Dear Nigel

**Transmission Gully: update on contractual arrangements underpinning this project**

We are writing to Greater Wellington Regional Council (**GWRC**) to advise that NZ Transport Agency (**NZTA**), Wellington Gateway Partnership (**WGP**) and CPB HEB (**Builder**) have reached an agreement with respect to the public private partnership contract to construct, operate and maintain the Transmission Gully Project (**TGP**).

NZTA, WGP and the Builder have agreed to terminate the existing contractual relationships with respect to the TGP. As of 13 December, NZTA is the sole contractual party responsible for all actions, past and present, under the relevant TGP resource consents and designations. WGP and the Builder no longer have any responsibility for these actions or for obtaining or maintaining any other environmental approvals required for the TGP, or for ensuring compliance with the Resource Management Act 1991 on the TGP. NZTA will work with contractors to carry out and complete all the necessary works on the TGP in accordance with the consents.

We look forward to continuing our collaborative work with GWRC to deliver NZTA projects.

Please contact me if you have any questions regarding the above matters.

Yours sincerely

**Andrew Robertson**  
National Manager Commercial Delivery  
NZ Transport Agency
