonable timeframes and a stepped approach for the installation of storage (eg 3-5 years). Clarify the definition of ponding; and exclude extreme weather events, breakdowns out of manager's control, be consistent with urban conditions. In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary. Extend consent timeframe to 20 years to reflect investment made.

Craig and Janet Morrison	S303/015	Rule R93: All other discharges to land - discretionary activity	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Craig and Janet Morrison	S303/016	Map 27a: Groundwater community drinking water supply protection areas - Wairarapa (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Craig and Janet Morrison	S303/017	Map 27b: Groundwater community drinking water supply protection areas - Hutt Valley (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Craig and Janet Morrison	S303/018	Map 27c: Groundwater community drinking water supply protection areas - Kapiti Coast (incorporates Schedule M2)	Oppose	[Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary.
Craig and Janet Morrison	S303/019	Silage	Oppose	Change definition to specify this does not include baleage.
Craig and Janet Morrison	S303/020	Rule R90: Manufacture and storage of silage and compost - permitted activity	Oppose	Delete requirement for impermeable lining; retain condition that there be no discharge to water. Delete requirement for location not allowed within 20m of a surface water body.
Craig and Janet Morrison	S303/021	Rule R94: Cultivation or tilling of land - permitted activity	Oppose	Delete condition requiring a 5m setback.

Craig and Janet Morrison	S303/022	Rule R95: Break-feeding - permitted activity	Oppose	Delete condition requiring a 5m setback.
Craig and Janet Morrison	S303/023	Highly modified river or stream	Oppose	Change definition to include all streams that have been modified by human activity - straightening, deepening, channeling.
Craig and Janet Morrison	S303/024	Rule R121: Maintenance of drains - permitted activity	Oppose	[Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020.
Craig and Janet Morrison	S303/025	Rule R122: Removing vegetation - permitted activity	Oppose	[Condition I] Provide direction to landowners about the type of waterways on their land.
Craig and Janet Morrison	S303/026	Method M14: Maintenance of drains	Oppose	Fast-forward Method M14 to develop agreed good practice for drain clearing prior to the hearing.
Craig and Janet Morrison	S303/027	Earthworks	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Craig and Janet Morrison	S303/028	Rule R99: Earthworks-permitted activity	Oppose	Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance.
Craig and Janet Morrison	S303/030	Erosion prone land	Oppose	Change definition to increase the slope and exclude stable substrate, e.g. greywacke.
Craig and Janet Morrison	S303/031	Vegetation clearance	Oppose	Change definition to exclude hand clearance, hand or aerial spraying and roller crushing. Exclude scrub and noxious weeds.
Craig and Janet Morrison	S303/032	Rule R100: Vegetation clearance on erosion prone land - permitted activity	Oppose	Adopt the biodiversity rule [from the Combined District Plan?] in regards to any vegetation clearance. See submission point [S303/030 and 031] on definition of "erosion prone" and "vegetation clearance".

Craig and Janet Morrison	S303/033	Rule R101: Earthworks and vegetation clearance - discretionary activity	Oppose	Change rule to controlled or restricted discretionary with clear conditions.
Craig and Janet Morrison	S303/034	Rule R114: River crossing structures - permitted activity	Oppose	Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Craig and Janet Morrison	S303/035	Rule R115: Culverts - permitted activity	Amend	Delete condition [(h)(ii)] restricting culvert diameter. Retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost. Allow construction to specifications greater than a one-in-20-year event.
Craig and Janet Morrison	S303/036	Rule R125: Structures within a site identified in Schedule C (mana whenua) - restricted discretionary activity	Oppose	Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost.
Craig and Janet Morrison	S303/037	Rule R89: Farm refuse dumps - permitted activity	Oppose	Increase size from 50m3 to 100m3. Heavily prune the fourteen other conditions to focus on clear effects. Remove distance rule. Allow existing use to continue if zoned rural.
Craig and Janet Morrison	S303/038	Rule R91: Offal pit - permitted activity	Oppose	Retain condition (a) and condition (h). Heavily prune the seven other conditions to focus on clear effects. Remove distance rule. Allow existing use to continue if zoned rural.
Craig and Janet Morrison	S303/039	Rule R36: Agrichemicals - permitted activity	Oppose	Change condition (g) [spray plan] to more reasonably reflect practicalities and risks. [Regarding condition (e) community drinking water supply protection area] undertake a risk analysis to support condition for a controlled rule rather than discretionary.

Craig and Janet Morrison	S303/040	Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity	Oppose	Amend condition (a) to reflect the practicalities of aerial fertiliser application.
Craig and Janet Morrison	S303/041	Rule R48: Stormwater from an individual property - permitted activity	Oppose	Delete condition (a). Delete condition (e). Retain condition (g).
Craig and Janet Morrison	S303/042	Entire Plan	Not stated	Support Wairarapa Federated Farmers submission [S352].
Craig Dairy Farm Ltd	S358/001	Map 27a: Groundwater community drinking water supply protection areas - Wairarapa (incorporates Schedule M2)	Not stated	[Resolve issue that] Map 27a does not identify 'community drinking water' supply protection areas.
Craig Dairy Farm Ltd	S358/002	5.3.2 Discharge of contaminants	Not stated	[Identify an actual environmental problem or adverse effect to be avoided, remedied or mitigated by defaulting currently permitted activities to restricted discretionary/discretionary within the 'groundwater community drink water supply protection area']
Craig Dairy Farm Ltd	S358/003	Policy P69: Human drinking water supplies	Not stated	[Decision requested unclear; submitter is concerned about the justification for certain restrictions within community supply protection areas]
Craig Dairy Farm Ltd	S358/004	Rule R89: Farm refuse dumps - permitted activity	Not stated	[Indicate] whether farm refuse dumps are an increasing environment problem or whether the dumps have a problem in relation to groundwater and potable water for a community supply. Have community supply protection areas been identified adequately to impose restriction upon land users where there is no record established of an adverse effect occurring?

Craig Dairy Farm Ltd	S358/005	Rule R36: Agrichemicals - permitted activity	Amend	Remove criterion (e) requiring that there is no discharge within a community drinking water supply protection area.
Craig Dairy Farm Ltd	S358/006	Rule R83: Discharge of collected animal effluent onto or into land - controlled activity	Amend	Amend the rule by deleting condition (e)(iii).
Craig Dairy Farm Ltd	S358/007	Rule R89: Farm refuse dumps - permitted activity	Amend	Amend the rule by deleting condition (d)(iii).
Craig Dairy Farm Ltd	S358/008	Rule R90: Manufacture and storage of silage and compost - permitted activity	Amend	Amend condition (d) of the rule by inserting the word "permanent" in front of 'silage storage area' as follows; (d) the walls and floor of a <u>permanent</u> silage storage area... Or any other equivalent change
Craig Dairy Farm Ltd	S358/009	Rule R92: All discharges to land within community drinking water protection areas - restricted discretionary activity	Oppose	Request that the rule be deleted.
Craig Dairy Farm Ltd	S358/010	Rule R94: Cultivation or tilling of land - permitted activity	Amend	Amend the rule in relation to condition (a) as follows;(a) cultivation shall not occur within 5m of a surface water body <u>for those surface water bodies with a wetted channel width of greater than 2m of wetted channel</u> .Add new condition as follows; <u>(xx) cultivation shall not occur within 2m of a surface water body with a wetted channel width of less than 2m.</u> Or any other equivalent change

Craig Dairy Farm Ltd	S358/011	Rule R95: Break-feeding - permitted activity	Amend	Amend the rule in relation to condition (a) as follows; (a) break-feeding shall not occur within 5m of a surface water body <u>for those surface water bodies with a wetted channel width of greater than 2m of wetted channel.</u> Add new condition as follows; <u>(xx) break-feeding shall not occur within 2m of a surface water body with a wetted channel width of less than 2m.</u> Or any other equivalent
Craig Dairy Farm Ltd	S358/012	Rule R121: Maintenance of drains - permitted activity	Amend	Insert a new condition; <u>(XX) all tools and mechanical devices used for drain clearing must be inspected and cleaned to remove any pest plants or fragments of pest plants, or pest animals before and after use, to prevent the spread of pests.</u> and amend the following conditions; (g) if mechanically clearing aquatic vegetation, the machinery must use a weed bucket with a curved flat base , and a slatted back that permits the easy drainage of water and fish back into the drain which reduces the likelihood of pest plant material being spread through the drain, and (j) ... or spreading pest plants (as listed in the Greater Wellington Regional Pest Management Strategy 2002-2022 operative at the time, <u>or listed as an Unwanted Organism under the Biosecurity Act 1993</u>)... Or any other equivalent change
Craig Dairy Farm Ltd	S358/013	Rule R122: Removing vegetation - permitted activity	Amend	Amend the following conditions; (h) ... the machinery must use a weed bucket with a curved flat base , and a slatted back that permits the easy drainage of water and fish back into the drain <u>and which reduces the likelihood of pest plant material being spread through the river,</u> and (j) ... or spreading pest plants (as listed in the Greater Wellington Regional Pest Management Strategy 2002-2022 operative at the time, <u>or listed as an Unwanted Organism under the Biosecurity Act 1993</u>), and ... Or any other equivalent change
Craig Lamont Eaton	S25/001	Entire Plan	Support	No decision, details either.

CT and EM Brown	S13/001	Objective O25: Aquatic ecosystem health and mahinga kai	Amend	Delete clause (b)
CT and EM Brown	S13/002	Objective O28: Extent of wetlands	Oppose	Delete Objective O28
CT and EM Brown	S13/003	Policy P7: Uses of land and water	Amend	Identify and recognise stormwater channels in the NRP. Provide for their maintenance by Councils and land owners by making this a permitted activity in the NRP.
CT and EM Brown	S13/004	Policy P8: Beneficial activities	Oppose	Water bodies that are storm water channels MUST be maintained so that water can move freely.
CT and EM Brown	S13/005	Policy P9: Public access to and along the coastal marine area and the beds of lakes and rivers	Amend	The protection of property owners rights to restrict the publics access to their properties.
CT and EM Brown	S13/006	Policy P15: Flood protection activities	Support	Supported
CT and EM Brown	S13/007	Policy P38: Restoration of wetlands	Amend	Work to identify natural wetlands in need of restoration should be identified in conjunction with landowners, and resources provided by GWRC to assist landowners in this task.
CT and EM Brown	S13/008	Policy P39: Adverse effects on outstanding water bodies	Amend	Policy P39 should include measures to remedy or mitigate adverse effects,
CT and EM Brown	S13/009	Policy P59: Industrial point source discharges	Amend	Amend the policy to only include discharges which are ongoing or semi permanent basis.

CT and EM Brown	S13/010	Policy P63: Improving water quality for contact recreation and Maori customary use	Oppose	Delete the references to stormwater from the policy.
CT and EM Brown	S13/011	Policy P73: Minimising adverse effects of stormwater discharges	Support	Include the words "and existing" after the word 'new' in clause b.
CT and EM Brown	S13/012	Policy P78: Managing stormwater from large sites	Amend	Modify clause (d) to include productive farm land.
CT and EM Brown	S13/013	Policy P101: Management of riparian margins	Amend	Insert clause (d) allow access for mechanical diggers to storm water channels.
CT and EM Brown	S13/014	Rule R97: Access to the beds of surface water bodies by livestock - permitted activity	Amend	Remove the limitation to sheep only in 5.4.3.(e)(i)
Cuttriss Consultants Limited	S104/001	Rule R50: Stormwater from a local authority network at plan notification - controlled activity	Oppose in part	In Rule R50 the provision be deleted or alternatively amended so that: -point 3 of the matters of control is a condition rather than a matter of control -If Rule R50 is retained in the plan, then a Permitted Activity Rule be inserted which provides for the construction of new discharge pipes to be constructed in areas subject to a Stormwater Management Strategy.
Cuttriss Consultants Limited	S104/002	Rule R51: Stormwater from a local authority network two years after public notification - restricted discretionary activity	Oppose in part	In Rule R51 the provision be deleted or alternatively amended so that: -point 3 of the matters of control is a condition rather than a matter of control -If Rule R51 is retained in the plan, then a Permitted Activity Rule be inserted which provides for the construction of new discharge pipes to be constructed in areas subject to a Stormwater Management Strategy.

Cuttriss Consultants Limited	S104/003	Rule R42: Minor discharges - permitted activity	Support	Retain
Cuttriss Consultants Limited	S104/004	Rule R54: Site investigation - permitted activity	Amend	Amend Rule R54: Provisions (a) and (b) to include any future iterations of these documents.
Cuttriss Consultants Limited	S104/005	Rule R70: Cleanfill material - permitted activity	Amend	Amend Rule R70: (f) relates to a greater volume of material (i.e.1000 cubic metres) that the rule be amended to include an exemption that enables earthworks being undertaken in association with a subdivision, and/or earthworks associated with residential and building developments be exempt from the standards set under (f).
Cuttriss Consultants Limited	S104/006	Rule R99: Earthworks-permitted activity	Support in part	Amend Rule R99: Insert a rule allowing for activities that cannot meet one or two of the PA standards to be considered as a C. or RD activity with control or discretion being retained over the standard(s) not met.
Cuttriss Consultants Limited	S104/007	5.5.4 Beds of lakes and rivers general conditions	Support	Retain Section 5.5.4.
Cuttriss Consultants Limited	S104/008	Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity	Support in part	Amend Rule R112: Insert a rule allowing for activities that cannot meet one or two of the PA standards to be considered C or RD activity with control or discretion being retained over the standard(s) not met.
Cuttriss Consultants Limited	S104/009	Rule R129: All other activities in river and lake beds - discretionary activity	Amend	Insert a rule providing for erosion protection measure, rather than have them default to a catchall D activity status.

Cuttriss Consultants Limited	S104/010	Rule R140: Dewatering - permitted activity	Amend	Amend Rule R140, Insert the following: -Provision of dewatering for longer than a month, where the rate of take does not exceed a specified rate (may vary for regions); -Provision of dewatering for longer than a month at an uncapped rate, in circumstances where the water will be returned to the same water source.
Cuttriss Consultants Limited	S104/011	Rule K.R1: Take and use of water in the Kapiti Coast Whaitua - restricted discretionary activity	Support in part	Amend Rule RK.R1 to exclude dewatering from being subject to the water allocation rules, where: the dewatering water will not be permanently removed from the water cycle, the dewatering water will be returned to the same water source.
