## Submission Points

The following table lists all of the submission points made by this submitter. The details of each submission point can be edited by clicking the 'edit' link, editing the information and then clicking 'submit'.

If you can't find the provision by typing the number, try typing a word in the body of the provision. For example, typing 'polic' will bring up all provisions that have the word 'policy' in their name.

If you need to void (delete) a submission point, click the 'edit' link and change the 'Status' field to 'Void'. Once the 'submit' button has been clicked, the submission point will be removed from the table and any reports.

## Raw uploaded submission points

This table contains raw submission point data that has been uploaded from the Council's online submission form. These submission points need to be transferred into Spoken by adding them as submission points using the 'Add submission point' form below or clicking on 'upload directly'. Once the raw uploaded submission has been added into Spoken, please confirm by selecting 'yes' in the 'uploaded into Spoken' field. Submission points that have not been 'lodged' are able to be edited by the submitter until either they have finalised and lodged their submission or after the submission closing date, so consider not summarising those points early.

S74.1	General comments	General comments - overall	Support	<p>Kia ora,</p> <p>My name is Finn and I am 13 years old. I have lived in the Wellington Region since I was 3 years old. I am writing on behalf of my siblings, Tara (7) and Brodie (11) and myself.</p> <p>We support the Regional Policy Statement.</p> <p>We want to see the regional council keep the good provisions like applying a climate and future proof lens to how and where we live, how we get around and becoming more modern in how we think about housing and suburbs. Our generation will not be as car dependent as my parents so we need you to make good decisions now so it will be easier for us to live and work in the region in the future. Even making it easier to make different choices on how we get to school would be awesome.</p> <p>We need to you put policies in place that prevent urban development creating more emissions in a time where we need to reduce them and create more choices in how we are able to travel around our region. Also it would be really good if the regional council could make sure we stop polluting our waterways. Our family loves camping in summer and sometimes we are near streams and</p>	Listed above	No	<a href="#">upload...</a>

rivers that aren't safe to swim in. So I support good freshwater provisions like the important Te Mana o te Wai and looking after our environment and biodiversity better.

Thanks for listening,

Finn (and Brodie and Tara) Hall
