Summary of Decisions Requested: Submitter Names beginning with K

| Submitter Name | Submission point number | Plan Provision | Support /oppose | Summary of decision requested |
|------------------------|-------------------------|--|-----------------|---|
| K Collins | S228/001 | Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity | Oppose | Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach. |
| K-J Dillon | S315/001 | Rule R198: Motor vehicles inside sites of significance - non complying activity | Oppose | Amend Rule R198 of the Proposed NRP to be a discretionary activity for the Golden Gate Peninsula including Browns Bay and Ivey Bay. That is, retain the existing provisions for this area.. |
| Kahungunu Ki Wairarapa | S300/001 | Entire Plan | Support in part | Not stated |
| Kahungunu Ki Wairarapa | S300/002 | Objective O3: Mauri | Not stated | [Develop] greater detail around mahinga kai activities and Maori cultural uses [within the mauri framework]. This could occur with the whaitua committees. |
| Kahungunu Ki Wairarapa | S300/004 | 6. Methods | Amend | Greater consideration to blue and green infrastructure, natural water and natural plan infrastructure. New methods needed to enable these and to respond to climate change |
| Kahungunu Ki Wairarapa | S300/006 | Objective O17: Natural character | Support | [Retain] |
| Kahungunu Ki Wairarapa | S300/007 | Policy P99: Livestock access to surface water bodies | Support | [Retain] |
| Kahungunu Ki Wairarapa | S300/008 | 3.3 Maori Relationships | Support | Not stated |
| Kahungunu Ki Wairarapa | S300/009 | 3.4 Natural character, form and function | Amend | [Develop methods that recognise and respond to natural character of Wairarapa water ways.] |

| | | | | |
|------------------------|----------|--|---------|--|
| Kahungunu Ki Wairarapa | S300/011 | 3.7 Sites with significant values | Amend | [Include recognition of the environmental value of indigenous flora and fauna in the plan.] |
| Kahungunu Ki Wairarapa | S300/013 | Objective O34: Significant historic heritage values | Amend | [Consider protecting the use of natural elements by humans under heritage provisions.] |
| Kahungunu Ki Wairarapa | S300/014 | Policy P20: Exercise of kaitiakitanga | Amend | [Kaitiakitanga should be extended to Maori methods of practice through the plan.] |
| Kahungunu Ki Wairarapa | S300/015 | 6. Methods | Amend | Good management practice should be a prerequisite for grandparenting and other renewal of consent initiatives |
| Kahungunu Ki Wairarapa | S300/017 | Objective O50: Wastewater discharges to fresh water | Support | Not stated |
| Kairoa Farms Limited | S74/001 | Rule R97: Access to the beds of surface water bodies by livestock - permitted activity | Oppose | Amend R97 to extend the time frames for stock exclusion in conditions (b) and (c) as follows: - Category One water bodies by 2020, and - Category Two water bodies by 2025 |
| Kairoa Farms Limited | S74/002 | Natural wetland | Oppose | Amend definition of 'natural wetland' to exclude intermittent and ephemeral water bodies, and clarify natural wetlands do not include hill country seeps or paddocks subject to regular ponding, dominated by cultivated pasture, whether or not associated with sedge, raupo or rush species. |
| Kairoa Farms Limited | S74/003 | Significant natural wetland | Oppose | Amend definition of 'significant wetlands' to focus efforts on the highest value sites and change the minimum size from 0.1ha to 1.0ha. |

| | | | | |
|----------------------|---------|--|--------|--|
| Kairoa Farms Limited | S74/004 | Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity | Oppose | Amend Rule 104(f) to allow the use of machines rather than just hand held machinery. |
| Kairoa Farms Limited | S74/005 | Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity | Oppose | Amend Rule R105 to allow for planting introduced species for bees or ducks. |
| Kairoa Farms Limited | S74/006 | Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity | Oppose | Amend Rule R106 to provide for restoration or enhancement of wetlands as a permitted activity, with plans prepared as a non-regulatory partnership. |
| Kairoa Farms Limited | S74/007 | Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity | Oppose | Amend Rule R108 to allow diversion of water as part of a restoration plan. |
| Kairoa Farms Limited | S74/008 | Rule R83: Discharge of collected animal effluent onto or into land - controlled activity | Oppose | Amend R83: - by undertaking a more rigorous regional cost-benefit analysis of pond storage and sealing requirements prior to the hearing to support proper consideration by the Hearing Commissioners, and - to provide reasonable time frames and a stepped approach for the installation of storage (e.g. 3-5 years), and - to extend the consent time frame to 20 years. |

| | | | | |
|----------------------|---------|--|--------|---|
| Kairoa Farms Limited | S74/009 | Rule R93: All other discharges to land - discretionary activity | Oppose | Amend R93: - by undertaking a risk analysis in groundwater protection areas, prior to the hearing, to support appropriate conditions being established in a controlled rule, rather than discretionary, and - to extend the consent time frame to 20 years. |
| Kairoa Farms Limited | S74/010 | Rule R83: Discharge of collected animal effluent onto or into land - controlled activity | Oppose | Clarify the use of the term ponding in R83 and amend R83 to exclude extreme weather events and breakdowns occurring out of manager's control. |
| Kairoa Farms Limited | S74/011 | Rule R97: Access to the beds of surface water bodies by livestock - permitted activity | Oppose | Amend R97(e) to exclude sheep from exclusion requirements for Category One surface water bodies. |
| Kairoa Farms Limited | S74/012 | Category 2 surface water body | Oppose | Exclude water races and drains in the definition of category 2 surface water bodies. |
| Kairoa Farms Limited | S74/013 | Rule R97: Access to the beds of surface water bodies by livestock - permitted activity | Oppose | Amend R97 to delete requirement for dairy cow exclusion from hill country rivers > 1 metre. |
| Kairoa Farms Limited | S74/014 | Rule R97: Access to the beds of surface water bodies by livestock - permitted activity | Oppose | Amend R97 to specify that stock exclusion from spawning sites - inanga or trout - is during the spawning season. |
| Kairoa Farms Limited | S74/015 | Schedule I: Important trout fishery rivers and spawning waters | Oppose | Specify criteria for identifying "important" trout spawning rivers and delete those that do not meet this criteria from Schedule I. |

| | | | | |
|----------------------|---------|---|--------|---|
| Kairoa Farms Limited | S74/016 | Stock crossing point | Oppose | Amend the definition of 'stock crossing point' to respond to hill country practicalities and effects |
| Kairoa Farms Limited | S74/017 | Rule R97: Access to the beds of surface water bodies by livestock - permitted activity | Oppose | Amend R97 to allow for stock access to water ways at stock drinking points. |
| Kairoa Farms Limited | S74/018 | Rule R97: Access to the beds of surface water bodies by livestock - permitted activity | Oppose | Amend R97 to ensure that alternative stock water supplies are available and that R97 requirements do not apply until supplies are available. |
| Kairoa Farms Limited | S74/019 | Rule R107: Activities in natural wetlands and significant natural wetlands - discretionary activity | Oppose | Amend Rule R107 to provide for restoration or enhancement of wetlands as a permitted activity, with plans prepared as a non-regulatory partnership. |
| Kairoa Farms Limited | S74/020 | Rule R90: Manufacture and storage of silage and compost - permitted activity | Oppose | Delete the requirement in R90 for impermeable lining, and retain the condition that there be no discharge to water. |
| Kairoa Farms Limited | S74/021 | Rule R90: Manufacture and storage of silage and compost - permitted activity | Oppose | Delete the requirement in R90 that does not allow storage within 20m of a surface water body. |
| Kairoa Farms Limited | S74/022 | Silage | Oppose | Amend definition of 'silage' to specify this does not include baleage. |

| | | | | |
|----------------------|---------|---|--------|---|
| Kairoa Farms Limited | S74/023 | Rule R94: Cultivation or tilling of land - permitted activity | Oppose | Delete conditions in R94 requiring 5m setbacks. |
| Kairoa Farms Limited | S74/024 | Highly modified river or stream | Oppose | Amend the definition of 'highly modified stream' to include all streams that have been modified by human activity - straightening, deepening, channeling. |
| Kairoa Farms Limited | S74/025 | Rule R121: Maintenance of drains - permitted activity | Oppose | Provide high resolution maps in the plan, clearly showing drains and highly modified streams that are covered by Rule R121, and provide these before the hearing to see the scale of the issue. |
| Kairoa Farms Limited | S74/026 | Method M14: Maintenance of drains | Oppose | Provide direction to landowners about the type of waterways on their land. |
| Kairoa Farms Limited | S74/027 | Method M14: Maintenance of drains | Oppose | Fast-forward Method M14 to develop agreed good practice for drain cleaning to inform the Hearing Commissioners consideration of the proposed rules. |
| Kairoa Farms Limited | S74/028 | Rule R121: Maintenance of drains - permitted activity | Oppose | Amend R121 to extend the time frames for the implementation of the new conditions from 2017 to 2020. |
| Kairoa Farms Limited | S74/029 | Earthworks | Oppose | Amend the definition of 'earthworks' to allow construction of farm tracks as a permitted activity, as well as maintenance. |
| Kairoa Farms Limited | S74/030 | Rule R99: Earthworks-permitted activity | Oppose | Amend R99 to allow construction of farm tracks as a permitted activity, as well as maintenance. |
| Kairoa Farms Limited | S74/031 | Rule R101: Earthworks and vegetation clearance - discretionary activity | Oppose | Change Rule R101 to controlled or restricted discretionary with clear conditions. |
| Kairoa Farms Limited | S74/032 | Erosion prone land | Oppose | Change definition of 'erosion prone' to increase the slope, and to exclude stable substrate, e.g. greywacke. |

| | | | | |
|----------------------|---------|---|--------|--|
| Kairoa Farms Limited | S74/033 | Vegetation clearance | Oppose | Change definition of 'vegetation clearance' to exclude hand clearance, hand or aerial spraying and roller crushing. |
| Kairoa Farms Limited | S74/034 | Rule R101: Earthworks and vegetation clearance - discretionary activity | Oppose | Change Rule R101 to a controlled or restricted discretionary activity with clear conditions. |
| Kairoa Farms Limited | S74/035 | Rule R114: River crossing structures - permitted activity | Oppose | Amend R114 to change the 50ha catchment restriction to 200ha, or clarify rationale for the difference. |
| Kairoa Farms Limited | S74/036 | Rule R114: River crossing structures - permitted activity | Oppose | Increase the size for fords and bridges permitted by R114. |
| Kairoa Farms Limited | S74/037 | Rule R115: Culverts - permitted activity | Oppose | Delete the condition in R115 restricting culvert diameter, and retain the condition that the culvert be constructed to allow for 20 year flood event. |
| Kairoa Farms Limited | S74/038 | Rule R115: Culverts - permitted activity | Oppose | Provide advice to landowners regarding appropriate culvert sizes to achieve the condition that the culvert be constructed to allow for a 20 year flood event. |
| Kairoa Farms Limited | S74/039 | Schedule C: Sites with significant mana whenua values | Oppose | Undertake proper assessment of restrictions proposed for mana whenua sites within the PNRP, and not leave this to a consent process at landowner cost. |
| Kairoa Farms Limited | S74/040 | Rule R89: Farm refuse dumps - permitted activity | Oppose | Amend Rule 89, Farm Refuse Dumps: - increase size from 50m ³ to 100m ³ - heavily prune the fourteen other conditions to focus on clear effects |

| | | | | |
|---------------------------|----------|--|------------|--|
| Kairoa Farms Limited | S74/041 | Rule R91: Offal pit - permitted activity | Oppose | Amend Rule 91: Offal Pits - retain condition a) re only containing dead matter from the property; and condition h) odour is not offensive beyond the boundary - heavily prune the other seven conditions to focus on effects |
| Kairoa Farms Limited | S74/042 | Rule R36: Agrichemicals - permitted activity | Oppose | Amend Rule 36: Change condition g) to more reasonably reflect practicalities and risks: in water supply protection areas, undertake a risk analysis prior to the hearing to support appropriate conditions being established in a controlled rule, rather than discretionary. |
| Kairoa Farms Limited | S74/043 | Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity | Oppose | Amend condition a) to reflect the practicalities of aerial fertiliser application |
| Kairoa Farms Limited | S74/044 | Rule R48: Stormwater from an individual property - permitted activity | Oppose | Amend Rule R48: Delete condition (a): no discharge into outstanding waterbodies Delete condition (e) specifying suspended solid concentrations, retain condition (g) requiring no conspicuous films, scum, floatables etc |
| Kairoa Farms Limited | S74/045 | Entire Plan | Not stated | Support Wairarapa Federated Farmers submission [S352]. |
| Kaitiaki o Ngahere | S56/001 | 5.1.13 Ground-based and aerial applications | Amend | Please delete the need for RCA qualified field supervisors |
| Kaiwairai Dairies Limited | S119/001 | Introduction | Not stated | [Submitter supports general direction of the introduction] |
| Kaiwairai Dairies Limited | S119/002 | Introduction | Not stated | [Submitter is concerned with the timing of the PNRP as it is the busiest time of the year for farming activities] |

| | | | | |
|---------------------------|----------|---|------------|---|
| Kaiwaiwai Dairies Limited | S119/003 | Silage | Amend | Amend high moisture to be defined as above 75% moisture content |
| Kaiwaiwai Dairies Limited | S119/004 | 2.1.6 Definitions, schedules and maps | Amend | Add new definition for "ponding": areas of ponded effluent on the ground surface greater than 10m2 for a period greater than 12 hours or runoff (visible overland flow) |
| Kaiwaiwai Dairies Limited | S119/005 | Drain | Amend | Specifically exclude Water Races (Map 28) from the definition of a drain and artificial farm drainage canal |
| Kaiwaiwai Dairies Limited | S119/006 | Artificial farm drainage canal | Amend | Specifically exclude Water Races (Map 28) from the definition of a drain and artificial farm drainage canal |
| Kaiwaiwai Dairies Limited | S119/007 | 2.1.6 Definitions, schedules and maps | Amend | Add new definition "River": a continually or intermittently flowing body of fresh water; and includes a stream and modified watercourse; but does not include any artificial watercourse (including an irrigation canal, water race, canal for the supply of water for electricity power generation, and farm drainage canal) |
| Kaiwaiwai Dairies Limited | S119/008 | Regionally significant infrastructure | Amend | Include LVDS and Barrage Dates in "Regionally Significant Infrastructure" |
| Kaiwaiwai Dairies Limited | S119/009 | Objective O25: Aquatic ecosystem health and mahinga kai | Amend | Table 3.6 nitrate levels are not defined, initially set at drinking water standard, with the Whaitua to make the final determination. |
| Kaiwaiwai Dairies Limited | S119/010 | Policy P3: Precautionary approach | Not stated | [Submitter considers this policy is affecting the potential economic growth of the region] |
| Kaiwaiwai Dairies Limited | S119/011 | Policy P7: Uses of land and water | Amend | Amend by adding: ...and diffuse discharges. |
| Kaiwaiwai Dairies Limited | S119/012 | Policy P7: Uses of land and water | Support | Supported |

| | | | | |
|---------------------------|----------|--|---------|---|
| Kaiwaiwai Dairies Limited | S119/013 | Policy P63: Improving water quality for contact recreation and Maori customary use | Support | Supported |
| Kaiwaiwai Dairies Limited | S119/014 | Policy P94: Discharge of collected animal effluent | Amend | Amend by deleting (b)(iv) |
| Kaiwaiwai Dairies Limited | S119/015 | Policy P94: Discharge of collected animal effluent | Amend | Add definition for ponding as: areas of ponded effluent on the ground surface greater than 10m2 for a period greater than 12 hours or runoff (visible overland flow) |
| Kaiwaiwai Dairies Limited | S119/016 | Policy P94: Discharge of collected animal effluent | Amend | Move policy to section 4.8.8 |
| Kaiwaiwai Dairies Limited | S119/017 | Policy P105: Protecting trout habitat | Amend | Amend Policy 105 by either deleting or taking into account the negative effect this policy will have on native species. |
| Kaiwaiwai Dairies Limited | S119/018 | Policy P115: Authorising takes below minimum flows and lake levels | Amend | Delete P115 (c) (i) from Policy 115. |
| Kaiwaiwai Dairies Limited | S119/019 | Policy P15: Flood protection activities | Support | Supported. |
| Kaiwaiwai Dairies Limited | S119/020 | Rule R37: Agrichemicals into water - permitted activity | Amend | Amend Rule 37 by inserting: <u>for ground-based applications where the applicator is not a commercial applicator the applicator shall: (i) hold a GROWSAFE® Introductory Certificate, or (ii) be supervised by a person holding a current GROWSAFE® Advanced Certificate, and</u> |
| Kaiwaiwai Dairies Limited | S119/021 | Rule R83: Discharge of collected animal effluent onto or into land - controlled activity | Amend | Amend (f) by amending ponding to be defined as: areas of ponded effluent on the ground surface greater than 10m2 for a period greater than 12 hours or runoff (visible overland flow) |

| | | | | |
|---------------------------|----------|--|-------|--|
| Kaiwairai Dairies Limited | S119/022 | Rule R83: Discharge of collected animal effluent onto or into land - controlled activity | Amend | "Suggested wording to replace (g): <u>The entire extent of effluent storage and treatment facilities (including sumps and ponds) must be sealed so as to restrict seepage of effluent where all or any part of the storage facility (including weeping walls, stone traps, sumps and ponds) is established or extended (including deepening) from the date the Plan is made operative. The permeability of the sealing layer must not exceed 1x10⁻⁹m/s subject to the following exceptions: (i) Where there are multiple ponds that make up the storage facility, but not all are being extended then only those that are being extended are required to be fully sealed, or (ii) The establishment or extension of sumps, weeping walls or stone traps alone do not trigger a requirement for sealing of existing ponds.</u> " |
| Kaiwairai Dairies Limited | S119/023 | Rule R83: Discharge of collected animal effluent onto or into land - controlled activity | Amend | [Regarding (h)] A collaboratively produced section 32 analysis is needed. |
| Kaiwairai Dairies Limited | S119/024 | Rule R83: Discharge of collected animal effluent onto or into land - controlled activity | Amend | Amend rule by including the limits that are being used |
| Kaiwairai Dairies Limited | S119/025 | Rule R90: Manufacture and storage of silage and compost - permitted activity | Amend | Split rule into 2 separate rules - silage and compost. |
| Kaiwairai Dairies Limited | S119/026 | Rule R90: Manufacture and storage of silage and compost - permitted activity | Amend | Delete R90 (b) from silage rule |
| Kaiwairai Dairies Limited | S119/027 | Rule R90: Manufacture and storage of silage and compost - permitted activity | Amend | Delete rule or more consultation with the rural sector about what is being attempted to be achieved with this rule. |

| | | | | |
|---------------------------|----------|---|-------|--|
| Kaiwairai Dairies Limited | S119/028 | Rule R94: Cultivation or tilling of land - permitted activity | Amend | Delete R94 (a) and (b) as these are methods of achieving R94 (c), they could be attached as a note under the rule. |
| Kaiwairai Dairies Limited | S119/029 | Rule R95: Break-feeding - permitted activity | Amend | Delete R95 (a) as this is a method of achieving R54 (b), could be attached as a note under the rule. |
| Kaiwairai Dairies Limited | S119/030 | Rule R115: Culverts - permitted activity | Amend | Delete R115 (h) (iv) |
| Kaiwairai Dairies Limited | S119/031 | Rule R121: Maintenance of drains - permitted activity | Amend | Delete R121 (g) as (h) covers the required outcome. |
| Kaiwairai Dairies Limited | S119/032 | Rule R121: Maintenance of drains - permitted activity | Amend | Change R121 (h) <u>All reasonable steps shall be taken to return any stranded native fish back into the drain</u> |
| Kaiwairai Dairies Limited | S119/033 | Rule R121: Maintenance of drains - permitted activity | Amend | Delete R121 (j) and refer to reworded M14 [submission point s119/043] |
| Kaiwairai Dairies Limited | S119/034 | Rule R121: Maintenance of drains - permitted activity | Amend | Delete R121 (k) and refer to reworded M14 [submission point s119/043] |
| Kaiwairai Dairies Limited | S119/035 | Rule R122: Removing vegetation - permitted activity | Amend | Delete R122 (h) & (l) and (i) extend to two hours |
| Kaiwairai Dairies Limited | S119/036 | Rule R121: Maintenance of drains - permitted activity | Amend | [Should R121 be replaced by rule 17-20 from One Plan?] |

| | | | | |
|---------------------------|----------|--|------------|---|
| Kaiwaiwai Dairies Limited | S119/037 | Rule R136: Take and use of water - permitted activity | Not stated | Correct reference [note refers to Section 14(1)(b) of the RMA, should be Section 14(3)(b) &(e)?] |
| Kaiwaiwai Dairies Limited | S119/038 | Rule R136: Take and use of water - permitted activity | Amend | Amend by adding another step for properties above 40ha allow an additional 2 cubic meters per 10 hectares |
| Kaiwaiwai Dairies Limited | S119/039 | Rule R137: Farm dairy washdown and milk-cooling water - permitted activity | Not stated | [Recognise the water availability for food processing and hygiene] |
| Kaiwaiwai Dairies Limited | S119/040 | Rule R137: Farm dairy washdown and milk-cooling water - permitted activity | Amend | Delete "during the three years prior.... Plan (31.07.2015)" and add " in that year as determined by Rule 83". |
| Kaiwaiwai Dairies Limited | S119/041 | Rule R137: Farm dairy washdown and milk-cooling water - permitted activity | Amend | Change "washdown" to "cooling" |
| Kaiwaiwai Dairies Limited | S119/042 | Rule R143: Temporary water permit transfers - controlled activity | Amend | Change rule from Controlled to permitted status. |
| Kaiwaiwai Dairies Limited | S119/043 | Method M14: Maintenance of drains | Support | Support |
| Kaiwaiwai Dairies Limited | S119/044 | Method M13: Wairarapa water races | Amend | M13 needs to include the economic drive for water race establishment and operation. |
| Kaiwaiwai Dairies Limited | S119/045 | Method M18: Water use groups | Support | Support. |

| | | | | |
|---------------------------------------|----------|--|--------|--|
| Kaiwaiwai Dairies Limited | S119/046 | Regionally significant infrastructure | Amend | Include water races in definition |
| Kaiwaiwai Dairies Limited | S119/047 | Category 2 surface water body | Amend | If water races included in definition then only include those wider than 1 metre. |
| Kaiwaiwai Dairies Limited | S119/048 | Category B groundwater (directly connected) | Amend | Change typo error from Q to P |
| KapAg Ltd | S41/001 | Rule R83: Discharge of collected animal effluent onto or into land - controlled activity | Amend | Either R83(h) or the Section 32 report, should make it clear that to meet the condition, the people qualified to use the Dairy Effluent Storage Calculator include both accredited companies AND individuals that have passed the Massey University short course on farm dairy effluent system design. |
| Kapiti Coast Airport Holdings Limited | S99/001 | Schedule F1: Rivers and lakes with significant indigenous ecosystems | Oppose | <p>Amend the row relating to Wharemauku Stream in the table of Schedule F1 'Rivers and lakes with significant indigenous ecosystems' in the Proposed Plan to exclude Kapiti Coast Airport as follows:</p> <p><u>Stream and all tributaries , excluding those located on the site of Kapiti Coast Airport</u></p> <p>Such other additional or consequential relief as is necessary to achieve consistency with the above and to satisfy the concerns of KCAHL, including amendments to the objectives and policies.</p> |

| | | | | |
|---------------------------------------|---------|---|--------|--|
| Kapiti Coast Airport Holdings Limited | S99/002 | Schedule C2: Sites of significance to Te Atiawa ki Whakarongotai | Oppose | Amend the preamble of Schedule C 'Sites with significant mana whenua values' to define and clarify what constitutes the 'site' for each place/waterbody. OR Confirm that the site identified by 'Wharemauku Stream - East' and/or 'Wharemauku Stream - West' in Schedule C2 of the Proposed Plan is limited to the stream only and not the surrounding land of the Airport. Such other additional or consequential relief as is necessary to achieve consistency with the above and to satisfy the concerns of the KCAHL. |
| Kapiti Coast Airport Holdings Limited | S99/003 | Schedule F1: Rivers and lakes with significant indigenous ecosystems | Oppose | Delete any reference to streams identified as Schedule F1 from the Maps of the Proposed Plan affecting the site of the Kapiti Coast Airport. Such other additional or consequential relief as is necessary to achieve consistency with the above and to satisfy the concerns of KCAHL, including amendments to the objectives and policies. |
| Kapiti Coast Airport Holdings Limited | S99/004 | Policy P45: Managing adverse effects on sites with significant mana whenua values | Oppose | Amend the objectives, policies and rules in the Proposed Plan that relate to sites with significant mana whenua values to ensure that they are appropriately balanced with relevant consideration of, including the efficient provisions of, regionally significant infrastructure and related development. Such other additional or consequential relief as is necessary to achieve consistency with the above and to satisfy the concerns of the KCAHL. |
| Kapiti Coast Airport Holdings Limited | S99/005 | Map 4: Sites of significance to Te Atiawa ki Whakarongotai (Schedule C2) | Amend | Amend the Maps of the Proposed Plan to accurately identify the location of 'sites' with significant mana whenua values. Such other additional or consequential relief as is necessary to achieve consistency with the above and to satisfy the concerns of the KCAHL. |
| Kapiti Coast Airport Holdings Limited | S99/006 | Objective O12: Benefits of regionally significant infrastructure | Amend | Amend Objective O12 in Section 3.2 as follows: 'The social, economic, cultural and environmental benefits of regionally significant infrastructure and renewable energy generation activities are recognised enabled.' |

| | | | | |
|---------------------------------------|---------|---|---------|--|
| Kapiti Coast Airport Holdings Limited | S99/007 | Objective O13: Protecting regionally significant infrastructure | Support | Retain Objective O13 in Section 3.2 of the Proposed Plan as notified without modification. |
| Kapiti Coast Airport Holdings Limited | S99/008 | Policy P12: Benefits of regionally significant infrastructure and renewable electricity generation facilities | Amend | Amend Policy P12: The benefits of regionally significant infrastructure and renewable energy generation activities are recognised <u>enabled by</u> having regard to <u>consideration of</u> ... |
| Kapiti Coast Airport Holdings Limited | S99/009 | Policy P13: Existing regionally significant infrastructure and renewable electricity generation facilities | Amend | Amend Policy P13: The use, operation, maintenance, and upgrade of existing regionally significant infrastructure and renewable energy generation activities are beneficial and generally appropriate.' |
| Kapiti Coast Airport Holdings Limited | S99/010 | Policy P14: Incompatible activities adjacent to regionally significant infrastructure and renewable electricity generation activities | Support | Retain Policy P14 in Section 4.2 of the Proposed Plan as notified without modification. |
| Kapiti Coast Airport Holdings Limited | S99/011 | Policy P102: Reclamation or drainage of the beds of lakes and rivers | Amend | Amend Policy P102: The reclamation or drainage of the beds of lakes and rivers and natural wetlands (<u>including those listed in the Schedules of this Plan</u>) shall be avoided except where the reclamation or drainage is: ...(f) in respect of (a) to (e) there are no other <u>reasonable or</u> practicable alternative methods of providing for the activity... |

| | | | | |
|---------------------------------------|---------|---|---------|---|
| Kapiti Coast Airport Holdings Limited | S99/012 | Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity | Amend | New Rule R106a with appropriate matters of control in Section 5.5 as follows: <u>' Rule R106a: Activities of regionally significant infrastructure outside sites of significance - controlled</u> <u>Activities of regionally significant infrastructure located outside any outstanding natural wetland identified in Schedule A3 ('Wetlands with outstanding indigenous biodiversity values') or any significant natural wetland identified by Schedule F3 ('Identified significant wetlands') is a controlled activity.'</u> |
| Kapiti Coast Airport Holdings Limited | S99/014 | Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity | Amend | Amend the activity table at the start of Section 5.5 'Wetlands and beds of lakes and rivers' by inserting a new row as follows [see also S99/012]: Rules - Wetlands and beds of lakes and rivers <u>Rule R106a: Activities of regionally significant infrastructure outside sites of significance - Controlled activity</u> |
| Kapiti Coast Airport Holdings Limited | S99/015 | Policy P135: Safe passage | Support | Retain Policy P135 in Section 4.10.1 of the Proposed Plan as notified without modification. |
| Kapiti Coast Airport Holdings Limited | S99/016 | Policy P137: Airport height restriction areas | Support | Retain Policy P137 in Section 4.10.1 of the Proposed Plan as notified without modification. |
| Kapiti Coast Airport Holdings Limited | S99/017 | Rule R159: Structures in airport height restriction areas or navigation protection areas - prohibited activity | Support | Retain Rule P159 in Section 5.7.5 of the Proposed Plan as notified without modification |

| | | | | |
|---------------------------------------|---------|---|-------|---|
| Kapiti Coast Airport Holdings Limited | S99/020 | Rule R214: Reclamation and drainage for regionally significant infrastructure outside of sites of significance - discretionary activity | Amend | Rule R214: Reclamation and drainage for regionally significant infrastructure outside sites of significance - <u>Controlled activity</u> , discretionary activity Include appropriate matters for control. Such other additional or consequential relief as is necessary to achieve consistency with the above and to satisfy the concerns of the KCAHL. |
| Kapiti Coast Airport Holdings Limited | S99/021 | Objective O22: Hard engineering | Amend | Amend Objective O22 in Section 3.4 as follows: 'Objective O22 Hard engineering mitigation and protection methods are only used as a last <u>can be used as part of the best</u> practicable option.' |
| Kapiti Coast Airport Holdings Limited | S99/022 | Policy P4: Minimising adverse effects | Amend | Amend Policy P4 in Section 4.1 as follows : Where minimisation of adverse effects is required by policies in the Plan, minimisation means reducing <u>minimisation of</u> adverse effects of the activity to the smallest amount practicable and shall include <u>may include</u> : ...(e) designing the activity so that the scale or footprint of the activity is as small as practicable <u>appropriately reduced</u> .' |

| | | | | |
|---------------------------------------|---------|---|---------|--|
| Kapiti Coast Airport Holdings Limited | S99/023 | Policy P41: Managing adverse effects on ecosystems and habitats with significant indigenous biodiversity values | Amend | <p>Amend Policy P41 in Section 4.1 by deleting the last paragraph as follows: '</p> <p>Where more than minor adverse effects on ecosystems and habitats with significant indigenous biodiversity values identified in Policy P40 cannot be avoided, remedied, mitigated or redressed through biodiversity offsets, the activity is inappropriate. . . . '</p> <p>OR</p> <p><or</p> <p>Amend the last paragraph of Policy P41 in Section 4.1 as follows: ' cannot be avoided, remedied, mitigated or redressed through biodiversity offsets, <u>the effects of the activity is</u> <u>are</u> inappropriate. . . . '</p> <p>AND</p> <p>Such other additional or consequential relief as is necessary to achieve consistency with the above and to satisfy the concerns of the KCAHL.</p> <p></or</p> |
| Kapiti Coast Airport Holdings Limited | S99/024 | Policy P78: Managing stormwater from large sites | Support | Retain Policy P78 in Section 4.8.3 of the Proposed Plan as notified without modification. |
| Kapiti Coast Airport Holdings Limited | S99/025 | Rule R48: Stormwater from an individual property - permitted activity | Amend | <p>'Rule R48: Stormwater from an individual property - permitted activity The discharge of stormwater into water, or onto or into land where it may enter a surface water body or coastal water, from an individual property <u>(including any property that contains regionally significant infrastructure)</u> is a permitted activity, provided the following conditions are met: . . . '</p> |

| | | | | |
|---------------------------------------|---------|--|---------|---|
| Kapiti Coast Airport Holdings Limited | S99/026 | Rule R49: Stormwater to land - permitted activity | Amend | Amend Rule R49 in Section 5.2.3 'Stormwater' of the Proposed Plan as follows : 'Rule R49: Stormwater to land - permitted activity The discharge of stormwater onto or into land, including where contaminants may enter groundwater, from an individual property (<u>including any property that contains regionally significant infrastructure</u>) is a permitted activity provided the following conditions are met:' |
| Kapiti Coast Airport Holdings Limited | S99/027 | Rule R52: Stormwater from large sites - restricted discretionary activity | Oppose | Delete Rule R52 and reference to R52 from activity table at the start of Section 5.2 |
| Kapiti Coast Airport Holdings Limited | S99/029 | Rule R67: Discharges inside sites of significance - non complying activity | Amend | Amend Rule R67 in Section 5.2.8 'All other discharges' in the Proposed Plan as follows: 'Rule R67: Discharges inside sites of significance - non-complying activity The discharge of water or contaminants into water, or onto or into land where it may enter water: ...(b) that is not permitted by Rules R42, R43, R44 , or R45, <u>R48 or R49</u> is a non-complying activity.' |
| Kapiti Coast Airport Holdings Limited | S99/030 | Rule R99: Earthworks-permitted activity | Support | Retain Rule R99, and such other additional or consequential relief as is necessary to achieve consistency with the above and to satisfy the concerns of the KCAHL. |
| Kapiti Coast Airport Holdings Limited | S99/031 | Rule R101: Earthworks and vegetation clearance - discretionary activity | Support | Retain Rule R101 and such other additional or consequential relief as is necessary to achieve consistency with the above and to satisfy the concerns of the KCAHL. |

| | | | | |
|---------------------------------------|----------|--|-----------------|---|
| Kapiti Coast Airport Holdings Limited | S99/032 | Regionally significant infrastructure | Support in part | 'Regionally significant infrastructure includes: • Paraparaumu Airport <u>Kapiti Coast Airport</u> ...' And such other additional or consequential relief as is necessary to achieve consistency with the above and to satisfy the concerns of the KCAHL. |
| Kapiti Coast Airport Holdings Limited | S99/033 | 13 Maps | Support in part | Amend the Maps contained in the Proposed Plan that relate to the Kapiti Coast Airport showing lines, labels and height restrictions to ensure they correctly identify current and future Airport operations. And such other additional or consequential relief as is necessary to achieve consistency with the above and to satisfy the concerns of the KCAHL. |
| Kapiti Coast District Council | S117/001 | 1.5.1 Statutory framework | Amend | Insert a new paragraph under paragraph 2 page 9 "District Plans are regulatory, and restrict use of land that would otherwise be unregulated. District Plans, like Regional Plans, must give effect to national and regional policy statements. Activities can span jurisdictional boundaries, and trigger requirements under both regional and district plans" |
| Kapiti Coast District Council | S117/002 | 1.5.2 Community views, scientific and technical information - identifying issues | Amend | Insert a new paragraph 1.5.3 "Role of territorial authorities" as follows: "Many issues in the region are shared with the territorial authorities. The territorial authorities can have roles as joint promoters, for example through supporting initiatives through funds and other incentives, as service providers managing activities such as stormwater and wastewater that have positive environmental outcomes, as regulators in common for activities that span boundaries (such as vegetation in wetlands) or affect both regional and district functions (such as earthworks), and as joint implementers of matters such as issuing consents, monitoring, and enforcement. To achieve the best outcomes for communities therefore the different agencies need to work together. |
| Kapiti Coast District Council | S117/003 | 1.5.2 Community views, scientific and technical information - identifying issues | Amend | Insert a new paragraph 1.5.4 "Recognising relationships with tangata whenua in the territorial authority dimension" as follows: Relationships between territorial authorities and tangata whenua in the context of territorial authority responsibilities are foundational for delivering a partnership perspective in managing the environment at the territorial level. While the same iwi are involved, the dimensions are different. These relationships will be recognised as a strong link point in the development of collaborative programmes between community and regional and territorial authorities |

| Kapiti Coast District Council | S117/055 | Policy P148: Motor vehicles in sites with significant value | Support | Retain the provision |
| Kapiti Coast District Council | S117/056 | Rule R42: Minor discharges - permitted activity | Amend | <p>Option 1: Create new rule "Minor discharges from dewatering activities for regionally significant infrastructure" as follows: The discharge of contaminants into water, or onto or into land where it may enter water that is not permitted, controlled, restricted discretionary, discretion, non-complying or prohibited by any other rule in this Plan is a permitted activity provided the following conditions are met:</p> <p>(a) where the discharge may enter groundwater, the discharge is not located within 50m of a bore used for water abstraction for potable supply or stock water, and</p> <p>(b) if the discharge is from dewatering, the discharge is not from contaminated land, and</p> <p>(c) the discharge shall not cause any erosion of the channel or banks of the receiving water body or the coastal marine area, and</p> <p>(d) the discharge shall not give rise to the following effects after the zone of reasonable mixing:</p> <p>(i) a change in the pH of 0.5pH unit, or</p> <p>(ii) the production of conspicuous oil or grease films, scums or foams, or floatable or suspended materials, or</p> <p>(iii) any conspicuous change in the colour or visual clarity, or</p> <p>(iv) any emission of objectionable odour, or</p> <p>(v) the fresh water is unsuitable for consumption by farm animals, or</p> <p>(vi) any significant adverse effects on aquatic life</p> |

| | | | | |
|-------------------------------|----------|---|-------|--|
| Kapiti Coast District Council | S117/057 | Rule R42: Minor discharges - permitted activity | Amend | Option 2: Create new rule "Minor discharges from dewatering activities for regionally significant infrastructure - controlled activity" as follows: the discharge of water from dewatering activities for regionally significant infrastructure that does not meet permitted activity standards is a controlled activity |
| Kapiti Coast District Council | S117/058 | Rule R50: Stormwater from a local authority network at plan notification - controlled activity | Amend | Remove "Matters of Control" point 3 "Duration of consent up to a maximum of five years" |
| Kapiti Coast District Council | S117/059 | Rule R51: Stormwater from a local authority network two years after public notification - restricted discretionary activity | Amend | Rule 51 is categorised as "controlled" |
| Kapiti Coast District Council | S117/060 | Rule R99: Earthworks-permitted activity | Amend | Retain provision, and insert footnote *see also provisions in the relevant district plan" |
| Kapiti Coast District Council | S117/061 | Rule R100: Vegetation clearance on erosion prone land - permitted activity | Amend | Retain provision, and insert footnote *see also provisions in the relevant district plan" |
| Kapiti Coast District Council | S117/062 | Rule R101: Earthworks and vegetation clearance - discretionary activity | Amend | Retain provision, and insert footnote ""*see also provisions in the relevant district plan" |
| Kapiti Coast District Council | S117/063 | Rule R102: Plantation forestry harvesting on erosion prone land - permitted activity | Amend | Retain provision, and insert footnote ""*see also provisions in the relevant district plan" |

| | | | | |
|-------------------------------|----------|--|-------|---|
| Kapiti Coast District Council | S117/064 | Rule R103: Plantation forestry harvesting - controlled activity | Amend | Retain provision, and insert footnote "**see also provisions in the relevant district plan" |
| Kapiti Coast District Council | S117/065 | Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity | Amend | Retain provision, and insert footnote "**see also provisions in the relevant district plan" |
| Kapiti Coast District Council | S117/066 | Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity | Amend | Retain provision, and insert footnote "**see also provisions in the relevant district plan" |
| Kapiti Coast District Council | S117/067 | Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity | Amend | Retain provision, and insert footnote "**see also provisions in the relevant district plan" |
| Kapiti Coast District Council | S117/068 | Rule R107: Activities in natural wetlands and significant natural wetlands - discretionary activity | Amend | Retain provision, and insert footnote "**see also provisions in the relevant district plan" |

| | | | | |
|-------------------------------|----------|---|-------|--|
| Kapiti Coast District Council | S117/069 | Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity | Amend | Retain provision, and insert footnote "**see also provisions in the relevant district plan" |
| Kapiti Coast District Council | S117/070 | Rule R109: Activities in outstanding natural wetlands - discretionary activity | Amend | Retain provision, and insert footnote "**see also provisions in the relevant district plan" |
| Kapiti Coast District Council | S117/071 | Rule R110: Activities in outstanding natural wetlands - non-complying activity | Amend | Retain provision, and insert footnote "**see also provisions in the relevant district plan" |
| Kapiti Coast District Council | S117/072 | Rule R140: Dewatering - permitted activity | Amend | Option 1: Delete part of subclause (a) as follows "but does not exceed one month", or |
| Kapiti Coast District Council | S117/073 | Rule R140: Dewatering - permitted activity | Amend | Option 2: Create new rule "Dewatering for regionally significant infrastructure" as follows: The take of water and the associated diversion and discharge of that water for the purpose of dewatering a site, including but not limited to, maintenance, excavation, construction or geotechnical testing for regionally significant infrastructure, is a permitted activity, provided the following conditions are met: (a) the take continues only for the time required to carry out the work, and (b) the take and diversion and discharge is not from, onto or into contaminated land or potentially contaminated land, and (c) the take does not cause ground subsidence, and (d) the take does not deplete water in a water body, and (e) there is no flooding beyond the boundary of the property. |
| Kapiti Coast District Council | S117/074 | Rule R140: Dewatering - permitted activity | Amend | Create new rule "Dewatering activities for regionally significant infrastructure - controlled activity" The take and use of water for dewatering activities for regionally significant infrastructure that does not meet permitted activity standards is a controlled activity |

| | | | | |
|-------------------------------|----------|--|---------|--|
| Kapiti Coast District Council | S117/075 | Rule R189: Clearance of stormwater pipes - permitted activity | Support | Retain the provision |
| Kapiti Coast District Council | S117/076 | Rule R191: Disturbance associated with beach grooming - permitted activity | Support | Retain the provision |
| Kapiti Coast District Council | S117/077 | Rule R193: River and stream mouth cutting - permitted activity | Support | Retain the provision |
| Kapiti Coast District Council | S117/078 | Rule R197: Motor vehicles for certain purposes - permitted activity | Support | Retain the provision |
| Kapiti Coast District Council | S117/079 | Method M3: Wellington regional hazards management strategy | Amend | Amend Method 3 to read "Wellington Regional Council will work with city and district councils and the community to: (a) identify areas of significant natural hazards, and (b) develop and implement a hazard management strategy, and (c) produce maps of areas of significant natural hazards and other instruments by 2017 for inclusion in the Plan by change or variation |
| Kapiti Coast District Council | S117/080 | Method M4: Sea level rise | Support | Retain |
| Kapiti Coast District Council | S117/081 | Method M15: Regional stormwater working group | Support | Retain |
| Kapiti Coast District Council | S117/082 | Method M20: Wetlands | Support | Retain |

| | | | | |
|-------------------------------|----------|---|---------|--|
| Kapiti Coast District Council | S117/083 | Schedule F: Ecosystems and habitats with significant indigenous biodiversity values | Support | Retain the scheduling approach |
| Kapiti Coast District Council | S117/084 | Maps 42-48: Coastal marine area and river mouth boundaries | Amend | Council establishes, and includes a mapped boundary to the CMA, and prepares maps that show the location of coastal protection structures in relation to the CMA boundary within the Regional Plan |
| Kate Reedy | S338/001 | 5.4.3 Livestock exclusion | Oppose | Submitter does not support livestock exclusion rules as the fencing of waterways will be too costly for farmers. |
| Kate Reedy | S338/002 | 5.4.4 Earthworks and vegetation clearance | Oppose | Submitter does not support earthworks and vegetation clearance [rules] as vegetation clearance is vital for farm productivity. |
| Kayla Hawea | S215/001 | Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity | Oppose | Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach. |
| Kennott Family Trust | S297/001 | 10 Kapiti Coast Whaitua | Oppose | [Use the] whaitua process to consider whether non-compulsory values [for water quality] be included in the Plan and then if necessary/appropriate through a variation to the Plan. |
| Kennott Family Trust | S297/002 | 10 Kapiti Coast Whaitua | Amend | [Remove the provisions that give effect to non-compulsory NPS-FW values ahead of the Whaitua process; Use the whaitua process to consider whether non-compulsory values be included in the Plan.] |
| Kennott Family Trust | S297/003 | Entire Plan | Amend | Delete or amend any provisions to remove references to the non-compulsory values for water quality and water quantity. Remove all notes relating to the Whaitua process. |
| Kennott Family Trust | S297/004 | Policy P41: Managing adverse effects on ecosystems and habitats with significant indigenous biodiversity values | Oppose | [Oppose any adherence to a mitigation hierarchy and any attempt to define "minimisation of effects"] |

| | | | | |
|----------------------|----------|---|----------------|---|
| Kennott Family Trust | S297/005 | Policy P45: Managing adverse effects on sites with significant mana whenua values | Oppose | [Oppose any adherence to a mitigation hierarchy and any attempt to define "minimisation of effects"] |
| Kennott Family Trust | S297/006 | Policy P32: Adverse effects on aquatic ecosystem health and mahinga kai | Oppose | [Oppose any adherence to a mitigation hierarchy and any attempt to define "minimisation of effects"] |
| Kennott Family Trust | S297/007 | Policy P4: Minimising adverse effects | Oppose | Policy P4: Minimising adverse effects Where minimisation of adverse effects is required by policies in the Plan, minimisation means reducing adverse effects of the activity to the smallest amount practicable and shall include: (a) consideration of alternative locations and methods for undertaking the activity that would have less adverse effects, and (b) locating the activity away from areas identified in Schedule A (outstanding water bodies), Schedule C (mana whenua), Schedule E (historic heritage), Schedule F (indigenous biodiversity), and (c) <u>where possible</u> , timing the activity, or the adverse effects of the activity, to avoid times of the year when adverse effects may be more severe, or times when receiving environments are more sensitive to adverse effects, and... |
| Kennott Family Trust | S297/008 | Policy P40: Ecosystems and habitats with significant indigenous biodiversity values | Amend | Amend P40 "Protect, and <u>where possible</u> restore <u>over time</u> , the following ecosystems and habitats with significant indigenous biodiversity values:..." |
| Kennott Family Trust | S297/009 | Entire Plan | Oppose in part | [Oppose all provisions relating to mahinga kai as currently worded; see submission point on definition of mahinga kai] |

| | | | | |
|----------------------|----------|--------------------------------------|---------|---|
| Kennott Family Trust | S297/010 | Mahinga kai | Amend | <p>Amend the definition of mahinga kai:</p> <ul style="list-style-type: none"> • "Mahinga kai" - food gathering, places of food - protection of water resources so that kai would be safe to harvest and eat and knowledge transfer is present; • "Mahinga kai -- kei te ora te mauri" - the mauri of the place is intact - the freshwater resources would be available for customary use at some places (but not everywhere); • "Mahinga kai fishing" - that the freshwater resource would be allow for fish numbers to be sufficient and suitable for human consumption. |
| Kennott Family Trust | S297/011 | Entire Plan | Amend | Amend the plan to define <u>protected</u> customary rights and protect those protected customary rights as set out in section 6(g) of the Act. |
| Kennott Family Trust | S297/012 | Objective O14: Maori relationships | Support | [Not stated] |
| Kennott Family Trust | S297/013 | Objective O15: Kaitiakitanga | Support | [Not stated] |
| Kennott Family Trust | S297/014 | Objective O16: Nga Taonga Nui a Kiwa | Support | [Not stated] |
| Kennott Family Trust | S297/015 | Entire Plan | Oppose | Amend the Plan to list prohibited activities in sites of significance to mana whenua instead of relying on a third party advisor (i.e. cultural impact assessment) as that is likely to be ultra vires. |
| Kennott Family Trust | S297/016 | Entire Plan | Oppose | Remove any provisions that seek to protect, maintain or enhance sites that would come under the NPS-FW definition of 'Te Hauora o te taiao/The health and mauri of the Environment in respect of Natural form and character, as this is a non-compulsory value and the inclusion of provisions providing for it in the Plan should be determined through the Whaitua process and through a plan change. |

| | | | | |
|----------------------|----------|--|-------|--|
| Kennott Family Trust | S297/017 | Policy P63: Improving water quality for contact recreation and Maori customary use | Amend | Remove all notes relating to the Whaitua process. Policy P63: Improving water quality for contact recreation and maori customary use... Note: Whaitua committees will identify methods and timeframes to improve water quality in all first and second priority water bodies listed in Schedule H2 (priority water bodies) within their whaitua. These may be incorporated into the Plan by a future plan change or variation. |
| Kennott Family Trust | S297/018 | Policy P65: Minimising effects of nutrient discharges | Amend | Policy 65: Minimising effects of nutrient discharges The effects of nutrient discharges from agricultural activities that may enter water shall be minimised through the use of: ... (d) regulatory and non-regulatory methods, and (e) plan changes or variations resulting from catchment specific recommendations from the Whaitua committee process. |
| Kennott Family Trust | S297/019 | Schedule H1: Regionally significant primary contact recreation water bodies | Amend | Amend the Plan by deleting the regionally significant primary contact recreation water bodies listed in Schedule H1. |
| Kennott Family Trust | S297/020 | Map 20: Significant primary contact recreation rivers and lakes (Schedule H) | Amend | Delete the rivers shown on Map 20 |
| Kennott Family Trust | S297/021 | Objective O5: Fresh and coastal water | Amend | Fresh water bodies and the coastal marine area, as a minimum, are managed to: (a) safeguard aquatic ecosystem health and mahinga kai ; (b) provide for contact recreation <u>secondary recreational contact and/or provision of potable water</u> and Maori customary use, and (c) in the case of fresh water, provide for the health needs of people <u>secondary recreational contact and/or provision of potable water.</u> Add a new definition for 'secondary recreational contact'. |

| | | | | |
|----------------------|----------|---|-------|--|
| Kennott Family Trust | S297/022 | Objective O24: Contact recreation and Maori customary use | Amend | Amend Objective 24: "Rivers, lakes, natural wetlands, and coastal water are suitable for <u>secondary recreational contact and/or provision of potable water, and significant contact recreation</u> fresh water bodies are suitable for <u>contact recreation</u> contact recreation and customary use , including by:... |
| Kennott Family Trust | S297/023 | Objective O25: Aquatic ecosystem health and mahinga kai | Amend | Objective O25 "To safeguard aquatic ecosystem health mahinga kai in fresh water bodies and coastal marine area: (a) water quality, flows , water levels and aquatic and coastal habitats are managed to maintain aquatic ecosystem health and mahinga kai , and (b) restoration of aquatic ecosystem health and mahinga kai is encouraged <u>over time</u> , and... |
| Kennott Family Trust | S297/024 | Policy P10: Contact recreation and Maori customary use | Amend | Amend Policy 10: The management of natural resources shall have particular regard to the actual and potential adverse effects on contact recreation <u>the health and mauri of people involved in secondary contact recreation</u> and Maori customary use <u>sites</u> , in fresh and coastal water. including by: (a) Providing water quality and, in rivers, flows suitable for the community's objectives for contact recreation and Maori customary use (b) managing activities to maintain or enhance contact recreation values in the beds of lakes and rivers, including by retaining existing swimming holes and maintaining access to existing contact recreation locations, and (c) encouraging improved access to suitable swimming locations, and (d) providing for the passive recreation and amenity values of fresh water bodies and the coastal marine area. |

| | | | | |
|----------------------|----------|---|-------|---|
| Kennott Family Trust | S297/025 | Policy P31: Aquatic ecosystem health and mahinga kai | Amend | <p>Amend Policy P31: Aquatic ecosystem health and mahinga kai shall be maintained, or <u>where possible/identified</u> restored <u>over time</u>, by managing the effects of use and development on physical, chemical and biological processes to:</p> <p>(a) minimise <u>limit</u> adverse effects on natural flow characteristics and hydrodynamic processes, and the natural pattern <u>where they exist</u>, and <u>natural</u> range of water level fluctuations in rivers, lakes and natural wetlands, and</p> <p>(b) minimise <u>limit</u> adverse effects on aquatic habitat diversity and quality, including the form, frequency and pattern of pools, runs, and riffles in rivers, and the natural form of rivers, lakes, natural wetlands and coastal habitats, and</p> <p>(c) minimise <u>limit</u> adverse effects on habitats that are important to the life cycle and survival of aquatic species, and</p> <p>(d) Minimise <u>limit</u> adverse effects at times which will most affect the breeding spawning, and dispersal or migration of aquatic species, and</p> <p>(e) avoid creating barriers to the migration or movement of indigenous aquatic species, and restore the connections between fragmented aquatic habitats where appropriate, and</p> <p>(f) minimise <u>limit</u> adverse effects on <u>established</u> riparian habitats and restore them where practicable, and...</p> |
| Kennott Family Trust | S297/026 | Policy P32: Adverse effects on aquatic ecosystem health and mahinga kai | Amend | <p>Amend Policy P32 Significant adverse effects on aquatic ecosystem health and mahinga kai shall be managed by:</p> <p>(a) avoiding significant adverse effects, and (b) where significant adverse effects cannot be avoided, remedying them, and (c) where significant adverse effects cannot be remedied, mitigating them, and (d) <u>where significant adverse effects cannot be avoided, remedied or mitigated and/or residual <u>significant</u> adverse effects remain, it is appropriate to consider the use of biodiversity offsets.</u></p> <p>Proposals for mitigation and biodiversity offsetting will be assessed against the principles listed in Schedule G (biodiversity offsetting).</p> |

| | | | | |
|----------------------|----------|---|--------|--|
| Kennott Family Trust | S297/027 | Policy P62: Promoting discharges to land | Amend | Amend Policy P62: The discharge of contaminants to land is promoted over direct discharges to water, particularly where there are adverse effects on: (a) aquatic ecosystem health and mahinga kai , or (b) <u>secondary recreational contact and/or provision of potable water</u> contact recreation and Māori customary use. |
| Kennott Family Trust | S297/028 | Policy P70: Managing point source discharges for aquatic ecosystem health and mahinga kai | Amend | Amend Policy P70: Managing point source discharges for aquatic ecosystem health and mahinga kai Where an objective in Table 3.4, Table 3.5, Table 3.6 or Table 3.8 of Objective O25 is not met, point source discharges to water shall be managed in the following way:... |
| Kennott Family Trust | S297/029 | Objective O25: Aquatic ecosystem health and mahinga kai | Amend | Amend the criteria of tables 3.4, 3.5, 3.6, 3.7 and 3.8 so the criteria are only assessing aquatic ecosystem health not mahinga kai. |
| Kennott Family Trust | S297/030 | Schedule G: Principles to be applied when proposing and considering mitigation and offsetting in relation to biodiversity | Amend | Delete Schedule G. |
| Kennott Family Trust | S297/031 | Objective O19: Natural processes | Oppose | Delete |
| Kennott Family Trust | S297/032 | Policy P26: Natural processes | Amend | Amend Policy P26: Natural processes Use and development will be managed to minimise <u>limit adverse</u> effects on the integrity and functioning of natural processes <u>and minimise adverse effects on significant habitats and landscapes.</u> |

| | | | | |
|----------------------|----------|--|-------|---|
| Kennott Family Trust | S297/033 | Objective O28: Extent of wetlands | Amend | Amend Objective O28: The extent of natural wetlands is maintained or increased and <u>where possible</u> their <u>extent and</u> condition is restored <u>over time</u> . |
| Kennott Family Trust | S297/034 | Policy P30: Natural buffers | Amend | Amend Policy 30: The adverse effects of use and development on natural features such as beaches, dunes or wetlands that buffer development from natural hazards shall be minimised, <u>if that use of development reduces the ability of that feature to operate as a buffer.</u> |
| Kennott Family Trust | S297/035 | Objective O3: Mauri | Amend | Amend Objective O3: Mauri is sustained and <u>where possible/identified</u> enhanced <u>over time</u> , particularly the mauri of fresh and coastal waters. |
| Kennott Family Trust | S297/036 | Objective O9: Recreational values | Amend | Amend O9: The recreational values of the coastal marine area, rivers and lakes and their margins and natural wetlands are maintained and <u>where possible/identified</u> enhanced <u>over time</u> . |
| Kennott Family Trust | S297/037 | Objective O11: Maori customary use | Amend | Amend O11: Opportunities for Māori customary use of the coastal marine area, rivers and lakes and their margins and natural wetlands for cultural purposes are recognised, maintained and <u>where possible/identified</u> [enhanced] improved <u>over time</u> . |
| Kennott Family Trust | S297/038 | Objective O23: Maintain or improve water quality | Amend | Amend O23 The quality of water in the region's rivers, lakes, natural wetlands, groundwater and the coastal marine area is maintained <u>and where possible/identified</u> or improved <u>over time</u> . |
| Kennott Family Trust | S297/039 | Objective O28: Extent of wetlands | Amend | Amend O28 The extent of natural wetlands is maintained or <u>where possible/identified</u> increased and their condition is restored <u>over time</u> . |

| | | | | |
|----------------------|----------|---|-------|--|
| Kennott Family Trust | S297/040 | Objective O29: Fish passage | Amend | Amend O29 Use and development provides for the passage of fish and koura, and <u>where possible/identified</u> the passage of indigenous fish and koura is restored <u>over time</u> . |
| Kennott Family Trust | S297/041 | Objective O30: Trout | Amend | Amend O30 The habitat of trout identified in Schedule I (trout habitat) is maintained and <u>where possible/identified</u> improved [restored] <u>over time</u> . |
| Kennott Family Trust | S297/042 | Objective O33: Significant mana whenua values | Amend | Amend O33 Sites with significant <u>The values of mana whenua values sites are recognised and provided for [protected and restored] [and where possible/identified] restored over time</u> |
| Kennott Family Trust | S297/043 | Objective O35: Significant indigenous biodiversity values | Amend | Amend O35 Ecosystems and habitats with significant indigenous biodiversity values are protected and <u>where possible/identified</u> restored <u>over time</u> . |
| Kennott Family Trust | S297/044 | Objective O38: Special amenity landscapes | Amend | Amend O38 Identified special amenity landscape values are maintained <u>and where possible/identified</u> [or] enhanced <u>over time</u> . |
| Kennott Family Trust | S297/045 | Policy P17: Mauri | Amend | Amend P17: The mauri of fresh and coastal waters shall be recognised as being important to Māori by...: (b) providing for activities that sustain and <u>where possible/identified</u> enhance mauri <u>over time</u> , and... |
| Kennott Family Trust | S297/046 | Policy P38: Restoration of wetlands | Amend | Amend P38 The restoration of natural wetlands and the construction of artificial wetlands to provide habitat for indigenous flora and fauna, and to carry out the physical and ecological functions of natural wetlands, shall be encouraged <u>where possible/identified</u> , <u>over time</u> . |

| | | | | |
|----------------------|----------|---|-------|---|
| Kennott Family Trust | S297/047 | Policy P44: Protection and restoration of sites with significant mana whenua values | Amend | Amend P44 <u>The values of mana whenua sites are recognised and provided for and where possible/identified restored over time.</u> Sites with significant mana whenua values identified in Schedule C (mana whenua) shall be protected and/or restored. |
| Kennott Family Trust | S297/048 | Policy P44: Protection and restoration of sites with significant mana whenua values | Amend | See submission point S297/047 Amend P44 Policy P44: Protection and restoration of sites with significant mana whenua values Sites with significant mana whenua values <u>shall be</u> identified in Schedule C (mana whenua) shall be protected and/or restored. |

| | | | | |
|----------------------|----------|--|-------|--|
| Kennott Family Trust | S297/049 | Policy P45: Managing adverse effects on sites with significant mana whenua values | Amend | <p>Amend P45</p> <p>Policy P45: Managing adverse effects on sites with significant mana whenua values</p> <p>In the first instance, <u>Where possible alternative locations should be sought for activities in sites with significant mana whenua values identified in Schedule C (mana whenua) shall be avoided.</u></p> <p>If the site cannot be avoided, more than minor adverse effects on the significant mana whenua values must be evaluated through a cultural impact assessment undertaken by the relevant iwi authority or iwi authorities. <u>If alternative locations can not be found, the activities undertaken within these sites shall recognise and provide for the values mana whenua hold for that site as listed in Schedule C.</u> The adverse effects of activities shall be managed in accordance with tikanga and kaupapa Māori, as recommended in the cultural impact assessment by:</p> <p>(a) avoiding more than minor adverse effects, and</p> <p>(b) where more than minor adverse effects cannot be avoided, remedying them, and</p> <p>(c) where more than minor adverse effects cannot be remedied, mitigating them, and</p> <p>(d) receiving written consent of the iwi authority.</p> <p>Where more than minor adverse effects on significant mana whenua values identified in Schedule C (mana whenua) cannot be avoided, remedied or mitigated, the activity is inappropriate. Offsetting of effects in sites with significant mana whenua values is inappropriate.</p> |
| Kennott Family Trust | S297/051 | Entire Plan | Amend | [Remove] any provisions that seek to improve water quality with the exception of those water-bodies that have already been overallocated. |
| Kennott Family Trust | S297/053 | Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity | Amend | Amend R82(a) to provide for best practice when undertaking aerial top-dressing as opposed to a blanket no discharge rule. |
| Kennott Family Trust | S297/054 | Rule R83: Discharge of collected animal effluent onto or into land - controlled activity | Amend | Amend R83 to provide for a variation to Rule 83(g) and any other relevant provisions which allows an extended period of time, in line with the timeframe granted to local authorities to upgrade stormwater systems (R50). |

| | | | | |
|----------------------|----------|--|--------|---|
| Kennott Family Trust | S297/056 | Rule R94: Cultivation or tilling of land - permitted activity | Amend | Amend R94 (b) to encourage best practice of starting break-feeding at the far side of the paddock to the waterbody. Amend the activity status so that not meeting a permitted activity condition would result in a controlled activity status rather than discretionary. Remove requirement for 5m setback. |
| Kennott Family Trust | S297/057 | Rule R95: Break-feeding - permitted activity | Oppose | Amend R95 to encourage best practice of starting break-feeding at the far side of the paddock to the waterbody. Amend the activity status so that not meeting a permitted activity condition would result in a controlled activity status rather than discretionary. Remove requirement for 5m setback. |
| Kennott Family Trust | S297/058 | Rule R96: Cultivation and break-feeding - discretionary activity | Oppose | Amend R96 to encourage best practice of starting break-feeding at the far side of the paddock to the waterbody. Amend the activity status so that not meeting a permitted activity condition would result in a controlled activity status rather than discretionary. |
| Kennott Family Trust | S297/067 | Rule R121: Maintenance of drains - permitted activity | Amend | Have more practicable provisions that allow for a machine to clear both sides and the middle of the drain at one point in time. |
| Kennott Family Trust | S297/068 | Rule R121: Maintenance of drains - permitted activity | Amend | Amend the plan to include a 'best practicable provision' which states 'where possible, all fish and koura should be returned to the drain'. |
| Kennott Family Trust | S297/069 | Rule R121: Maintenance of drains - permitted activity | Amend | Amend rule to allow the removal of woody debris with a diameter greater than 0.2m from drains. |
| Kennott Family Trust | S297/075 | Rule R136: Take and use of water - permitted activity | Amend | Amend Rule to return to the limits set under the Operative Regional [freshwater] plan until the Whaitua process identifies which water bodies have been over allocated. |
| Kennott Family Trust | S297/076 | 5.5.3 Activities in wetlands | Amend | [Do not include all ephemeral and wet areas as 'natural wetlands'; identify wetlands with significant values and protect them] |
| Kennott Family Trust | S297/077 | 5.6.2 Take and use of water | Oppose | Maintain the existing limits [in the Regional Freshwater Plan]. |

| | | | | |
|----------------------|----------|--|-------|---|
| Kennott Family Trust | S297/078 | Rule R36: Agrichemicals - permitted activity | Amend | <p>Amend R36 to be limited to a specific distance from the area which is being sprayed.</p> <p>(g) the applicator, manager or owner of the property shall prepare a spray plan at least once per annum, and:</p> <p>... (iv) supply a copy of the spray plan at least 24 hours prior to the discharge of agrichemicals <u>verbally notify at least 24 hours prior to the discharge of agrichemicals the owner/occupier of a property which is either identified as a sensitive area or is within 50 metres of the area which will be affected by the discharge or likely to be directly affected by the discharge, or requests a copy, and</u>(h) ...</p> <p>(i) for ground-based applications where the applicator is not a commercial applicator the applicator shall:</p> <p>(i) hold a GROWSAFE® Introductory Certificate, or</p> <p>(ii) be supervised by a person holding a current GROWSAFE® Advanced Certificate, and</p> |
| Kennott Family Trust | S297/079 | Policy P42: Protecting and restoring ecosystems and habitats with significant indigenous biodiversity values | Amend | <p>Amend P42:</p> <p>In order to protect the ecosystems and habitats with significant indigenous biodiversity values identified in Policy P40, particular regard shall be given to managing the adverse effects of use and development in surrounding areas on physical, chemical and biological processes to: (a) maintain ecological connections within and between these habitats, or (b) provide for the enhancement of ecological connectivity between fragmented habitats through biodiversity offsets, and (c) provide adequate buffers around ecosystems and habitats with significant indigenous biodiversity values, and(d) avoid cumulative adverse effects on, and the incremental loss of the values of these ecosystems and habitats.</p> |
| Kennott Family Trust | S297/080 | Objective O9: Recreational values | Amend | <p>Amend O9:</p> <p>The recreational values of the coastal marine area, rivers, lakes and their margins and natural wetlands are maintained and <u>where possible, enhanced, over time.</u></p> |
| Kennott Family Trust | S297/081 | Objective O11: Maori customary use | Amend | <p>Amend O11:</p> <p>Opportunities for Māori customary use of the coastal marine area, rivers and lakes and their margins and natural wetlands for cultural purposes are recognised, maintained and <u>where possible, improved, over time.</u></p> |

| | | | | |
|----------------------|----------|--|--------|---|
| Kennott Family Trust | S297/082 | Objective O23: Maintain or improve water quality | Amend | Amend O23: The quality of water in the region's rivers, lakes, natural wetlands, groundwater and the coastal marine area is maintained, <u>or where possible, improved, over time.</u> |
| Kennott Family Trust | S297/083 | Policy P3: Precautionary approach | Amend | Amend P3: Use and development shall be managed with a precautionary approach where there is limited information regarding the <u>risk of</u> adverse effects the activity may have on this environment <u>may be both high and likely to occur.</u> |
| Kennott Family Trust | S297/084 | Objective O47: Sediment runoff | Amend | Amend O47: The amount of sediment-laden runoff entering water is reduced <u>over time.</u> |
| Kennott Family Trust | S297/085 | Policy P20: Exercise of kaitiakitanga | Amend | Amend P20: (a) managing natural and physical resources in sites with significant [manage] mana whenua values listed in Schedule C (mana whenua) in accordance with tikanga and kaupapa Maori as exercised by mana whenua, <u>when possible;</u> ... |
| Kennott Family Trust | S297/086 | Policy P35: Restoring fish passage | Amend | Amend P35: The passage of indigenous fish and koura shall be restored, <u>over time</u> , where this is appropriate for the management and protection of indigenous fish and koura populations. |
| Kennott Family Trust | S297/087 | Policy P38: Restoration of wetlands | Amend | Amend P38: The restoration of natural wetlands and the construction of artificial wetlands to provide habitat for indigenous flora and fauna, and to carry out the physical and ecological functions of natural wetlands, shall be encouraged <u>where possible, and supported by local and regional government.</u> |
| Kennott Family Trust | S297/088 | Objective O38: Special amenity landscapes | Oppose | Delete O38. |

| | | | | |
|----------------------|----------|--|--------|---|
| Kennott Family Trust | S297/089 | Policy P49: Use and development adjacent to outstanding natural features and landscapes and special amenity landscapes | Amend | Policy P49: Use and development adjacent to outstanding natural features and landscapes and special amenity landscapes Use and development in the coastal marine area on sites adjacent to an outstanding natural feature or landscape or special amenity landscape identified in a district plan shall be managed by:... |
| Kennott Family Trust | S297/090 | Rule R114: River crossing structures - permitted activity | Amend | Amend R114(f)(ii) Increase the area to 200ha as per the east coast. |
| Kennott Family Trust | S297/091 | Schedule F3: Identified significant natural wetlands | Amend | Remove the significant natural wetland on the submitter's property from Schedule F3. |
| Kennott Family Trust | S297/092 | Natural wetland | Oppose | ...natural wetlands do not include: (a) damp gully heads, or wetted pasture, or pasture predominately containing with patches of rushes <u>or pastures predominately containing one wetland species having no other wetland indicator species...</u> |
| Kennott Family Trust | S297/093 | Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity | Amend | ...(e) discharge of sediment to water is a permitted activity, provided the following conditions are met: (f) only hand-held machinery is used in any area of the natural wetland, and (g) the activity shall comply with the wetland general conditions for activities in natural wetlands, significant natural wetlands and outstanding natural wetlands specified above in Section 5.5.2... |

| | | | | |
|----------------------|----------|--|--------|---|
| Kennott Family Trust | S297/094 | Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity | Amend | <p>...(f) only appropriate indigenous wetland species are deliberately introduced or planted, and</p> <p>(g) only appropriate pest plant species are deliberately removed or controlled, and</p> <p>(h) only agrichemicals approved by the Environmental Protection Authority are used, and</p> <p>(i) agrichemicals are not applied by aerial spraying, and</p> <p>(j) only hand-held machinery is used in any area of the wetland, and</p> <p>(k) the activity shall comply with the wetland general conditions for activities in natural wetlands, significant natural wetlands and outstanding natural wetlands specified above in Section 5.5.2...</p> |
| Kennott Family Trust | S297/095 | Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity | Oppose | [Not stated] |
| Kennott Family Trust | S297/096 | Rule R107: Activities in natural wetlands and significant natural wetlands - discretionary activity | Oppose | [Not stated] |
| Kennott Family Trust | S297/097 | Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity | Oppose | [Not stated] |

| | | | | |
|----------------------|----------|--|--------|---|
| Kennott Family Trust | S297/098 | Rule R109: Activities in outstanding natural wetlands - discretionary activity | Oppose | [Not stated] |
| Kennott Family Trust | S297/099 | Rule R110: Activities in outstanding natural wetlands - non-complying activity | Oppose | [Not stated] |
| Kennott Family Trust | S297/100 | Rule R111: Reclamation of outstanding natural wetlands - prohibited activity | Oppose | [Not stated] |
| Kennott Family Trust | S297/101 | Rule R115: Culverts - permitted activity | Amend | Amend R115(h)(ii) and (iii) to just refer to the minimum size limit of 0.3m diameter but remove any maximum size. |
| Keri Molloy | S50/001 | 2. Interpretation | Amend | Define Climate Change as "a change of climate which is attributed directly or indirectly to human activity that alters the composition of the global atmosphere and which is in addition to natural climate variability observed over comparable time periods." (Source: UN Framework Convention on Climate Change 1992). |
| Keri Molloy | S50/002 | Objective O20: Risk from natural hazards | Amend | Amend the plan to include a separate objective for climate change: "The risk, residual risk and adverse effects of climate change on people, ecosystems and infrastructure are recognised." |

| | | | | |
|---------------|----------|--|--------|---|
| Keri Molloy | S50/003 | Policy P29: Climate change | Amend | Amend Policy P29 to state: "The potential for climate change to threaten biodiversity, aquatic ecosystem health and mahinga kai or to cause or exacerbate natural hazard events that could adversely affect use and development including but not limited to:(a) coastal erosion and inundation (storm surge), and (b) river and lake flooding and erosion, aggradation, decreased minimum flows and (c) stormwater ponding and impeded drainage, and (d) sea level rise, using the best available guidance for the Wellington Region shall be recognised." |
| Kevin Tearney | S154/001 | Rule R146: Geotechnical investigation bores - permitted activity | Amend | Groundwater monitoring bore construction, development and sampling should be included in the definition of groundwater bore construction and include under Rule R146 which should also allow for the development and sampling from the bores for testing groundwater quality. |
| Kevin Tearney | S154/002 | Contaminated land | Amend | I suggest that the definition of contaminated land be aligned with the NESCS so that consideration can be given to a 'piece of land' when considering if an activity is going to take place on a contaminated site. |
| Kevin Tearney | S154/003 | Rule R54: Site investigation - permitted activity | Amend | Change the wording to be within 3 months of completion of the assessment. Set out how Council will manage the information. Reference documents such as 'the current edition of'. The Rule around the investigation of groundwater should be clearly set out and could be included under R54. |
| Kevin Tearney | S154/004 | Rule R55: Discharges from contaminated land - permitted activity | Amend | Clarify what is sought after 31 July 2017. Address condition (b) drafting error. Requirement for consenting of sites should be risk based and not defined by the NZ Drinking Water Standards or ANZECC guidelines. |
| Kevin Tearney | S154/005 | Rule R56: Discharges from contaminated land - discretionary activity | Amend | Redraft R56 to "discharge from contaminated land that does not meet requirements under R54 and R55 is a discretionary (or restricted discretionary) activity." |
| Kim Eastham | S190/001 | Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity | Oppose | Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach. |

| | | | | |
|-----------------------------|----------|--|----------------|---|
| Kimberley Linschoten | S230/001 | Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity | Oppose | Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach. |
| Kintyre Meats/Kintyre Trust | S46/001 | 2.1.3 Rules | Oppose in part | All activity should carry an automatic application right. |
| Kintyre Meats/Kintyre Trust | S46/002 | 2.1.5 Whaitua chapters | Oppose in part | Continue existing use conditions as of right within any consent renewal process. Include optional submission and appeal opportunity. |
| Kintyre Meats/Kintyre Trust | S46/003 | 3.2 Beneficial use and development | Amend | [Include] provision within the Plans allocation framework identifying industry. |
| Kintyre Meats/Kintyre Trust | S46/004 | 4.2 Beneficial use and development | Amend | Amend to clarify industrial and commercial reliant on supply independent from "potable water supply networks". |
| Kintyre Meats/Kintyre Trust | S46/005 | Policy P96: Managing land use | Oppose in part | Continue existing use provisions as of right within any consent renewal process with an opportunity of submission and appeal. |
| Kintyre Meats/Kintyre Trust | S46/006 | Policy P111: Water takes at minimum flows and water levels | Amend | Alter and clarify to ensure existing water dependant industry is provided continued access. Differential provision to 'irrigators' that seek access mainly at times of low rainfall and when the water resource is stressed. |
| Kintyre Meats/Kintyre Trust | S46/007 | Policy P112: Priorities in drought and serious water shortage | Amend | Alter to ensure water dependant industry have a priority. Also [include] provision to ensure animal slaughter facilities have adequate access to water. |
| Kintyre Meats/Kintyre Trust | S46/008 | Policy P114: Priorities when demand exceeds supply | Amend | Determine 'order of importance' and amend accordingly to include a provision to recognise consent holders that exist solely dependant on a reliable daily access to a water source. Also [include] provision to ensure animal slaughter facilities continue to have adequate access to water. |

| | | | | |
|-----------------------------|----------|--|-----------------|---|
| Kintyre Meats/Kintyre Trust | S46/009 | Policy P115: Authorising takes below minimum flows and lake levels | Amend | Amend to identify water dependant industry that exists solely on the basis of a reliable daily water source. Include a provision for industry currently sourcing from consented takes. Delete seven year limit. |
| Kiri Hunter | S214/001 | Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity | Oppose | Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach. |
| Kirsty Cooper | S229/001 | Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity | Oppose | Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach. |
| Kiwi Rail Holdings Limited | S140/001 | Commercial Port Area | Support in part | Amend to provide clarification as to what other Maps define or link to The Commercial Port Area |
| Kiwi Rail Holdings Limited | S140/002 | Common marine and coastal area | Not stated | Provide clarification as to the extent of application of the Coastal Plan provisions, specifically in relation to whether the wider environment is included, to enable certainty. |
| Kiwi Rail Holdings Limited | S140/003 | Contaminated land | Support | Retain |
| Kiwi Rail Holdings Limited | S140/004 | Earthworks | Support | Retain |
| Kiwi Rail Holdings Limited | S140/005 | Functional need | Support | Retain |
| Kiwi Rail Holdings Limited | S140/006 | Hard engineering | Support | Retain |
| Kiwi Rail Holdings Limited | S140/007 | In-water cleaning | Support | Retain |
| Kiwi Rail Holdings Limited | S140/008 | Offset | Support | Retain |
| Kiwi Rail Holdings Limited | S140/009 | Operational requirement | Support | Retain |

| | | | | |
|----------------------------|----------|--|-----------------|--|
| Kiwi Rail Holdings Limited | S140/010 | Port related activities | Amend | Amend definition as follows. Activities within the Commercial Port Area... associated with buildings, <u>other structures</u> , machinery and equipment used in connection with the port or its administration. |
| Kiwi Rail Holdings Limited | S140/011 | Regionally significant infrastructure | Support | Retain |
| Kiwi Rail Holdings Limited | S140/012 | Reverse sensitivity | Support | Retain |
| Kiwi Rail Holdings Limited | S140/013 | Strategic Transport Network | Support in part | add <u>or any subsequent versions</u> , to the end of a, b, c and d; and add: The Strategic Transport Network is mapped in the Regional Land Transport Plan 2015 <u>and if subsequently altered the latest map shall take precedence.</u> |
| Kiwi Rail Holdings Limited | S140/014 | Objective O9: Recreational values | Support in part | Amend Objective 9 as follows;The recreational values of the coastal marine area, rivers and lakes and their margins and natural wetlands are maintained and enhanced <u>where appropriate.</u> |
| Kiwi Rail Holdings Limited | S140/015 | Objective O10: Public access | Support in part | Amend Objective 10 as follows; Public access to and along the coastal marine area and rivers and lakes is maintained and enhanced <u>where appropriate.</u> |
| Kiwi Rail Holdings Limited | S140/016 | Objective O12: Benefits of regionally significant infrastructure | Support | Retain |
| Kiwi Rail Holdings Limited | S140/017 | Objective O13: Protecting regionally significant infrastructure | Support | Retain |
| Kiwi Rail Holdings Limited | S140/018 | Objective O19: Natural processes | Support in part | Amend Objective O19 as follows:The interference <u>adverse effects</u> from use and development on natural processes is minimised <u>are avoided, remedied or mitigated.</u> |

| | | | | |
|----------------------------|----------|---|-----------------|--|
| Kiwi Rail Holdings Limited | S140/019 | Objective O22: Hard engineering | Oppose | Amend Objective 22 as follows:Hard engineering mitigation and protection methods are only used as a last practicable option <u>unless there is a functional need or operational requirement.</u> |
| Kiwi Rail Holdings Limited | S140/020 | Objective O29: Fish passage | Support in part | Amend Objective 29 as follows: Use and development provides for the passage of fish and koura, and the passage of indigenous fish and koura is restored. <u>Use and development provides for the passage of fish and koura, and if appropriate, passage of fish and koura is restored where this is not currently provided.</u> |
| Kiwi Rail Holdings Limited | S140/021 | Objective O31: Outstanding water bodies | Support in part | Amend Objective O31:Outstanding water bodies and their significant values are protected <u>from inappropriate use and development.</u> |
| Kiwi Rail Holdings Limited | S140/022 | Objective O33: Significant mana whenua values | Support in part | Amend Objective 33Sites with significant mana whenua values are protected <u>from inappropriate use and development</u> and restored <u>where values have been compromised.</u> |
| Kiwi Rail Holdings Limited | S140/023 | Objective O35: Significant indigenous biodiversity values | Support in part | Ecosystems and habitats with significant indigenous biodiversity values are protected <u>from inappropriate use and development</u> and restored <u>where values have been compromised.</u> |
| Kiwi Rail Holdings Limited | S140/024 | Objective O43: Contaminated land | Support in part | Amend Objective O43Contaminated land is <u>identified and managed</u> to protect human health and the environment <u>from unacceptable contamination related effects.</u> |
| Kiwi Rail Holdings Limited | S140/025 | Objective O53: Functional need in the coastal marine area | Support | Retain |
| Kiwi Rail Holdings Limited | S140/026 | Objective O55: Public open space | Support in part | Amend Objective 55The need for public open space <u>in appropriate areas</u> of the coastal marine area is recognised. |
| Kiwi Rail Holdings Limited | S140/027 | Objective O56: New development in the coastal marine area | Support in part | Amend Objective O56 New development in the coastal marine area is of a scale, density and design that is compatible <u>with its function and its location</u> in the coastal environment. |

| | | | | |
|----------------------------|----------|---|-----------------|---|
| Kiwi Rail Holdings Limited | S140/028 | Policy P3: Precautionary approach | Support in part | Amend Policy P3 to read: Use and development shall be managed with a precautionary approach where there is limited information regarding the receiving environment and the adverse effects the activity may have on this environment. <u>A precautionary approach to the management of the nature, scale and speed of use and development shall be used where there is limited information available and there is the potential for significant adverse effects.</u> |
| Kiwi Rail Holdings Limited | S140/029 | Policy P4: Minimising adverse effects | Support in part | Amend policy: Where minimisation of adverse effects is required by policies in the Plan minimisation means reducing adverse effects of the activity to the smallest amount practicable <u>having regard to the nature and objectives of the activity</u> and shall include:...." (b) <u>if practicable considering the nature and objectives of the activity</u> locating the activity away from areas identified ... |
| Kiwi Rail Holdings Limited | S140/030 | Policy P7: Uses of land and water | Support in part | Amend Policy P7 to add: <u>(l) regionally significant infrastructure.</u> |
| Kiwi Rail Holdings Limited | S140/031 | Policy P9: Public access to and along the coastal marine area and the beds of lakes and rivers | Support in part | Amend Policy 9 as follows: (b) protect public health, <u>safety and security</u> , or (c) ... with respect to (a), (b) and (c), where it is necessary to permanently restrict or remove existing public access, and <u>where practicable and achievable and considering the nature of the activity</u> , the loss of public access shall be mitigated or offset by providing enhanced public access at a similar or nearby location <u>or offset.</u> |
| Kiwi Rail Holdings Limited | S140/032 | Policy P12: Benefits of regionally significant infrastructure and renewable electricity generation facilities | Support in part | Amend Policy by adding: <u>(f) the functional need for regionally significant infrastructure to be located over, under, within and adjacent to the beds of rivers and lakes.</u> |

| | | | | |
|----------------------------|----------|---|-----------------|---|
| Kiwi Rail Holdings Limited | S140/033 | Policy P14: Incompatible activities adjacent to regionally significant infrastructure and renewable electricity generation activities | Support | Retain |
| Kiwi Rail Holdings Limited | S140/034 | Policy P23: Restoring Te Awarua-o-Porirua Harbour, Wellington Harbour (Port Nicholson), and Lake Wairarapa | Support | (c) <u>where appropriate</u> undertaking planting and pest management programmes in harbour and lake habitats and ecosystems. |
| Kiwi Rail Holdings Limited | S140/035 | Policy P24: Outstanding natural character | Support in part | Amend Policy 24 Areas of outstanding natural character in the coastal marine area will be preserved by: (a) <u>Protecting</u> avoiding adverse effects of activities on natural character in areas of the coastal marine area with outstanding natural character <u>by avoiding inappropriate use and development</u> , and (b) ... (d) maintaining the high levels of naturalness of these areas, and (e) avoiding the adverse effects of activities, including those located outside the area, that individually or cumulatively detract from the natural character values of the outstanding natural character area. |
| Kiwi Rail Holdings Limited | S140/036 | Policy P28: Hazard mitigation measures | Oppose | Amend policy 28 as follows: Hard engineering mitigation and protection methods shall be avoided except where (a) <u>there is a functional and operational need;</u> or (b) <u>It is necessary to protect existing, and planned future</u> development from ... |

| | | | | |
|----------------------------|----------|---|-----------------|---|
| Kiwi Rail Holdings Limited | S140/037 | Policy P31: Aquatic ecosystem health and mahinga kai | Support in part | Amend Policy P31 as follows Aquatic ecosystem health and mahinga kai shall be maintained or restored by m <u>Managing in accordance with the process outlined in Policy 32</u> the effects of use and development on physical, chemical and biological processes to: [replace "minimise" with "avoid, remedy, mitigate or offset" in a, b, c, d, e and f] |
| Kiwi Rail Holdings Limited | S140/038 | Policy P32: Adverse effects on aquatic ecosystem health and mahinga kai | Support in part | Amend Policy P32 (d) as follows:(d) where residual adverse effects remain, it is appropriate to consider the use of biodiversity offsets. |
| Kiwi Rail Holdings Limited | S140/039 | Policy P39: Adverse effects on outstanding water bodies | Support in part | Amend Policy P39 as follows:The <u>significant</u> adverse effects of use and development on outstanding water bodies and their <u>significant</u> values identified in Schedule A (outstanding water bodies) shall be avoided, or <u>remedied, mitigated or offset where avoidance is not practicable.</u> |
| Kiwi Rail Holdings Limited | S140/040 | Policy P40: Ecosystems and habitats with significant indigenous biodiversity values | Support in part | Amend Policy P40 as followsProtect <u>from inappropriate use and development</u> and restore <u>if required</u> the following ecosystems and habitats with significant indigenous biodiversity values: |
| Kiwi Rail Holdings Limited | S140/041 | Policy P41: Managing adverse effects on ecosystems and habitats with significant indigenous biodiversity values | Support in part | Amend Policy P41 (d) as follows:(d) where residual adverse effects remain, it is appropriate to consider the use of biodiversity offsets. |
| Kiwi Rail Holdings Limited | S140/042 | Policy P42: Protecting and restoring ecosystems and habitats with significant indigenous biodiversity values | Support in part | Amend Policy P42 (b) as follows:(b) provide for the enhancement of ecological connectivity between fragmented habitats through biodiversity offsets |

| | | | | |
|----------------------------|----------|---|-----------------|--|
| Kiwi Rail Holdings Limited | S140/043 | Policy P44: Protection and restoration of sites with significant mana whenua values | Support in part | Amend Policy 44 Sites with significant mana whenua values identified in Schedule C (mana whenua) shall be protected <u>from inappropriate use and development</u> and/or restored. |
| Kiwi Rail Holdings Limited | S140/044 | Policy P73: Minimising adverse effects of stormwater discharges | Support in part | Amend Policy 73: The adverse effects of stormwater discharges shall be minimised <u>to an acceptable degree</u> , including by ... |
| Kiwi Rail Holdings Limited | S140/045 | Policy P132: Functional need and efficient use | Support | Retain |
| Kiwi Rail Holdings Limited | S140/046 | Policy P135: Safe passage | Support | Retain |
| Kiwi Rail Holdings Limited | S140/047 | Policy P138: Structures in sites with significant values | Support | Retain |
| Kiwi Rail Holdings Limited | S140/048 | Rule R33: Mobile source emissions - permitted activity | Support | Retain |
| Kiwi Rail Holdings Limited | S140/049 | Rule R54: Site investigation - permitted activity | Support | Retain |
| Kiwi Rail Holdings Limited | S140/050 | Rule R55: Discharges from contaminated land - permitted activity | Support | Retain |
| Kiwi Rail Holdings Limited | S140/051 | Rule R57: Discharge of hazardous substances - non-complying activity | Support | Retain |

| | | | | |
|----------------------------|----------|---|-----------------|---|
| Kiwi Rail Holdings Limited | S140/052 | Rule R56: Discharges from contaminated land - discretionary activity | Support in part | Amend Rule 56. The use of the land, and discharge of contaminants onto or into land from contaminated land where the discharge may enter water that is not permitted by Rule R54 or Rule R55 is a discretionary activity. |
| Kiwi Rail Holdings Limited | S140/053 | Rule R63: Wastewater from ships and offshore installations - permitted activity | Support | Retain |
| Kiwi Rail Holdings Limited | S140/054 | Rule R64: Wastewater from ships and offshore installations - non-complying activity | Support | Retain |
| Kiwi Rail Holdings Limited | S140/055 | Rule R65: In-water biofoul cleaning - permitted activity | Support in part | (k) <u>where the vessel has most recently arrived from an international origin</u> the cleaning or treatment method shall capture any biological material released into the water column greater than 50µm in diameter, with any captured cleaning debris disposed on land, and |
| Kiwi Rail Holdings Limited | S140/056 | Rule R67: Discharges inside sites of significance - non complying activity | Oppose | (a) inside a site or habitat identified in Schedule A (outstanding water bodies), Schedule F1 (rivers/lakes), Schedule F3 (significant wetland), or Schedule F4 (coastal sites) <u>unless located in the Commercial Port Area</u> , and |
| Kiwi Rail Holdings Limited | S140/057 | Rule R70: Cleanfill material - permitted activity | Support in part | (a) the cleanfill material is not located within 20m of a surface water body, or bore used for water abstraction for potable supply <u>unless it is being utilised to maintain or upgrade Regionally Significant Infrastructure</u> , and... (e) the volume of cleanfill material deposited at a property shall not exceed 100m ³ <u>unless it is being utilised to maintain or upgrade Regionally Significant Infrastructure</u> , and |
| Kiwi Rail Holdings Limited | S140/058 | Rule R99: Earthworks-permitted activity | Support in part | Amend Rule 99 The use of land, and the discharge of stormwater into water... |

| | | | | |
|----------------------------|----------|---|-----------------|--|
| Kiwi Rail Holdings Limited | S140/059 | Rule R101: Earthworks and vegetation clearance - discretionary activity | Support in part | Amend Rule R101 The use of land, and the discharge of stormwater |
| Kiwi Rail Holdings Limited | S140/060 | 5.5.4 Beds of lakes and rivers general conditions | Support in part | (d) structures are designed, installed and maintained, and activities are carried out in a manner to ensure that fish passage is maintained where available at the time of the works at all times. This shall include avoiding any aggradation or scouring of the bed of the river or lake that may inhibit fish passage, and <u>(n) fish passage, where available at the time of construction, shall only be restricted for construction related reasons for a maximum of 4hrs, per day and</u> ... (i) all reasonable steps shall be taken to minimise the duration of the diversion of water, and any diversion of water required to undertake the activity shall: (i) only be temporary and for a period no longer than that required to complete the activity, and (ii) must be contained within the bed of the river, and |
| Kiwi Rail Holdings Limited | S140/061 | Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity | Support | Retain |
| Kiwi Rail Holdings Limited | S140/062 | Rule R112: Maintenance, repair, replacement, upgrade or use of existing structures (excluding the Barrage Gates) - permitted activity | Support | Retain |

| | | | | |
|----------------------------|----------|--|-----------------|---|
| Kiwi Rail Holdings Limited | S140/063 | Rule R118: Removing or demolishing structures - permitted activity | Not stated | Amend (f) and (i): (f) the removal or demolition of the structure disturbs <u>the least volume and area of the bed as possible; and less than 10m³ of the bed of the river or lake, and</u> (i) the removal or deposition shall not result in the diversion of water from a natural wetland. |
| Kiwi Rail Holdings Limited | S140/064 | Rule R127: Reclamation of the beds of rivers or lakes - non-complying activity | Oppose | Amend Rule 127: <u>Except for reclamation associated with infrastructure of regional significance,</u> The reclamation of the bed, or any part of the bed, of a river or lake: |
| Kiwi Rail Holdings Limited | S140/065 | Rule R165: Additions or alterations to existing seawalls - controlled activity | Support in part | Amend (f): any addition shall add no more than <u>10m</u> 5m in horizontal projection and 1m in... |
| Kiwi Rail Holdings Limited | S140/066 | Rule R166: Seawalls outside sites of significance - discretionary activity | Support in part | Amend Rule R166 as follows:A new seawall, or the addition to or alteration or replacement of an existing seawall, and the associated use of the structure outside a site or habitat identified in Schedule C (mana whenua), Schedule F4 (coastal sites) <u>unless located in the Commercial Port Area, Schedule</u> |
| Kiwi Rail Holdings Limited | S140/067 | Rule R167: Seawalls inside sites of significance - non-complying activity | Oppose | A new seawall, or the addition to or alteration or replacement of an existing seawall, and the associated use of the structure inside a site or habitat identified in Schedule C (mana whenua), Schedule F4 (coastal sites) <u>unless located in the Commercial Port Area,</u> Schedule F5 (coastal habitats) or Schedule J (geological features) in the coastal marine area including any associated:... |
| Kiwi Rail Holdings Limited | S140/068 | Rule R173: Additions or alterations to structures inside the Commercial Port Area - permitted activity | Support | Retain |

| | | | | |
|----------------------------|----------|---|-----------------|---|
| Kiwi Rail Holdings Limited | S140/069 | Rule R174: Additions or alterations to structures inside the Commercial Port Area - controlled activity | Support | Retain |
| Kiwi Rail Holdings Limited | S140/070 | Rule R175: New structures associated with passenger and cargo handling inside the Commercial Port Area - permitted activity | Support | Retain |
| Kiwi Rail Holdings Limited | S140/071 | Rule R194: Disturbance or damage - discretionary activity | Support in part | The disturbance or damage of the foreshore or seabed outside a site or habitat identified in Schedule C (mana whenua), Schedule F4 (coastal sites) <u>unless located in the Commercial Port Area</u> , Schedule F5... |
| Kiwi Rail Holdings Limited | S140/072 | Rule R195: Disturbance or damage inside sites of significance - non complying activity | Support in part | Disturbance or damage of the foreshore or seabed inside a site or habitat identified in Schedule C (mana whenua), Schedule F4 (coastal sites)) <u>unless located in the Commercial Port Area...</u> |
| Kiwi Rail Holdings Limited | S140/073 | Rule R204: Destruction, damage or disturbance outside sites of significance - discretionary activity | Support in part | ...Destruction, damage or disturbance outside a site and habitat identified in Schedule C (mana whenua), Schedule E4 (archaeological sites), Schedule F4 (coastal sites) <u>unless located in the Commercial Port Area</u> , Schedule F5... |
| Kiwi Rail Holdings Limited | S140/074 | Rule R205: Destruction, damage or disturbance inside sites of significance - non-complying activity | Support in part | ...Destruction, damage or disturbance inside a site and habitat identified in Schedule C (mana whenua), Schedule E4 (archaeological sites), Schedule F4 (coastal sites) <u>unless located in the Commercial Port Area</u> ,... |

| | | | | |
|----------------------------|----------|---|-----------------|--|
| Kiwi Rail Holdings Limited | S140/075 | Rule R214: Reclamation and drainage for regionally significant infrastructure outside of sites of significance - discretionary activity | Not stated | ...Reclamation and drainage for regionally significant infrastructure activities outside a site or habitat identified in Schedule C (mana whenua), Schedule E4 (archaeological sites), Schedule F4 (coastal sites), <u>unless located in the Commercial Port Area</u> , Schedule F5... |
| Kiwi Rail Holdings Limited | S140/076 | Rule R215: Reclamation and drainage - non-complying activity | Not stated | ...Reclamation and drainage for regionally significant infrastructure activities outside a site or habitat identified in Schedule C (mana whenua), Schedule E4 (archaeological sites), Schedule F4 (coastal sites), <u>unless located in the Commercial Port Area</u> , Schedule F5... |
| Kiwi Rail Holdings Limited | S140/077 | Schedule F4: Sites with significant indigenous biodiversity values in the coastal marine area | Support in part | Either delete the Kaiwharawhara Stream Estuary from Schedule F4 or make provision within all relevant rules that the exceptions for sites in Schedule F4 does not apply to the Commercial Port Area. |
| Koro Pulman | S248/001 | Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity | Oppose | Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach. |
| Krystal Rankin O'Regan | S202/001 | Rule R199: Motor vehicles in the fossil forest at Titahi Bay - prohibited activity | Oppose | Amend provision to allow blanket resource consent for motor vehicles in the boat shed areas at the end of the beach. |
| Kurt Simmonds | S407/001 | Category A groundwater | Amend | Amend [definition of directly connected]: <u>Ground water in the bore is at the same level as the water in the river and moves up and down with the level of the river.</u> |
| Kurt Simmonds | S407/002 | Regionally significant infrastructure | Amend | Add after treatment plants: water race networks and facilities for the irrigation of pasture and crops. |
| Kurt Simmonds | S407/003 | Unused water | Support | Retain. |

| | | | | |
|---------------|----------|---|---------|--|
| Kurt Simmonds | S407/004 | Objective O8: Allocation regime | Amend | Amend Objective O8: "the social, <u>agricultural, industrial</u> , cultural and environmental benefits of taking and using water for current uses and also for future needs are recognised and provided for within the Plan's allocation framework" |
| Kurt Simmonds | S407/005 | Objective O25: Aquatic ecosystem health and mahinga kai | Amend | Remove [Objective 25(c)] Amend Table 3.6 to state the numerical amount: "nitrate in groundwater should not exceed human drinking water standards, i.e. 11.3". |
| Kurt Simmonds | S407/006 | Objective O52: Efficient allocation | Amend | Amend Objective O52 to read "the efficiency and allocation and use of water is improved and maximised <u>the amount is increased</u> through time, including by means of..." Add <u>(f) enabling storage within the bed of a river</u> |
| Kurt Simmonds | S407/007 | Policy P7: Uses of land and water | Amend | Add "diffuse contaminants" to (b). Retain (h). |
| Kurt Simmonds | S407/008 | Policy P11: In-stream water storage | Support | Retain. |
| Kurt Simmonds | S407/009 | Schedule P: Classifying and managing groundwater and surface water connectivity | Amend | [Amend Policy P107]: "(a) the groundwater connectivity described in Schedule P needs verifying and GW have a significant part to play in establishing the evidence"Insert (d) when Schedule P changes; "-ve effect on consent holders - 10 year lead in time to reflect cost, +ve effect - the water availability should be released immediately." |
| Kurt Simmonds | S407/010 | Policy P107: The framework for taking and using water | Amend | [Amend]: "(a) the groundwater connectivity described in Schedule P needs verifying and GW have a significant part to play in establishing the evidence" Insert (d) when Schedule P changes; "-ve effect on consent holders - 10 year lead in time to reflect cost, +ve effect - the water availability should be released immediately." |
| Kurt Simmonds | S407/011 | Policy P109: Lapse dates affecting water takes | Support | Support Policy P109. |

| | | | | |
|---------------|----------|---|---------|--|
| Kurt Simmonds | S407/012 | Policy P111: Water takes at minimum flows and water levels | Amend | <u>Category A groundwater which shall be required to reduce take by 50% of the amount consented above minimum flows following a period of 10 days of continuous river levels at minimum flow.</u> |
| Kurt Simmonds | S407/013 | Rule R135: General rule for taking, use, damming and diverting water - discretionary activity | Amend | Make Rule R135 restricted discretionary. |
| Kurt Simmonds | S407/014 | Policy P115: Authorising takes below minimum flows and lake levels | Amend | Amend Policy P115 (d) category A groundwater which shall be required to reduce take by 50% of the amount consented above minimum flows <u>following a period of 10 days of continuous river levels at minimum flow.</u> Delete (c)(i) |
| Kurt Simmonds | S407/015 | Policy P116: Reallocating water | Support | Retain. |
| Kurt Simmonds | S407/016 | Policy P117: Supplementary allocation amounts at flows above the median flow | Support | Retain. |
| Kurt Simmonds | S407/017 | Policy P118: Reasonable and efficient use | Amend | Amend Policy P118 to read "while existing users replacing existing resource consents have a period of four years from the date of the plan being made operative <u>renewal of consent to meet the criteria.</u> |
| Kurt Simmonds | S407/018 | Policy P119: Unused water | Support | Retain. |
| Kurt Simmonds | S407/019 | Policy P120: Taking water for storage | Support | Retain. |
| Kurt Simmonds | S407/020 | Policy P128: Transfer of resource consents | Support | Retain. |

| | | | | |
|---------------|----------|--|---------|--|
| Kurt Simmonds | S407/021 | Rule R137: Farm dairy washdown and milk-cooling water - permitted activity | Amend | Amend Rule R137 clause (b) by deleting words after "property..." |
| Kurt Simmonds | S407/022 | Rule R143: Temporary water permit transfers - controlled activity | Amend | Amend Rule R143 to be a permitted activity and not a controlled activity. |
| Kurt Simmonds | S407/023 | Rule R144: Transferring water permits - restricted discretionary activity | Support | Retain. |
| Kurt Simmonds | S407/024 | Method M13: Wairarapa water races | Amend | Insert after cultural values " <u>and economic values</u> of the Wairarapa water races..." |
| Kurt Simmonds | S407/025 | Method M18: Water use groups | Support | Retain. |
| Kurt Simmonds | S407/026 | Methods 19: Water management | Amend | Amend Method 19 (d) <u>quantify costs and benefits of water races and explore alternatives.</u> |
| Kurt Simmonds | S407/027 | Method M28: Development of good management practice guidelines. | Support | Retain. |
| Kurt Simmonds | S407/028 | Policy R.P3: Cumulative effects on river reaches of allocating water | Support | Insert after adverse effects: <u>that are measured</u> on aquatic... |
| Kurt Simmonds | S407/029 | 7 Ruamahanga Whaitua | Oppose | Do not include Figures 7.3-7.8 in the plan until categories have been verified. Change the allocation amounts in Tables 7.3-7.5 to what is currently allocated or more if spare water has been identified. |

| | | | | |
|---------------|----------|---|-----------------|---|
| Kurt Simmonds | S407/030 | Schedule P: Classifying and managing groundwater and surface water connectivity | Oppose | Needs empirical calibration by GW. |
| Kurt Simmonds | S407/031 | Schedule Q: Reasonable and efficient use criteria | Oppose | Remove sentence "the model must reliably predict annual irrigation volume within an accuracy of 15%"Add after field validated model: <u>for Wairarapa conditions</u> In (a) add after 80%: <u>where practicable</u> |
| Kurt Simmonds | S407/032 | Schedule R: Guideline for stepdown allocations | Amend | Add after health needs of people: <u>stock drinking water and rootstock protection.</u> [Acknowledge Table R1 is interim; consult with water users on further changes] |
| Kurt Simmonds | S407/033 | Category A groundwater | Amend | <u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u> |
| Kurt Simmonds | S407/034 | Policy P6: Synchronised expiry and review dates | Support in part | Retain and add (c) "consents will run for a period of 25 years" |
| Kurt Simmonds | S407/035 | 5.6.3 Transferring water permits | Amend | [Make transferring water a permitted activity] |
| Kurt Simmonds | S407/036 | Category B groundwater (not directly connected) | Amend | <u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u> |
| Kurt Simmonds | S407/037 | Category B groundwater (directly connected) | Amend | <u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u> |
| Kurt Simmonds | S407/038 | Category C groundwater | Amend | <u>Groundwater will be categorised A or B or C once GW has field verified its connectivity with surface water and performed an empirical calibration of the model.</u> |
| Kyle Wells | S360/001 | Category 2 surface water body | Oppose | Exclude water races and drains from [definition of] Category Two [2 surface water body]. |

| | | | | |
|------------|----------|--|--------|--|
| Kyle Wells | S360/002 | Schedule I: Important trout fishery rivers and spawning waters | Oppose | Specify criteria for "important" trout spawning rivers; delete those that don't meet the criteria. |
| Kyle Wells | S360/003 | Map 22: Trout fishery rivers and trout spawning waters (Schedule I) | Oppose | Specify criteria for "important" trout spawning rivers: delete those that don't meet the criteria. |
| Kyle Wells | S360/004 | Rule R97: Access to the beds of surface water bodies by livestock - permitted activity | Oppose | Extend the timeframes, e.g. Category 1 surface water bodies by 2020, category 2 surface water bodies by 2025. Exclude sheep from Category 1 surface water bodies. Delete requirement for dairy cow exclusion from hill country rivers >1 metre wide. Specify that stock exclusion from inanga or trout spawning sites is during the spawning season. Allow for stock drinking points. Ensure that alternative stock water supplies are available and rules don't apply until they are. |
| Kyle Wells | S360/005 | Stock crossing point | Oppose | Amend the definition of "stock crossing" to match hill country practicalities and effects. |
| Kyle Wells | S360/006 | Natural wetland | Oppose | Amend definition to exclude intermittent and ephemeral water bodies and clarify these do not include hill country seeps or paddocks subject to regular ponding, dominated by cultivated pasture, whether or not associated with sedge, raupo or rush species. |
| Kyle Wells | S360/007 | Significant natural wetland | Oppose | Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha. |
| Kyle Wells | S360/008 | Schedule F3: Identified significant natural wetlands | Oppose | Re-prioritise to focus efforts on the highest value sites; change minimum size from 0.1ha to 1.0ha. |

| | | | | |
|------------|----------|--|--------|--|
| Kyle Wells | S360/009 | Rule R105: Planting and pest plant control in natural wetlands, significant natural wetlands and outstanding natural wetlands - permitted activity | Oppose | Allow for planting introduced species for bees or ducks |
| Kyle Wells | S360/010 | Rule R106: Restoration of natural wetlands, significant natural wetlands and outstanding natural wetlands - controlled activity | Oppose | Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership. |
| Kyle Wells | S360/011 | Rule R107: Activities in natural wetlands and significant natural wetlands - discretionary activity | Oppose | Amend to provide for restoration or enhancement of wetlands to be a permitted activity, with plans prepared as a non-regulatory partnership. |
| Kyle Wells | S360/012 | Rule R108: Activities in natural wetlands and significant natural wetlands - non-complying activity | Oppose | Allow diversion of water as part of a restoration plan. |
| Kyle Wells | S360/013 | Rule R104: Structures in natural wetlands and significant natural wetlands - permitted activity | Oppose | Allow use of machines rather than just hand held |

| | | | | |
|------------|----------|---|--------|--|
| Kyle Wells | S360/014 | Rule R83: Discharge of collected animal effluent onto or into land - controlled activity | Oppose | Undertake more rigorous regional cost-benefit analysis of pond storage and sealing requirements. Provide reasonable timeframes and a stepped approach for the installation of storage (eg 3-5 years). Clarify the definition of ponding; and exclude extreme weather events, breakdowns out of manager's control, be consistent with urban conditions. In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary. Extend consent timeframe to 20 years to reflect investment made. |
| Kyle Wells | S360/015 | Rule R93: All other discharges to land - discretionary activity | Oppose | [Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary. |
| Kyle Wells | S360/016 | Map 27a: Groundwater community drinking water supply protection areas - Wairarapa (incorporates Schedule M2) | Oppose | [Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary. |
| Kyle Wells | S360/017 | Map 27b: Groundwater community drinking water supply protection areas - Hutt Valley (incorporates Schedule M2) | Oppose | [Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary. |
| Kyle Wells | S360/018 | Map 27c: Groundwater community drinking water supply protection areas - Kapiti Coast (incorporates Schedule M2) | Amend | [Regarding discharge of collected animal effluent rule R83] In groundwater protection areas, undertake a risk analysis to support a controlled rule rather than discretionary. |
| Kyle Wells | S360/019 | Silage | Oppose | Change definition to specify this does not include baleage. |

| | | | | |
|------------|----------|--|--------|--|
| Kyle Wells | S360/020 | Rule R90: Manufacture and storage of silage and compost - permitted activity | Oppose | Delete requirement for impermeable lining; retain condition that there be no discharge to water. Delete requirement for location not allowed within 20m of a surface water body. |
| Kyle Wells | S360/021 | Rule R94: Cultivation or tilling of land - permitted activity | Oppose | Delete condition requiring a 5m setback. |
| Kyle Wells | S360/022 | Rule R95: Break-feeding - permitted activity | Oppose | Delete condition requiring a 5m setback. |
| Kyle Wells | S360/023 | Highly modified river or stream | Oppose | Change definition to include all streams that have been modified by human activity - straightening, deepening, channeling. |
| Kyle Wells | S360/024 | Rule R121: Maintenance of drains - permitted activity | Oppose | [Condition (j)] Provide maps clearly showing drains and highly modified streams that are covered by Rule R121. Provide direction to landowners about the type of waterways on their land. Extend timeframe for implementation of new conditions from 2017 to 2020. |
| Kyle Wells | S360/025 | Rule R122: Removing vegetation - permitted activity | Oppose | [Condition l] Provide direction to landowners about the type of waterways on their land. |
| Kyle Wells | S360/026 | Method M14: Maintenance of drains | Oppose | Fast-forward Method M14 to develop agreed good practice for drain clearing prior to the hearing. |
| Kyle Wells | S360/027 | Earthworks | Oppose | Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance. |
| Kyle Wells | S360/028 | Rule R99: Earthworks-permitted activity | Oppose | Amend definition and Rule R99 to allow construction of farm tracks as permitted as well as maintenance. |
| Kyle Wells | S360/030 | Erosion prone land | Oppose | Change definition to increase the slope and exclude stable substrate, e.g. greywacke. |

| | | | | |
|------------|----------|--|--------|---|
| Kyle Wells | S360/031 | Vegetation clearance | Oppose | Change definition to exclude hand clearance, hand or aerial spraying and roller crushing. |
| Kyle Wells | S360/032 | Rule R100: Vegetation clearance on erosion prone land - permitted activity | Oppose | See submission point [S360/030 and 031] on definition of "erosion prone" and "vegetation clearance". |
| Kyle Wells | S360/033 | Rule R101: Earthworks and vegetation clearance - discretionary activity | Oppose | Change rule to controlled or restricted discretionary with clear conditions. |
| Kyle Wells | S360/034 | Rule R114: River crossing structures - permitted activity | Oppose | Change the 50ha catchment restriction to 200ha (or clarify rationale for the difference). Increase the size for fords and bridges.(20m2 too small). Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost. |
| Kyle Wells | S360/035 | Rule R115: Culverts - permitted activity | Oppose | Delete condition [(h)(ii)] restricting culvert diameter. retain condition that culvert be constructed to allow for 20 year flood. Provide advice to landowner of appropriate culvert sizes. Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (f)] - not leaving this to a consent process at landowner cost. |
| Kyle Wells | S360/036 | Rule R125: Structures within a site identified in Schedule C (mana whenua) - restricted discretionary activity | Oppose | Undertake proper assessment of restrictions proposed for mana whenua sites [Condition (h)] - not leaving this to a consent process at landowner cost. |
| Kyle Wells | S360/037 | Rule R89: Farm refuse dumps - permitted activity | Oppose | Increase size from 50m3 to 100m3. Heavily prune the fourteen other conditions to focus on clear effects. |
| Kyle Wells | S360/038 | Rule R91: Offal pit - permitted activity | Oppose | Retain condition (a) and condition (h). Heavily prune the seven other conditions to focus on clear effects. |

| | | | | |
|------------|----------|--|------------|--|
| Kyle Wells | S360/039 | Rule R36: Agrichemicals - permitted activity | Oppose | Change condition (g) [spray plan] to more reasonably reflect practicalities and risks. [Regarding condition (e) community drinking water supply protection area] undertake a risk analysis to support condition for a controlled rule rather than discretionary. |
| Kyle Wells | S360/040 | Rule R82: Application of fertiliser from ground-based or aerial application - permitted activity | Oppose | Amend condition (a) to reflect the practicalities of aerial fertiliser application. |
| Kyle Wells | S360/041 | Rule R48: Stormwater from an individual property - permitted activity | Oppose | Delete condition (a). Delete condition (e). Retain condition (g). |
| Kyle Wells | S360/042 | Entire Plan | Not stated | Support Wairarapa Federated Farmers submission [S352] |
